**Greene's Protective Groups in Organic Synthesis** Peter G. M. Wuts, Theodora W. Greene, 2012-12-20 The Fourth Edition of Greene's Protective Groups in Organic Synthesis continues to be an indispensable reference for controlling the reactivity of the most common functional groups during a synthetic sequence. This new edition incorporates the significant developments in the field since publication of the third edition in 1998, including... New protective groups such as the fluorous family and the uniquely removable 2-methoxybenzenesulfonyl group for the protection of amines New techniques for the formation and cleavage of existing protective groups, with examples to illustrate each new technique Expanded coverage of the unexpected side reactions that occur with protective groups New chart covering the selective deprotection of silyl ethers 3,100 new references from the professional literature The content is organized around the functional group to be protected, and ranges from the simplest to the most complex and highly specialized protective groups.

From Structures to Services Eduardo Cavallo, Andrew Powell, Tomás Serebrisky, 2020-08-07

Primary Documents Mário Pedrosa, 2015 The seventh release in an ambitious series of documentary anthologies published under the auspices of MoMA's International Program, this volume offers Anglophone readers an excellent introduction to the work of Mário Pedrosa (1900-81), one of Brazil's most influential art critics and social commentators. Organized in eight thematic groupings, the well-chosen, elegantly translated texts--most of which originally appeared in Brazilian newspapers--range in date from 1927 to 1981 and draw from Pedrosa's extensive writings on art, architecture, the role of

criticism and the critic, and the politics of culture and from his professional and personal correspondence. Informative brief essays by critics and scholars, including some who knew and collaborated with Pedrosa, introduce the volume as a whole and preface each of the eight sections. Pedrosa's life and career are detailed in a chronology created by his grandson. This long-overdue volume makes an important contribution to the literature of modernism. -- Choice.

**No Barrier Can Contain It** Ariel Mae Lambe, 2019-10-10 Vividly recasting Cuba's politics in the 1930s as transnational, Ariel Mae Lambe has produced an unprecedented reimagining of Cuban activism during an era previously regarded as a lengthy, defeated lull. In this period, many Cuban activists began to look at their fight against strongman rule and neocolonial control at home as part of the international antifascism movement that exploded with the Spanish Civil War. Frustrated by multiple domestic setbacks, including Colonel Fulgencio Batista's violent crushing of a massive general strike, activists found strength in the face of repression by refusing to view their political goals as confined to the island. As individuals and in groups, Cubans from diverse backgrounds and political stances self-identified as antifascists and moved, both physically and symbolically, across borders and oceans, cultivating networks and building solidarity for a New Spain and a New Cuba. They believed that it was through these ostensibly foreign fights that they would achieve economic and social progress for their nation. Indeed, Cuban antifascism was such a strong movement, Lambe argues, that it helps to explain the surprisingly progressive turn that Batista and the Cuban government took at the end of the decade, including the establishment of a new constitution and presidential elections.

Cuba Betrayed Fulgencio Batista y Zaldivar,2019-01-13 Cuba Betrayed, first published in 1962, is an autobiographical work of former Cuban dictator Fulgencio Batista, in which he expresses his viewpoint regarding his two terms as dictator, his defeat, and his successors—Cuba's "Betrayers." "The book is not meant to be a literary masterpiece. Still less has there been any attempt at stylistic elegance. It is, rather, an exposition of facts, a narration based on memory and notes."—Introduction

Pediatric Surgery Emmanuel A. Ameh, Stephen W. Bickler, Kokila Lakhoo, Benedict C. Nwomeh, Dan Poenaru, 2020-11-23 The second, fully updated edition of this book applies and contextualizes up-to-date information on pediatric surgery for low and middle-income countries (LMICs). The book is organized in general anatomic and thematic sections within pediatric surgery, such as urology, oncology, orthopedics and gastroenterology and includes chapters addressing the unique challenges and approaches for pediatric surgery in low-resource settings. Each chapter has dual authorship LMIC author providing context-specific insights and authors from high-income countries (HICs) contributing experience from well-resourced settings. Written in a reader-friendly format, this book has a uniform structure in each chapter, with introduction, demographics, etiology, pathophysiology, clinical presentations, investigations, management, outcome, prevention, ethics, evidence-based surgery and references. This comprehensive volume fills the gap between up-to-date pediatric surgical scholarship and knowledge developed and applied in HICs, and the practical needs of practitioners in low-resource settings. This is an indispensable guide for postgraduate surgical trainees in Africa and other LMICs as well as general surgeons practicing in Africa and other LMICs, who need to care surgically for children.

*Cultural Organizations, Networks and Mediators in Contemporary Ibero-America* Diana Roig-Sanz, Jaume Subirana, 2020-01-03 This book proposes an innovative conceptual framework to explore cultural organizations at a multilateral level and cultural mediators as key figures in cultural and

institutionalization processes. Specifically, it analyzes the role of Ibero-American mediators in the institutionalization of Hispanic and Lusophone cultures in the first half of the 20th century by means of two institutional networks: PEN (the non-governmental writer's association) and the International Institute of Intellectual Cooperation (predecessor to UNESCO). Attempting to combine cultural and global history, sociology, and literary studies, the book uses an analytical focus on intercultural networks and cultural transfer to investigate the multiple activities and roles that these mediators and cultural organizations set in motion. Literature has traditionally studied major figures and important centers of cultural production, but other regions and localities also played a crucial role in the development of intellectual cooperation. This book reappraises the place of Ibero-America in international cultural relations and retrieves the lost history of key secondary actors. The book will appeal to scholars from international relations, global and cultural history, sociology, postcolonial Studies, world and comparative literature, and New Hispanisms.
