📖 **SHIPPING INNOVATION** N. Wijnolst, Tor Wergeland, Kai Levander, 2009 There were not many textbooks on shipping available for the students in the early 1990s. Therefore it was decided to write Shipping in 1996. One year earlier, Niko Wijnolst had published Design Innovation in Shipping, based on work at the Delft University of Technology. The two books together offered a comprehensive insight and overview into the dynamics of global shipping and maritime innovation. Although the core of the books held its value, it was decided to make an update of the two books and merge them into one new textbook, Shipping Innovation, destined for a broad specter of maritime students and professionals. Some substantial new parts were added, as well as some new contributions by other writers. This textbook offers a one-stop-shopping experience to those students and professionals who wish to get acquainted with the multifaceted aspects of global shipping and its everlasting innovation dynamics. Some of the new contributions are the mission-based design process of a Panamax containership and a ro-ro vessel; sustainable shipping and innovation; and an innovation case-study on the revolutionary design of a ballast-free ship.

📖 **INTERNATIONAL ORGANIZATIONS AND THE LAW OF THE SEA 1997** Barbara Kwiatkowska, Harm Dottinga, Merel Molenaar, Alex G Oude Elferink, Alfred H A Soons, 2023-07-03 Now in its 13th year, the NILOS Documentary Yearbook provides the reader with an excellent collection of documents related to ocean affairs and the law of the sea, issued each year by organizations, organs and bodies of the United Nations system. Documents of the UN General Assembly, Meeting of State Parties to the 1982 UN Law of the Sea Convention, ISBA, ITLOS, Follow-Up to the UN Straddling Fish Stocks and Small Island States Conferences, Panama Canal, ECOSOC, UNEP and UNCTAD are included first, followed by the documents of FAO, IAEA, IMO, UNESCO/IOC. As in the previous volumes, documents which were issued in the course of 1997 are reproduced, while other relevant documents are listed. The NILOS Documentary Yearbook has proved to be of invaluable assistance in facilitating access by the community of scholars and practitioners in ocean affairs and the law of the sea to essential documentation. The entry of the 1992 UN Law of the Sea Convention into force on 16th November 1994 and of the Part XI Agreement - on 28 July 1996, and progress in the implementation of Chapter 17 of Agenda 21, make continuation of this assistance of particular significance in the years to come. The members of the Yearbook's Advisory Board are: Judges Abdul Koroma and Shigeru Oda of the ICJ, Judges Thomas Mensah, Dolliver Nelson and Tullio Treves of the ITLOS, as well as Rosalie Balkin, Edward Brown, Lee Kimball, Bernard Oxman and Shabtai Rosenne.

📖 **DYNAMIC EUROPEAN MARITIME CLUSTERS** N. Wijnolst, 2006 European maritime industries are often fragmented, not only geographically, but also in terms of sectors and company size. This book states that, in order to face the increasing global competition, Europe should address these constraints and create a more integrated network and market of the European maritime sectors, industries and entrepreneurs.

📖 **MARITIME ECONOMICS 3E** Martin Stopford, 2008-12-19 For 5000 years shipping has served the world economy and today it provides a sophisticated transport service to every part of the globe. Yet despite its economic complexity, shipping retains much of the competitive cut and thrust of the perfect market of classical economics. This blend of sophisticated logistics and larger than life entrepreneurs

📖 **MARITIME ECONOMICS** Alan Branch, Martin Stopford, 2013-04-15 Now in its second edition Maritime Economics provides a valuable introduction to the organisation and workings of the global shipping industry. The author outlines the economic theory as well as many of the operational practicalities involved. Extensively revised for the new edition, the book has many clear illustrations and tables. Topics covered include: \* an overview of international trade \* Maritime Law \* economic organisation and principles \* financing ships and shipping companies \* market research and forecasting.

📖 **EAST ASIA AND THE GLOBAL ECONOMY** Stephen G. Bunker, Paul S. Ciccantell, 2007-07-16 After World War II, Japan reinvented itself as a shipbuilding powerhouse and began its rapid ascent in the global economy. Its expansion strategy integrated raw material procurement, the redesign of global transportation infrastructure, and domestic industrialization. In this authoritative and engaging study, Stephen G. Bunker and Paul S. Ciccantell identify the key factors in Japan's economic growth and the effects this growth had on the reorganization of significant sectors of the global economy. Bunker and Ciccantell discuss what drove Japan's economic expansion, how Japan globalized the work economy to support it, and why this spectacular growth came to a dramatic halt in the 1990s. Drawing on studies of ore mining, steel making, corporate sector reorganization, and port/rail development, they provide valuable insight into technical processes as well as specific patterns of corporate investment. East Asia and the Global Economy introduces a theory of "new historical materialism" that explains the success of Japan and other world industrial powers. Here, the authors assert that the pattern of Japan's ascent is essential for understanding China's recent path of economic growth and dominance and anticipating what the future may hold.

📖 **GLOBALIZATION AND THE RACE FOR RESOURCES** Stephen G. Bunker, Paul S. Ciccantell, 2005-11-11 Drawing from extensive historical research into how economic and environmental dynamics interacted in the extraction of different materials in the Amazon, especially in the development of the iron mine of Carajas, the authors illustrate the profound connection between global dominance and control of natural resources.

📖 **INTERNATIONAL ORGANIZATIONS AND THE LAW OF THE SEA** Nilos, 1995-01-01 The NILOS yearbooks provide the reader with a collection of documents related to ocean affairs and the law of the sea, issued each year by organizations, organs and bodies of the United Nations system. Documents of the UN General Assembly, ECOSOC and its regional commissions, the UN Secretary-General's Informal Consultations, PrepCom ISA/ITLOS, UNCED, UNEP and UNCTAD are included first, followed by the documents of specialized agencies and other autonomous organizations of the UN system, including FAO, IAEA, ILO, IMO, UNESCO/IOC and WMO.

📖 **HERE COMES EVERYBODY** James Fearnley, 2014-05-01 "Everything a really great music memoir should be." —Colin Meloy The Pogues injected the fury of punk into Irish folk music and gave the world the troubled, iconic, darkly romantic songwriter Shane MacGowan. Here Comes Everybody is a memoir written by founding member and accordion player James Fearnley, drawn from his personal experiences and the series of journals and correspondence he kept throughout the band's career. Fearnley describes the coalescence of a disparate collection of vagabonds living in the squats of London's Kings Cross, with, at its center, the charismatic MacGowan and his idea of turning Irish traditional music on its head. With beauty, lyricism, and great candor, Fearnley tells the story of how the band watched helplessly as their singer descended into a dark and isolated world of drugs and drink, and sets forth the increasingly desperate measures they were forced to take. James Fearnley was born in 1954 in Worsley, Manchester. He played guitar in various bands, including The Nips with Shane MacGowan, before becoming the accordion player in The Pogues. Fearnley continues to tour with the band and lives in Los Angeles.
