Forest Fire Fighting Fundamentals California. Division of Forestry,1953

State of Fire Charles Vaught,2019-09-02 In June of 2013, on summer break from my first year of college, I started a job as a wildland firefighter with the Highlands 20, an initial attack handcrew, based out of the Sinlahekin Valley in North Central Washington. I had never before thought of fighting wildfire, but my bank account was in dire straits and, truth be told, so was my ego. However, I didn't start that summer looking for personal growth, I started it with nineteen other men, each of us looking for a seasonal gig that paid well. I was already a man and thought that I knew quite a bit about myself, about the world at large. But as that summer, and that fire season progressed; I found out that I still had so much to learn; I was both a rookie to wildland firefighting and a rookie in life. Through the trials of day-to-day life on the fireline, living and fighting wildfire with my fire crew, through the adrenaline, the danger, the laughter, the smoke, the blisters, I came to understand that it was far more than a paycheck that I was earning. I was learning, for the first time in a long while, who I really was and what I was made of. I was proving my worth to the fire crew. I was proving my worth to myself. This book evolved out of experiences from my four summers of fighting wildfire as well as to a promise I made to my fellow Highlands 20 crewmembers. I promised them that I would write a book about wildland fire fighting. At the time I had no idea what that would entail. But I knew what it would not. It would not be a book about hero-izing the exploits of wildland firefighters. No, bullshitting the reader with portrayals of wildland firefighters as faultless demigods with the morals of saints, the work ethic of Navy SEALs, and the looks of A-list Hollywood actors was never my intention. I make no claim to have been a perfect wildland firefighter, or to have never felt fear when putting my life on the line in battles with Nature. I know for a fact that there are many other fire crews that saw more action and were in far greater danger than the Highlands 20 or I ever were. This book is by no means the definitive book about wildland firefighting. That book would be impossible to write, as every person who fought wildfire has their own experiences that vary greatly from my own. What I have found is that there are no two fire seasons alike. And that my time spent on the fireline was a perfect balance of danger and laughter, of bravery and childlike awe, of crassness and brotherhood, of selflessness and evolution. State of Fire is neither an ultimate description of wildland firefighting nor a book of fire-filled heroism, so you might be asking then, what is its purpose? This is a book about wildland firefighting and the indelible marks it leaves on a person's soul. This book is about finding commonality by going through hardship with strangers, who soon become closer than family. It's about what can be learned from camaraderie, and what happens when you separate men from society and normalcy for months at a time. It's about love and loss, and the rebirth of one's self through the testing of mental, emotional, and physical strength. It is about coming to terms with one's limitations, and why challenges of every shade should not be shunned, but embraced. It is about finding meaning and worth, where once there was none. And most importantly, why these lessons were not only significant for me, but for everyone who picks up this book. This book represents - my path to, of, and away from wildland firefighting. It should be noted that State of Fire is a collection of nine essays. Each essay deals with a different aspect of wildland firefighting. Therefore it does not have to be read in chronological order, as each essay is independent of the next. To honor all wildland firefighters, especially those who have lost their lives on the job, I will be donating 10% of all books sold to the Wildland Firefighter Foundation (wffoundation.org).

Fire in Their Eyes Karen Magnuson Beil,1999 What drives some people to stand in the path of a wall of flame? Who are these brave, foolhardy, visionary firefighters? This intimate look at the elite groups that fight wildfires explores the trials, tragedies, and triumphs of these courageous few as they battle wilderness blazes from Alaska to Maine. From the grueling training of a smokejumper class in Montana, through harrowing fights with some up-close-and-personal wildfires, to a group of inspired conservationists who use fire as a tool for preservation, Karen Magnuson Beil takes readers where only a few have ventured--into the heart of one of nature's most destructive and unpredictable forces: fire.

Wildland Firefighting Bill Clayton,David J. Day,Jim McFadden,California. Area Ignition Joseph N. Valencia,2009-05 In August 1979, along a remote ridgeline near Santa Maria, four firefighters from a California Division of Forestry (CDF) engine crew, were preparing to defend the northern flank of the Spanish Ranch fire. Captain Ed Marty, and firefighters; Scott Cox, Ron Lorant and Steve Manley responded to the fire from the Nipomo fire station. They were all from California, but were as different as the golden state's angles, aspects and arenas. They were defined more from where they were from; Tehama, Goleta, Long Beach and La Habra. No one predicted what would happen next-but in a page from man versus nature, the fire accelerated and then swept across the face of the slope which the four young firefighters were on. At 4:25 PM their thin line of defense was cut-off and a retreating bulldozer operator was overrun. Minutes later, they tried to escape from the sweeping area ignition, but the fire cut-off their retreat and along with another dozer operator they were all overrun by fire. The tragedy that occurred and the subsequent investigation would change the way the state fire agency operated on area wildfires. Area Ignition looks back 30-years to honor the men who fought and died in the Spanish Ranch Fire. It recreates the courage, emotion and human frailties that are interwoven from the initial ignition point-to the final survivors' thoughts as they proceeded past a solitary CDF fire engine. Although much has changed since then-young firefighters still go out every year to battle California wildfires just like their brothers of the past.

We owe it to them to understand a little bit of the awesome power of wildfires and the people who fight them.
