Fire with Fire Destiny Soria,2021-06-08 Raised to be fierce dragon slayers, two sisters end up on opposite sides of the impending war when one sister forms an unlikely, magical bond with a dragon in this standalone YA contemporary fantasy that's perfect for fans of *Slayer* and *Sorcery of Thorns*. Dani and Eden Rivera were both born to kill dragons, but the sisters couldn't be more different. For Dani, dragon slaying takes a back seat to normal high school life, while Eden prioritizes training above everything else. Yet they both agree on one thing: it's kill or be killed where dragons are concerned. Until Dani comes face-to-face with one and forges a rare and magical bond with him. As she gets to know Nox, she realizes that everything she thought she knew about dragons is wrong. With Dani lost to the dragons, Eden turns to mysterious and alluring sorcerers to help save her sister. Now on opposite sides of the conflict, each sister will do whatever it takes to save the other. But the two are playing with magic that is more dangerous than they know, and there is another, more powerful enemy waiting for them both in the shadows.

The Dynamics of Grace Stephen J. Duffy,2007-11-01 The doctrine of grace, concerning the healing, freeing, and empowering presence of the Spirit in human life, is central in Christianity. This readable, yet in-depth, historical and interpretive study retraces the long trajectory of the theology of grace as thinkers grappled with the mystery that envelops the interplay between God's life with us and our common life together. Retrieving the rich symbols of the Christian past and reinterpreting them within their own cultural context, theologians in different eras shaped the development of a Christian anthropology that plays upon all the registers of the greatness and misery of the human condition. The presuppositions, questions, and benchmark anthropologies of early Christianity, Augustine, Aquinas, Luther, Trent, and Rahner are critically analyzed in light of recent historical studies and in light of a new climate of ecumenical convergence. The exploration ends by probing the anthropology of contemporary liberation theologies that mark another turning point in the tradition by breaking grace out of the realm of privacy and into the sociopolitical arena.

When We Were on Fire Addie Zierman,2013 In the strange, us-versus-them Christian subculture of the 1990s, a person's faith was measured by how many WWJD bracelets she wore and whether he had kissed dating goodbye. Zierman led two Bible studies and listened exclusively to Christian music. She was on fire for God and unaware that the flame was dwindling-- until it burned out. She chronicles her journey through church culture and first love, looking for what lasts when nothing else seems worth keeping.

The Wallpaper Book Genevieve Brunet,2012-05-15 A wealth of design inspiration for any home: wallpaper styles to suite every taste, from nostalgic floral prints to playful retro revivals. While it has long been an essential element of interior decor, wallpaper is currently experiencing a creative boom. This everyday material has always reflected social shifts as well as changing fashions, and now designers everywhere are rediscovering its versatility, using it to achieve a variety of imaginative effects. It can add texture, warmth, wit, or personality to any space, becoming a tranquil backdrop or a striking conversation piece. A room may be papered with a profusion of patterns, or a wallpaper mural can make a bold statement, even blurring the boundaries between design and art installation. This book explores the art of wallpaper from its historical beginnings to the present day. Beginning with the handcrafted papers of the eighteenth century through the Arts and Crafts movement, modernism, and Pop art, it traces the influences behind today's popular motifs and showcases a dazzling selection of the very best in contemporary wallpaper. Some designers are reviving and reinventing traditional craft techniques while others embrace the latest in digital printing technology, even incorporating glow-in-the-dark effects or LED lights.

Journey in Blue Stig Dalager,2006 In *Journey in Blue* Stig Dalager has conjured up the complex personality of the Danish master storyteller Hans Christian Andersen to create a portrait of the writer. Andersen's life swims into focus in fragments as morphine is administered to him in his final days. His interactions with the men and women who influenced his life and work reveal how he transformed his experiences into literature, including his celebrated fairytales. Yet his painful search for literary validation and religious certainty, combined with other longings that he is not always able to identify or control, often result in him feeling alienated, even tormented, and unable to understand why the Danes should have ambiguous feelings about him and the significance of his writings; for years he felt unrecognized as a major artist in his own country. This novel is Dalager's first to appear in English and is one of the most translated Danish novels of recent years. It takes the reader on an absorbing journey through the mind, spirit and imagination of one of the most important names in world literature.--BOOK JACKET.

Many years later, various factions have formed, challenging their savior and vying for a share of power and control.
