The Globetrotting Shopaholic Annessa Ann Babic, Tanfer Emin Tunc, 2009-10-02 The thrust of the literature on consumer space and society focuses on product labeling, marketing techniques and approaches to branding, as well as how mass consumer culture has reshaped individuals' interaction with needs and desires. *Globetrotting Shopaholics* departs from this current discourse by examining both consumption venues and the cultural, political and social reasons why we consume. It elucidates international trends in consumption politics, and how they impact the creation of consumer spaces, which, in this book, takes the form of numerous global loci including Canada's West Edmonton Mall, Japanese theme parks, shopping venues in the Philippines, and expat boutiques in Budapest. Using a wide range of epistemological frameworks including cultural ethnography, historical analysis, literary theory, sociological dissection, anthropological examination, and philosophical ruminations, this collection conveys how material objects and lifestyles are accumulated and represented internationally, and how consumer goods and spaces define who we are as human beings.

Of Goats & Governors Steve Flowers, 2015-10-01 Few states have as colorful a political history as Alabama, especially in the post-World War II era. During the past six decades, the state played a central role in the civil rights movement, largely moved away from its earlier farm-based economy and culture, and transitioned from a relatively moderate-progressive Democratic Party politics to today's hard-core conservative Republican Party domination. Moving onto and off Alabama's electoral stage during all these transformations have been some of the most interesting figures in 20th-century American government and politics. Swirling around these elected officials in the Heart of Dixie are stories, legends, and jokes that are told and retold by political insiders, journalists, and scholars who follow the goings-on in Washington and Montgomery. In Alabama, it seems, politics is not only a blood sport but high entertainment. There could be no better guide to this colorful history than political columnist and commentator Steve Flowers.

And Other Neighborly Names Richard Bauman, Roger D. Abrahams, 2013-06-24 And Other Neighborly Names—the title is from a study by Americo Paredes of the names, complimentary and otherwise, exchanged across cultural boundaries by Anglos and Mexicans—is a collection of essays devoted to various aspects of folk tradition in Texas. The approach builds on the work of the folklorists who have helped give the study of folklore in Texas such high standing in the field—Mody Boatright, J. Frank Dobie, John Mason Brewer, the Lomaxes, and of course Paredes himself, to whom this book is dedicated. Focusing on the ways in which traditions arise and are maintained where diverse peoples come together, the editors and other essayists—John Holmes McDowell, Joe Graham, Alicia María González, Beverly J. Stoeltje, Archie Green, José E. Limón, Thomas A. Green, Rosan A. Jordan, Patrick B. Mullen, and Manuel H. Peña—examine conjunto music, the

corrido, Gulf fishermen's stories, rodeo traditions, dog trading and dog-trading tales, Mexican bakers' lore, Austin's cosmic cowboy scene, and other fascinating aspects of folklore in Texas. Their emphasis is on the creative reaction to socially and culturally pluralistic situations, and in this they represent a distinctively Texan way of studying folklore, especially as illustrated in the performance-centered approach of Paredes, Boatright, and others who taught at the University of Texas at Austin. As an overview of this approach—its past, present, and future—*And Other Neighborly Names* makes a valuable contribution both to Texas folklore and to the discipline as a whole.

The New Encyclopedia of Southern Culture Glenn

Hinson, William Ferris, 2010-01-01 Southern folklife is the heart of southern culture. Looking at traditional practices still carried on today as well as at aspects of folklife that are dynamic and emergent, contributors to this volume of The New Encyclopedia of Southern Culture examine a broad range of folk traditions. Moving beyond the traditional view of folklore that situates it in historical practice and narrowly defined genres, entries in this volume demonstrate how folklife remains a vital part of communities' self-definitions. Fifty thematic entries address subjects such as car culture, funerals, hip-hop, and powwows. In 56 topical entries, contributors focus on more specific elements of folklife, such as roadside memorials, collegiate stepping, quinceanera celebrations, New Orleans marching bands, and hunting dogs. Together, the entries demonstrate that southern folklife is dynamically alive and everywhere around us, giving meaning to the everyday unfolding of community life.

From Goodwill to Grunge Jennifer Le Zotte, 2017-02-02 In this

surprising new look at how clothing, style, and commerce came together to change American culture, Jennifer Le Zotte examines how secondhand goods sold at thrift stores, flea markets, and garage sales came to be both profitable and culturally influential. Initially, selling used goods in the United States was seen as a questionable enterprise focused largely on the poor. But as the twentieth century progressed, multimillion-dollar businesses like Goodwill Industries developed, catering not only to the needy but increasingly to well-off customers looking to make a statement. Le Zotte traces the origins and meanings of secondhand style and explores how buying pre-owned goods went from a signifier of poverty to a declaration of rebellion. Considering buyers and sellers from across the political and economic spectrum, Le Zotte shows how conservative and progressive social activists--from religious and business leaders to anti-Vietnam protesters and drag queens--shrewdly used the exchange of secondhand goods for economic and political ends. At the same time, artists and performers, from Marcel Duchamp and Fanny Brice to Janis Joplin and Kurt Cobain, all helped make secondhand style a visual marker for youth in revolt.

Killer Stuff and Tons of Money Maureen

Stanton, 2011-06-09 One dealer's journey from the populist mayhem of flea markets to the rarefied realm of auctions reveals the rich, often outrageous subculture of antiques and collectibles. Millions of Americans are drawn to antiques and flea-market culture, whether as participants or as viewers of the perennially popular Antiques Roadshow or the recent hit American Pickers. This world has the air of a lottery: a \$20 purchase might net you four, five, or six figures. Master dealer Curt Avery, the unlikely star of Killer Stuff and Tons of Money, plays that lottery every day, and he wins it more than most. Occasionally he gets lucky, but more often, he draws on a deep knowledge of America's past and the odd, fascinating, and beautiful objects that have survived it. Week in, week out, Avery trawls the flea and antiques circuit—buying, selling, and advising other dealers in his many areas of expertise, from furniture to glass to stoneware, and more. On the surface, he's an improbable candidate for an antiques dealer. He wrestled in high school and still retains the pugilistic build; he is gruff, funny, and profane; he favors shorts and sneakers, even in November; and he is remarkably generous toward both competitors and customers who want a break. But as he struggles for a spot in a high-end Boston show, he must step up his game and, perhaps more challenging, fit in with a white-shoe crowd. Through his ascent, we see the flea-osphere for what it truly is—less a lottery than a contact sport with few rules and many pitfalls. This rich and sometimes hilarious subculture rewards peculiar interests and outright obsessions—one dealer specializes in shrunken heads; another wants all the postal memorabilia he can get. So Avery must be a guerrilla historian and use his hard-earned knowledge of America's past to live by and off his wits. Only the smartest survive in one of America's most ruthless

meritocracies. *Killer Stuff and Tons of Money* is many things: an insider's look at a subculture replete with arcane traditions and high drama, an inspiring account of a self-made man making his way in a cutthroat field, a treasure trove of tips for those who seek out old things themselves, and a thoroughly fresh, vibrant view of history as blood sport.

From Azaleas to Zydeco Mark W. Nichols, 2014-02-01

Inspired by a 1937 map and travelogue of a newspaperman's tour, author Mark W. Nichols embarked on his own long journey into the unique cities of the South. En route he met beekeepers, cheese makers, crawfish "bawlers," duck callers, and a licensed alligator hunter, as well as entrepreneurs and governors. His keen observations encompass the southern states from Virginia to Arkansas and points south, and he unpacks the unique qualities of every city he visits. "It's easy to say that getting to meet so many interesting and wonderful people was the best part of the journey—because it's true," Nichols writes. "I know there are friendly people everywhere, but southern friendliness is different." His story embraces a wealth of southern charm from local characters, folklore, and customs to food, music, and dancing. Besides being just plain fun to read, Nichols's account of his journey gives readers a true taste of the flavor of the evolving modern South.

While Carrie struggles to decide whether to follow her heart or her head, the threats against them continue to escalate. Her life—as well as Adam's—depends on making the right choice . . . and the clock is ticking.
