Jeremy Crawford,Steve Kenson,Jack Norris,Chris Pramas

**A Billion Suns** Mike Hutchinson,2021-02-18 A Billion Suns is a wargame of interstellar combat that puts you in command of fleets of powerful starships, from squadrons of agile, but fragile, fighters, to hulking and powerful capital ships. When combined with some spaceship miniatures, a tape measure, a deck of playing cards and some dice, this rulebook provides everything you need to play exciting and tense tabletop games of interstellar exploration and combat. Using simple dice pool mechanics, you must carefully manage your resources and seize the opportunities that come your way in order to lead your fleet to victory and assert your dominance over the stars.

**Firestorm** L.A. Graf,2000-09-22 Firestorm When a convert Elasian mining operation interferes with a Federation geological expedition, Captain James T. Kirk and the crew of the Starship Enterprise™ are dispatched to the planet Rakatan to mediate between the rival parties. The Elasian Dohman claims that the planet and its dilithium deposits are hers. But the geologists warn that if Rakatan Mons -- the galaxy's largest stratovolcano -- should erupt while the Elasians are mining its flanks, no amount of dilithium will save them. While Lt. Commander Uhura and a landing party struggle to determine if the Dohlman's claim is true, Captain Kirk puts his ship on the line to keep the two ships from each other's throats. Soon, however, concerns over the planet's ownership are overshadowed by the arrival of a hostile Elasian armada and a cataclysmic volcanic explosion on the surface that threatens all parties with a deadly shower of destruction...

**Doctor Who: The Target Storybook** Terrance Dicks,Matthew Sweet,Simon Guerrier,Colin Baker,Matthew Waterhouse,Jenny T Colgan,Jacqueline Rayner,Una McCormack,Steve Cole,Vinay Patel,George Mann,Susie Day,Mike Tucker,Joy Wilkinson,Beverly Sanford,2019-10-24 We're all stories in the end... In this exciting collection you'll find all-new stories spinning off from some of your favourite Doctor Who moments across the history of the series. Learn what happened next, what went on before, and what occurred off-screen in an inventive selection of sequels, side-trips, foreshadowings and first-hand accounts – and look forward too, with a brand new adventure for the Thirteenth Doctor. Each story expands in thrilling ways upon aspects of Doctor Who's enduring legend. With contributions from show luminaries past and present – including Colin Baker, Matthew Waterhouse, Vinay Patel, Joy Wilkinson and Terrance Dicks – The Target Storybook is a once-in-a-lifetime tour around the wonders of the Whoniverse.

**Ironstorm** Robert Blumetti,2001 Ten thousand years in the future humankind has successfully colonized the entire Milky Way galaxy. Humanity has set-up the Galactic Republic to defend their liberties, protect their way-of-life and maintain peace and order throughout the galaxy. Unknown to humankind, an alien conspiracy from beyond the galaxy has infiltrated their civilization. It is slowly seizing power by possessing humankind's bodies and destroying their souls.Senator Sept Racher discovers the existence of the alien conspiracy, but he and his wife are killed. His son, Stahl Racher barely escapes and is rescued by a band of cosmic druids. Stahl grows up to become Lord Racher and learns the secret of harnessing the collective power of humanity's life-force. With this power he leads a rebel army, who are dedicated to liberating humanity from the growing tyranny of the alien conspiracy before it is too late.

*Beyond the Gates of Antares* Rick Priestley,2016

**Horizon Wars** Robey Jenkins,2016-04-21 Beyond today's horizons lie uncountable wars still to be fought by mankind – on battlefields, against foes, and with weapons that can only be imagined. With Horizon Wars, wargamers can bring these future conflicts to the tabletop, no matter their exact vision of the future of warfare. Combining the feel of real-world combat and tactics with versatile and quick-to-learn rules, Horizon Wars is a 6mm company-level game that incorporates ground forces, aircraft and the titans of the battlefield – mechs. Whether you want to pit a handful of mechs against each other in quick clash of patrols, or line up combined-arms forces for a huge battle, the game remains fast-moving and enjoyable. Also included are full rules for building units from the ground up, allowing players to tailor their forces to suit the mission objectives or their figure collections.

**A Question of Loyalty** Douglas C. Waller,2009-10-13 A Question of Loyalty plunges into the seven-week Washington trial of Gen. William Billy Mitchell, the hero of the U.S. Army Air Service during World War I and the man who proved in 1921 that planes could sink a battleship. In 1925 Mitchell was frustrated by the slow pace of aviation development, and he sparked a political firestorm, accusing the army and navy high commands -- and by inference the president -- of treason and criminal negligence in the way they conducted national defense. He was put on trial for insubordination in a spectacular court-martial that became a national obsession during the Roaring Twenties. Uncovering a trove of new letters, diaries, and confidential documents, Douglas Waller captures the drama of the trial and builds a rich and revealing biography of Mitchell.

*A Patriot's History of the United States* Larry Schweikart,Michael Patrick Allen,2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

**On Desperate Ground** Hampton Sides,2019-10-29 Superb...A masterpiece of thorough research, deft pacing and arresting detail...This war story — the fight to break out of a frozen hell near the Chosin Reservoir — has been told many times before. But Sides tells it exceedingly well, with fresh research, gritty scenes and cinematic sweep.—Washington Post From the New York Times bestselling author of Ghost Soldiers and In the Kingdom of Ice, a chronicle of the extraordinary feats of heroism by Marines called on to do the impossible during the greatest battle of the Korean War On October 15, 1950, General Douglas MacArthur, Supreme Commander of UN troops in Korea, convinced President Harry Truman that the Communist forces of Kim Il-sung would be utterly defeated by Thanksgiving. The Chinese, he said with near certainty, would not intervene in the war. As he was speaking, 300,000 Red Chinese soldiers began secretly crossing the Manchurian border. Led by some 20,000 men of the First Marine Division, the Americans moved deep into the snowy mountains of North Korea, toward the trap Mao had set for the vainglorious MacArthur along the frozen shores of the Chosin Reservoir. What followed was one of the most heroic--and harrowing--operations in American military history, and one of the classic battles of all time. Faced with probable annihilation, and temperatures plunging to 20 degrees below zero, the surrounded, and hugely outnumbered, Marines fought through the enemy forces with ferocity, ingenuity, and nearly unimaginable courage as they marched their way to the sea. Hampton Sides' superb account of this epic clash relies on years of archival research, unpublished letters, declassified documents, and interviews with scores of Marines and Koreans who survived the siege. While expertly detailing the follies of the American leaders, On Desperate Ground is an immediate, grunt's-eye view of history, enthralling in its narrative pace and powerful in its portrayal of what ordinary men are capable of in the most extreme circumstances. Hampton Sides has been hailed by critics as one of the best nonfiction writers of his generation. As the Miami Herald wrote, Sides has a novelist's eye for the propulsive elements that lend momentum and dramatic pace to the best nonfiction narratives.

**Computer Gaming World** ,2000

**The Emperor of All Maladies** Siddhartha Mukherjee,2011-08-09 Winner of the Pulitzer Prize and a documentary from Ken Burns on PBS, this New York Times bestseller is “an extraordinary achievement” (The New Yorker)—a magnificent, profoundly humane “biography” of cancer—from its first documented appearances thousands of years ago through the epic battles in the twentieth century to cure, control, and conquer it to a radical new understanding of its essence. Physician, researcher, and award-winning science writer, Siddhartha Mukherjee examines cancer with a cellular biologist's precision, a historian's perspective, and a biographer's passion. The result is an astonishingly lucid and eloquent chronicle of a disease humans have lived with—and perished from—for more than five thousand years. The story of cancer is a story of human ingenuity, resilience,

and perseverance, but also of hubris, paternalism, and misperception. Mukherjee recounts centuries of discoveries, setbacks, victories, and deaths, told through the eyes of his predecessors and peers, training their wits against an infinitely resourceful adversary that, just three decades ago, was thought to be easily vanquished in an all-out “war against cancer.” The book reads like a literary thriller with cancer as the protagonist. Riveting, urgent, and surprising, *The Emperor of All Maladies* provides a fascinating glimpse into the future of cancer treatments. It is an illuminating book that provides hope and clarity to those seeking to demystify cancer.

**Wake of the Watcher** Greg A. Vaughan, 2011 No one goes to Illmarsh, a decrepit village haunted by tales of ghastly midnight rites and sacrifices to shadows from the sea. When the heroes learn of an unholy bargain between the cultists of the Whispering Way and the drowned gods of this wretched town, they must journey through a wilderness gone wrong to prevent it. Can the heroes discover what foulness festers in the mind of Illmarsh and withstand the whispers of an insanity from beyond the stars? A Pathfinder Roleplaying Game adventure for 9th-level characters, this volume continues the Carrion Crown Adventure Path, drawing on themes of classic horror stories long awaited by players. The heroes will investigate lands inspired by the mind-bending horrors of H.P. Lovecraft and face off against terrifying foes drawn from his ever-popular Cthulhu Mythos. This volume also introduces the unimaginable terrors of the Elder Gods to the Pathfinder campaign setting with an expanded Bestiary unleashing a host of maddening Lovecraftian monsters, plus much more including new fiction in the Pathfinder's Journal!

**Journey to Star Wars: The Force Awakens: Lost Stars** Claudia Gray, 2015-09-04 This thrilling Young Adult novel gives readers a macro view of some of the most important events in the Star Wars universe, from the rise of the Rebellion to the fall of the Empire. Readers will experience these major moments through the eyes of two childhood friends--Ciena Ree and Thane Kyrell--who have grown up to become an Imperial officer and a Rebel pilot. Now on opposite sides of the war, will these two star-crossed lovers reunite, or will duty tear them--and the galaxy--apart? *Star Wars: Lost Stars* also includes all-new post- *Star Wars: Return of the Jedi* content, as well as hints and clues about the upcoming film *Star Wars: The Force Awakens*, making this a must-read for all Star Wars fans.

**The Brothers Vonnegut** Ginger Strand, 2015-11-17 Worlds collide in this true story of weather control in the Cold War era and the making of Kurt Vonnegut In the mid-1950s, Kurt Vonnegut takes a job in the PR department at General Electric in Schenectady, where his older brother, Bernard, is a leading scientist in its research lab--or House of Magic. Kurt has ambitions as a novelist, and Bernard is working on a series of cutting-edge weather-control experiments meant to make deserts bloom and farmers flourish. While Kurt writes zippy press releases, Bernard builds silver-iodide generators and attacks clouds with dry ice. His experiments attract the attention of the government; weather proved a decisive factor in World War II, and if the military can control the clouds, fog, and snow, they can fly more bombing missions. Maybe weather will even be the New Super Weapon. But when the army takes charge of his cloud-seeding project (dubbed Project Cirrus), Bernard begins to have misgivings about the harmful uses of his inventions, not to mention the evidence that they are causing alarming changes in the atmosphere. In a fascinating cultural history, Ginger Strand chronicles the intersection of these brothers' lives at a time when the possibilities of science seemed infinite. As the Cold War looms, Bernard's struggle for integrity plays out in Kurt's evolving writing style. *The Brothers Vonnegut* reveals how science's ability to influence the natural world also influenced one of our most inventive novelists.

**Napoleon For Dummies** J. David Markham, 2011-05-04 Explains his influence on the military, law, politics, and religion Get the real story of Napoleon Bonaparte Not sure what's true about Napoleon? This easy-to-follow guide gets past the stereotypes and introduces you to this extraordinary man's beginnings, accomplishments, and famous romances. It traces Napoleon's rise from Corsican military cadet to Emperor of the French, chronicles his military campaigns, explains the mistakes that led to his removal from power, and explores his lasting impact on Europe and the world. Discover \* How Napoleon built -- and lost -- an empire \* The forces that influenced him \* Why he created the Napoleonic Code \* The inside story on Josephine \* How he helped shape modern-day Europe

**Blue Rose: the AGE RPG of Romantic Fantasy** Jeremy Crawford, Steve Kenson, Jack Norris, Chris Pramas, 2017-05-16 Aldis, the Kingdom of the Blue Rose, shines as a new light following the dark age of the Sorcerer Kings. Now, envoys of the Sovereign's Finest strive to protect Aldis. Aided by the rhydan - their psychic animal allies - the champions of the Blue Rose guard the Light against the power of the Shadow. This book gives you everything you need to play.

**Atmospheric Science at NASA** Erik M. Conway, 2008-12-08 Honorable Mention, 2008 ASLI Choice Awards. Atmospheric Science Librarians International This book offers an informed and revealing account of NASA's involvement in the scientific understanding of the Earth's atmosphere. Since the nineteenth century, scientists have attempted to understand the complex processes of the Earth's atmosphere and the weather created within it. This effort has evolved with the development of new technologies—from the first instrument-equipped weather balloons to multibillion-dollar meteorological satellite and planetary science programs. Erik M. Conway chronicles the history of atmospheric science at NASA, tracing the story from its beginnings in 1958, the International Geophysical Year, through to the present, focusing on NASA's programs and research in meteorology, stratospheric ozone depletion, and planetary climates and global warming. But the story is not only a scientific one. NASA's researchers operated within an often politically contentious environment. Although environmental issues garnered strong public and political support in the 1970s, the following decades saw increased opposition to environmentalism as a threat to free market capitalism. *Atmospheric Science at NASA* critically examines this politically controversial science, dissecting the often convoluted roles, motives, and relationships of the various institutional actors involved—among them NASA, congressional appropriation committees, government weather and climate bureaus, and the military.

**American Holocaust** David E. Stannard, 1993-11-18 For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia, and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, *American Holocaust* is a work of impassioned scholarship that is certain to ignite intense historical and moral debate.

**The Paths of Heaven The Evolution of Airpower Theory** , 1997 Airpower is not widely understood. Even though it has come to play an increasingly important role in both peace and war, the basic concepts that define and govern airpower remain obscure to many people, even to professional military officers. This fact is largely due to fundamental differences of opinion as to whether or not the aircraft has altered the strategies of war or merely its tactics. If the former, then one can see airpower as a revolutionary leap along the continuum of war; but if the latter, then airpower is simply another weapon that joins the arsenal along with the rifle, machine gun, tank, submarine, and radio. This book implicitly assumes that airpower has brought about a revolution in war. It has altered virtually all aspects of war: how it is fought, by whom, against whom, and with what weapons. Flowing from those factors have been changes in training, organization, administration, command and control, and doctrine. War has been fundamentally transformed by the advent of the airplane.

Eventually, you will enormously discover a extra experience and skill by spending more cash. yet when? attain you endure that you require to acquire those all needs once having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will lead you to comprehend even more not far off from the globe, experience, some places, gone history, amusement, and a lot more?
