A Place To Live Abbi Weber, 2022-10-28 Ah, the golden years. Retirement--no longer chained to an alarm clock, free to travel, enjoy life at a leisurely pace. Minerva Gardiner, a socialite, suddenly finds herself a widow when her investment broker husband falls over and dies on the golf course. Minnie has never managed money or a budget, or held a job; and now she must navigate through insurance agents, mortgage bankers, and lawyers. All to no avail, for her husband of forty years has spent every nickel they had on his sweet little thing administrative assistant. Minnie's only ally is her best friend and sister-in-law, Virginia Gardiner. Along the way, they encounter several other senior citizens who need help as well. Everyday occurrences such as lust, bankruptcy, homelessness, alcoholism, Alzheimer's, and even revenge make their way into the lives of Minnie and Ginnie and their friends and housemates. Minnie falls in love with a most unlikely hero, who, while fighting to keep his centuries-old log cabin home and ranch from being burned to the ground by an intruder, must also fight for his life. There's no such thing as dull dreary days for these oldsters. Meanwhile, with two or three exceptions, the writer has not defined the characters by race, religious, or sexual backgrounds. This is left to the reader. More important is the message of learning to live together, to allow each person to live as they choose, to become a kinder person.

Are they both ready to say "I will" to a future together?

Fire Man John Meyers, 2015-11-16 Black and white photo version. A finger of smoke from the fire seemed to eerily follow me down to the creek where I drafted water to refill tanker 1-81's three hundred gallon tank. It thickened and lay like a dirty cloud over the truck as I slowly maneuvered my way on an old logging road for about a half mile, back to the fire. In order to make it easier to get out in a hurry, in case the whole thing blew up around us, I turned the truck around in the middle of the road where there was a fire line scraped out by a cat that tied into the road. I then backed up the cat trail about fifty yards to get to our hose line. While performing this extraordinary feat of skill, I managed to knock off the driver's side mirror. With these words, author John Meyers takes us on a twelve year journey, following his career as a wildland firefighter and a city department fireman. Generally, firemen who fight wildland fires are called Firefighters and firefighters who fight city fires are called Firemen. I'm not sure what the difference is. I've done both and both are dangerous and the flames are just as hot and can burn you up in either environment. At times, the journey was exciting - The Lieutenant and I were on one side of the truck with a live reel (a rubber one inch hose on a reel that always stays charged with water) and a couple of guys were on the other side of the truck with the other live reel. The engineer was supposed to be watching both of us. He wasn't. He saw that the other guys got their part of the fire

knocked down, so he shut off the pump. At times it was dangerous - I looked at Popeye on one side of me and Cowboy on the other. We didn't say anything, but we joined the rest of the crew in lying down in the middle of the line we had made. Maybe this was going to be the first time we deployed our turkey roasters, but no word came about that either. We just laid there as the fire came roaring right up to us. And lots of times it was just plain humorous - I made my way back down a heavily covered slope, crashing noisily through the buck brush. As I broke out on the road at the bottom of the hill, a bear broke out about ten or fifteen yards to my left. He had been crashing noisily down the same slope and neither one of us had heard the other. We looked at each other with a great deal of surprise, we both grunted, and we both took off running in opposite directions! Bear - Human! Aaaahhhhh! John describes the danger and tragedy he faced at times and shares the joys of developing a comradeship with his fellow crewmen by taking you inside his experiences. 28 glorious full black and white photographs included.

Viscuso captures the human emotion and drama from firefighters who have endured a wide range of firefighting and rescue scenarios. He goes way beyond the stories that the public may hear about. With *Common Valor*, you live it. From these dramatic descriptions, you feel yourself right there, up close with the rescuers. From seeing fellow firefighters die to being caught in a flashover and living to tell about it, *Common Valor* captures the true spirit and camaraderie of firefighters. —Harvey Eisner If you are a firefighter, or hope to be one someday, you need to read *Common Valor*. This book captures the true spirit of firefighting and all the emotions that accompany what has been called both the greatest and most stressful job on earth.

Both Sides of the Fire Line Bobbie Scopa, 2022-09-06 Bobbie Scopa spent close to five decades working through nearly every

challenge a firefighter can face. Scopa was a strike team leader for the Dude Fire in 1990, where six firefighters were tragically killed, and she served at Ground Zero immediately after 9/11. She's worked mountain rescues, city fires, mega-wildfires, and everything in between. While battling conditions and harsh flames on the outside, she also found herself waging a tougher battle on the inside. Scopa was torn between how to maintain the façade everyone expected of her and whether to live as her true self. A hero firefighter can't possibly be transgender, right? she thought. *Both Sides of the Fire Line* is Bobbie Scopa's uplifting memoir of bravely facing the heat of fierce challenges, professionally and personally.

First In, Last Out John Salka, 2005-02-22 What does it take to lead people into a burning building? How do the leaders of the New York City Fire Department develop so much loyalty, trust, and grace under pressure that their subordinates will risk their very lives for them? As a high-ranking officer of the FDNY, John Salka is an expert at both practicing and teaching high-stakes leadership. In First In, Last Out, he explains the department's unique strategies and how they can be adopted by leaders in any field—as he has taught them to organizations around the country. In a tough-talking, no-nonsense style, Salka uses real-world stories to convey leadership imperatives such as: first in, last out—your people need to see you taking the biggest risk, as the first one to enter the danger zone and the last to leave manage change—the fire you fought yesterday is not the one you'll be fighting tomorrow communicate aggressively—a working radio is worth more than 20,000 gallons of water create an execution culture—focus your people on the flames, not the smoke commit to reality—never allow the way you would like things to be to color how things are develop your people—let them feel a little heat today or they'll get burned tomorrow Illustrated by harrowing real-life situations, the principles in First In, Last Out will help managers become more confident, coherent, and commanding. Breathing Fire Jaime Lowe, 2021-07-27 A dramatic, revelatory account of the female inmate firefighters who battle California wildfires. Shawna was overcome by the claustrophobia, the heat, the smoke, the fire, all just down the canyon and up the ravine. She was feeling the adrenaline, but also the terror of doing something for the first time. She knew how to run with a backpack; they had trained her physically. But that's not training for flames. That's not live fire. California's fire season gets hotter, longer, and more extreme every year — fire season is now year-round. Of the thousands of firefighters who battle California's blazes every year, roughly 30 percent of the on-the-ground wildland crews are inmates earning a dollar an hour. Approximately 200 of those firefighters are women serving on all-female crews. In Breathing Fire, Jaime Lowe expands on her revelatory work for The New York Times Magazine. She has spent years getting to know dozens of women who have participated in the fire camp program and spoken to captains, family and friends, correctional officers, and camp commanders. The result is a rare, illuminating look at how the fire camps actually operate — a story that encompasses California's underlying catastrophes of climate change, economic disparity, and historical injustice, but also draws on deeply personal histories, relationships, desires, frustrations, and the

emotional and physical intensity of firefighting. Lowe's reporting is a groundbreaking investigation of the prison system, and an intimate portrayal of the women of California's Correctional Camps who put their lives on the line, while imprisoned, to save a state in peril.

Falling for the Fireman Allie Pleiter, 2012-02-01 There's something achingly familiar about the look in fire marshal Chad Owens's eyes. Widowed mom Jeannie Nelworth knows firsthand what it is: loss, hurt and yes—bitterness. Ever since the fire that changed their lives, Jeannie's young son has borne that same look, pushing everyone away. So she's grateful when Chad tries to get through to the boy with the help of his trusty fire station dog. But the man who's all about safety and prevention keeps himself protected—from loving and losing again. Seems as if Jeannie will have to add his kind, guarded heart to her rebuilding efforts.

Rescuing Providence Michael Morse, 2015-08-04 Former EMT and firefighter Michael Morse takes you along for the ride as he and his fellow officers respond to 24 emergency calls in a 34-hour period. Rescuing Providence is a fascinating glimpse into the daily lives of the people who do a critical job that is often dangerous, sometimes thankless, but ultimately rewarding.

B-Shifter: A Firefighter's Memoir Nick Brunacini, 2008-01 Brunacini makes the observation that fire departments more closely resemble cults or severely dysfunctional families than a regular workforce. He brings the reader into the closed world of fire station life and the wide range of personalities that a fire station houses.

From the New York Times bestselling author of *How to Walk Away* comes a stunning new novel about courage, hope, and learning to love against all odds. Cassie Hanwell was born for emergencies. As one of the only female firefighters in her Texas firehouse, she’s seen her fair share of them, and she’s a total pro at other people’s tragedies. But when her estranged and ailing mother asks her to give up her whole life and move to Boston, Cassie suddenly has an emergency of her own. The tough, old-school Boston firehouse is as different from Cassie’s old job as it could possibly be. Hazing, a lack of funding, and poor facilities mean that the firemen aren’t exactly thrilled to have a lady on the crew—even one as competent and smart as Cassie. Except for the infatuation-inspiring rookie, who doesn’t seem to mind having Cassie around. But she can’t think about that. Because love is girly, and it’s not her thing. And don’t forget the advice her old captain gave her: Never date firefighters. Cassie can feel her resolve slipping...and it means risking it all—the only job she’s ever loved, and the hero she’s worked like hell to become. Katherine Center’s *Things You Save in a Fire* is a heartfelt and healing tour-de-force about the strength of vulnerability, the nourishing magic of forgiveness, and the life-changing power of defining courage, at last, for yourself.
