Four Wheels and a Board Betsy Gordon,Jane Rogers,2022-11-01 A bold look at the creative, controversial, and vibrant history of

skateboarding, and the amazing skaters who continually reinvent it Skateboarding isn't just a recreational activity, but a professional sport, lifestyle, art form, and cultural phenomenon. The striking book *Four Wheels and a Board* captures its spirited history, iconic skateboarders, diverse community, and the palpable passion of the people who love it. It includes contributions from the most influential names in the game, including Rodney Mullen, Tony Hawk, Mimi Knoop, and more. The gorgeously designed book presents objects, artifacts, and photographs from the Smithsonian's collections that exemplify the vitality and innovation of skate culture. Book chapters are organized chronologically by decade from the '60s to present day, starting with 20th-century surfboards, moving through technological changes, the disappearance of skate parks, the rise of social media and collaborations, and ending with never-before-seen objects from the 2020 Summer Olympics, where skateboarding made its historic Olympic debut. Largely invented by youth, skateboarding has attracted punks, misfits, and dreamers looking for somewhere to belong. The book features skateboards and skaters who open dialogues about race, the gender binary, queerness, the displacement of Native people, and so much more, shining a light on people and places not often represented in traditional skateboard history. *Four Wheels and a Board* is a fresh look at a transformative culture, and one hell of a ride.

Kickflip Boys Neal Thompson, 2018-05-15 "Thompson captures the ache, fizz, yearning and frustration of being the father of adolescent boys." –Michael Chabon "What a riveting, touching, and painful read!" –Maria Semple "Fun, moving, raw, and relatable." –Tony Hawk What makes a good father, and what makes one a failure? Does less-is-more parenting inspire independence and strength, or does it encourage defiance and trouble? Kickflip Boys is the story of a father's struggle to understand his willful skateboarder sons, challengers of authority and convention, to accept his role as a vulnerable "skate dad," and to confront his fears that the boys are destined for an unconventional and potentially fraught future. With searing honesty, Neal Thompson traces his sons' progression through all the stages of skateboarding: splurging on skate shoes and boards, having run-ins with security guards, skipping classes and defying teachers, painting graffiti, drinking and smoking, and more. As the story veers from funny to treacherous and back, from skateparks to the streets, Thompson must confront his complicity and fallibility. He also reflects on his upbringing in rural New Jersey, and his own adventures with skateboards, drugs, danger, and defiance. A story of thrill-seeking teens, of hope and love, freedom and failure,

Kickflip Boys reveals a sport and a community that have become a refuge for adolescent boys who don't fit in. Ultimately, it's the survival story of a loving modern American family, of acceptance, forgiveness, and letting go.

### **In Search of Julián Carrillo and Sonido 13**

Alejandro L. Madrid, 2015-08-04 In the 1920s, the Mexican composer Julián Carrillo (1875-1965) developed a microtonal system called El Sonido 13 (The 13th Sound). Although his pioneering role as one of the first proponents of microtonality within the Western art music tradition elevated Carrillo to iconic status among European avant-garde circles in the 1960s and 1970s, his music and legacy have remained largely overlooked by music scholars, critics, and performers. Confronting this paucity of scholarship on Carrillo and his music, Alejandro L. Madrid goes above and beyond filling in the historical record. Combining archival and ethnographic research with musical analysis and cultural theory, Madrid argues that Carrillo and Sonido 13 are best understood as a cultural complex: a network of moments, spaces, and articulations in which Carrillo and his music continuously re-acquire significance and meaning. Thus, Madrid explores Carrillo's music and ideas not only in relation to the historical moments of their inception, but also in relation to the various cultural projects that kept them alive and re-signified them through the beginning of the twenty-first century. Eschewing traditionally linear historical frameworks, *In Search of Julián Carrillo and Sonido 13* employs an innovative transhistorical

narrative in which past, present, and future are explored dialogically in order to understand the politics of performance and self-representation behind Carrillo and Sonido 13. *In Search of Julián Carrillo and Sonido 13* transforms the traditional genre of the composer study, treating it not as a celebration of masters and masterworks, but as a pointed postcolonial intervention that offers invaluable insight into the politics of cultural exchange, experimentalism, marginality, and cultural capital in twentieth century Mexico.

**Cello, Bow and You** Evangeline Benedetti, 2017  
Written for the cellist looking for an approach that demystifies cello playing, *Cello, Bow and You* is an innovative text in the field of string pedagogy written by a 40+ year veteran of the New York Philharmonic Orchestra and certified teacher of the Alexander Technique. Author Evangeline Benedetti has a unique voice and approach, and invites cellists of all levels to explore, make discoveries and organically internalize technique. Benedetti's approach compliments the work that students do with their teachers by encouraging them to be more aware of themselves and responsive to internal and external guidance. *Cello, Bow and You* allows students and professionals access to Benedetti's vast performance and teaching experience. She has pioneered an approach to playing that is a synthesis of the cellist's musical thought, the knowledge of the dynamic properties of the instrument and bow, and the ability to move effectively according to the mechanics of the human body. The synergy of these elements leads to physically healthy playing and

frees players to be musically expressive. Written in engaging, informal prose, the book is a must-read for cellists and cello teachers - beginning, intermediate, or professional.

**The Skateboarder's Journal - Lives on Board**, 2009 A piece of wood, two trucks, four wheels ... a skateboard. You start by rolling down a sidewalk, and end up rolling through life. For some the ride stops at the end of the street; for others the ride never ends. This book was written by those for whom the ride is never-ending: by the 15-year-old grom who falls asleep dreaming of skateboarding; by the 40-something dad you see at the local skatepark; by the women whose stories have never been told; and by the 73-year-old architect who didn't begin skateboarding until the age of 65. Over 170 stories and 200+ photographs. The 'everyman/everywoman' are accompanied by contributions from some 'notable' skateboarders, and other personalities from the skateboard world ... Some of the great skateboarding photographers have graciously contributed to the book.--
