Fifty Shades of Crimson Pete Tomsett,2021-09-15 Features interviews with Bill Bruford, Peter Giles, Gordon Haskell, Judy Dyble and more . . . In 1969 five young Englishmen calling themselves King Crimson altered the course of rock music, and despite a revolving-door lineup, the band has continued to innovate and inspire for more than fifty years. *Fifty Shades of Crimson* tells the story of this legendary band and of the unique English guitarist Robert Fripp it revolves around. With a deep passion for the music, author Pete Tomsett celebrates the achievements of Fripp and the array of incredible talent that has passed through Crimson, while not shying away from the many behind-the-scenes difficulties. Getting signed after supporting The Rolling Stones at Hyde Park, Crimson shot to fame with their debut album, *In the Court of the Crimson King*, becoming one of the most influential bands of that era and triggering the rise of prog rock. While going through countless personnel, including Greg Lake, Bill Bruford and John Wetton, rejecting Elton John and Bryan Ferry along the way, they have put out many highly acclaimed albums and to this day maintain a big international following. In their early years Fripp's band reached the same commercial heights as the likes of David Bowie and Pink Floyd. However, as an intellectual who despised the practices of the music business, Fripp preferred innovation over chasing big sales. In 1974 he withdrew from mainstream music, becoming involved with the Fourth Way philosophy, but was eventually tempted back and reformed Crimson to much acclaim in the eighties. As well as also having collaborations with Brian Eno, Andy Summers and others, Fripp has created new forms of instrumental music, run his own idiosyncratic guitar courses and set up an ethical record company. Both genius and 'a special sort of awkward', Fripp has never been afraid to take his music where no one has gone before, and Crimson have been a powerful influence on everyone from Genesis and Yes to Roxy Music and Radiohead, creating a legacy that will live on for decades more!

The Year's Work in Showgirls Studies Melissa Hardie, Meaghan Morris, Kane Race, 2024-02-06 The Year's Work in Showgirls Studies is a fan culture volume that deconstructs how and why Showgirls, a 1995 drama with a female lead bent on becoming a famous performer in Las Vegas, became a much-contested cult film despite being a critical failure when it released. The collection orchestrates a conversation between scholarly essay work and archival documentation offering a magnificent representation of the array of responses generated by the film, its makers, its promoters, and its audience. A multifaceted approach to the film, its popularity, and its social relevance results in a new text for understanding normative social hierarchies of sexuality, race, and gender. The Year's Work in Showgirls Studies engages with the figurative and actual place of sex work and feminized affective labor in our society.

50 Shades of Grey Matter Dr Karl Kruszelnicki, 2012-11-01 Welcome to the wonderful world of Dr Karl: where oddities are embraced, facts reign supreme, curiosity is king and brightly coloured shirts are compulsory! Dr Karl is Australia's incumbent President of Science The Age There's no topic on which Dr Karl does not have an interestingly expressed opinion The Weekly Review In 50 Shades of Grey Matter, Australia's National Living Treasure Dr Karl Kruszelnicki applies his trademark straight-talkin'-no-high-falutin' scientific sense to a brand new range of Big Questions that you never knew you even wanted to ask, but now desperately need to know the answers to. Have you ever walked into a room and immediately forgotten the reason you're there? A solid thought convinced your legs to move, but by the time you reach your destination, you realise the thought has abandoned you en route. No, it's not dementia. It's the doorway. Impress your friends (and potential dates) by being able to answer such questions as: - Why is the sky is blue? - Why is it dark at night? - Why does lunacy erupt under a full moon? - What's the truth about spinach and Popeye? In this ever-changing, fast-paced and sometimes crazy world, few things are certain. But what is certain is that Dr Karl is here to help us battle our way through half-baked scientific myths and rumours, so that we may emerge smarter, stronger and viewing the world with more wonder than ever before. Fans of Adam Spencer will love 50 Shades of Grey Matter. This is a specially formatted fixed layout ebook that retains the look and feel of the print book.
