Gangster Nation Tod Goldberg,2017-09-01 Sal Cupertine is back—and better than ever. I love this guy. —Lee Child Gangster Nation is a razor. It will slice you open and reveal your insides. And like the best of Tod Goldberg's work, it'll show you everything you are at your core. —Brad Meltzer, New York Times bestselling author of *The President's Shadow* It's been two years since the events of *Gangsterland*, when legendary Chicago hitman Sal Cupertine disappeared into the guise of Vegas Rabbi David Cohen. It's September of 2001 and for David, everything is coming up gold: Temple membership is on the rise, the new private school is raking it in, and the mortuary and cemetery—where Cohen has been laundering bodies for the mob—is minting cash. But Sal wants out. He's got money stashed in safe-deposit boxes all over the city. He's looking at places to escape to, Mexico or maybe Argentina. He only needs to make it through the High Holidays, and he'll have enough money to slip away, grab his wife and kid, and start fresh. Across the country, former FBI agent Matthew Drew is now running security for an Indian Casino outside of Milwaukee, spending his off-time stalking members of The Family, looking for vengeance for the murder of his former partner. So when Sal's cousin stumbles into the casino one night, Matthew takes the law into his own hands—again—touching off a series of events that will have Rabbi Cohen running for his life, trapped in Las Vegas, with the law, society, and the post-9/11 world closing in around him. *Gangster Nation* is a thrilling follow-up to *Gangsterland*, an unexpected, page-turning examination of the seedy foundations of American life. With the wit and gritty glamor that defines his writing, Goldberg traces how the things we most value in our lives—home, health, even our spiritual lives—have been built on the enterprises of criminals.

Studies in English Trade in the 15th Century Eileen Power,M.M. Postan,2013-11-05 Of all the activities of the most neglected century in English History, England's trade has received the least attention in proportion to its importance. It was obviously in the course of the later Middle Ages, and more particularly in the fifteenth century, that there took place the great transformation from medieval England, isolated and intensely local, to the England of the Tudor and Stuart age, with its world-wide connections and imperial designs. It was during the same period that most of the forms of international trade characteristic of the Middle Ages were replaced by new methods of commercial organization and regulation, national in scope and at times definitely nationalistic in object, and that a marked movement towards capitalist methods and principles took place in the sphere of domestic trade. Yet little has been written concerning English trade in this period. First published in 1933, this classic volume goes a long way to fill this gap superbly. There is an abundance of material, and the writers have compiled a statistical analysis of the Enrolled Customs Account from 1377-1482, which provides an essential measure of the nature, volume, and movement of English foreign commerce during the period.

A Distant Field RJ MacDonald, 2018-11-11 2019 Winner, Military Fiction, Independent Press Awards 2019 Gold Medal Winner, Historical Fiction, Military Writers Society of America 2019 Finalist, Military Fiction, American Fiction Awards This harrowing journey through World War I begins aboard the RMS Lusitania and ends on the edge of the world. For the Scots-American McReynolds brothers, World War I began with a German torpedo that slammed into the Lusitania. Despite frantic rescue efforts, they watch their family drown in front of their eyes. Having escaped the doomed ship in frigid waters off Ireland, they are rescued by four young Irishmen and together they vow to strike back in the war that was cutting a bloody swath through Europe in 1915. Searching for a unit that was bound to see action, they enlist with the vaunted Seaforth Highlanders, a Scottish regiment with a fearsome reputation. Soon they are tossed into the bloody cauldron of Gallipoli, where they must learn to fight and struggle to survive in one of the most ill-conceived and brutal campaigns of the war. Under a baking Aegean sun, surrounded by dead and maimed comrades, and facing a brutal and determined enemy sworn to Jihad, the brothers discover crucial differences in their reactions to the carnage of infantry combat. In the reeking, bloody trenches of Gallipoli, war becomes a very ugly school—where few live long enough to graduate. “From the sinking of the Lusitania to the battlefield cauldron of Gallipoli, RJ MacDonald weaves an action-packed story that leaves the reader breathless.” Military Writers Society of America “To fans of the genre of military fiction, RJ MacDonald’s, ‘A Distant Field’ might well be the book of the year. World War Media “... the battle sequences are both horrifying and exciting. This is a well-written novel, and if you are a collector of books on the First World War, I suggest you add this novel to your collection.” Historical Novel Society “It’s straight in at the deep end, as it opens with two brothers and their family on board the Lusitania when it gets torpedoed. This is breathless stuff... It’s all well written and a good yarn...” Militaria & History: The Armourer Magazine “RJ MacDonald’s writing is vivid and gripping. Excellent historical fiction.” Professor Jonathan P. Roth, San Jose State University, Director, Burdick Military History Project “His mastery of descriptive art is reminiscent of some of John Steinbeck’s stories... Professor Hal Elliott, Weber State University and Scots American Military Society “...a very compelling story... attention to detail sentence-for-sentence is stunning, and really builds the world while leaving the reader enough to imagine with. Phantom Warriors Gary Linderer, 2008-12-10 Here are some of the most courageous missions executed by six-man teams on their own deep behind enemy lines. Ranging from the Central Highlands to the Mekong Delta to excursions— authorized and unauthorized—into Cambodia, these gripping accounts begin when the call first went out for covert U.S. long-range reconnaissance patrols in late 1965, continue through the battles of Tet, and go all the way up to the final, tortured pullout. These are LRRP, LRP, and Ranger units at their finest, under the most desperate circumstances: one team surrounded by the enemy with no choice but to break out of the trap—or die, another caught in an ambush of horrific proportions. When recon missions suddenly became contact missions, when grenades started flying and AK-47s were smoking, each man’s life was instantly on the line—and only his skills and the grit of his teammates could prevent certain death. These highly trained warriors were among the best America had to offer, and they gave their best, no matter how high the price. . . .

Gunsмоke Serenade Thomas McNulty, 2016-06-30 While passing through Cherrywood Crossing, US Marshal Maxfield Knight is confronted by a gang of hired guns who tell him to ride the other way, or be shot down. With no choice but to ride into the high country, Knight soon learns he is being hunted by a man named Silas Manchester, but why, he has no idea. Determined to survive this dangerous game that he's been forced to play, Knight is destined to become the hunter rather than the hunted. Aided by a mountain man named Lacroix, Knight decides to bring the fight to Manchester and get answers. Meanwhile, Knight's partner, Deputy US Marshal Cole Tibbs, sets out looking for his missing friend. Tibbs will discover that he, like his friend, has also become part of a dangerous game that turns into a serenade of violence.

Woman In The Locker Room Maggie Holeman, 2016-07-09 Growing up in a challenging family gave Maggie Holeman the determination to go against the system and prevail. During her career at the Anchorage airport, Maggie was instrumental in getting separate bathrooms, locker rooms, and hair regulations for women. Maggie was the first woman to achieve the award of weapon proficiency, being top gun, at the Sitka Police Academy. She developed and became one of the first training officers at that airport in both police and fire. Maggie received a legislative commendation for bravery for her response to the YC-122 crash. After earning her BA in criminal justice, she worked as an adult probation/parole officer for the State of Alaska and Boy's Detention at McLaughlin Youth Center. After 23 years with the State of Alaska, Maggie retired to the small community of Hope, Alaska, population 150, where she runs a five star bed and breakfast and finds her days peaceful without turmoil.

Breaking Chaos Grace Hamilton, Abandon all hope... The factory was supposed to be the last safe haven left on Earth after an EMP catastrophe shut down power worldwide. But Melanie's group isn't the only one who wants it. A militia who are determined to capture Nate take over her base of operations, forcing Melanie, her family, and her friends to flee into the unforgiving wasteland. Beyond the walls, the outside world continues to spiral into darkness. With enemies on their trail, Melanie's only hope for survival is to keep moving... or sacrifice Nate for the good of the group. After all, they can't run forever, and she can't deny that caring for Nate is slowing them down... Hunted and on the run, the threat of sickness and injury hangs over their heads. Their journey will take them through savage territory, populated by desperate people who will do anything to survive. If her ragtag group can't find a new shelter, tragedy will claim them all. But when a team member goes missing, Melanie is forced to make a choice: keep moving forward, or risk it all to make a stand...
