Secrets of the Greatest Snow on Earth Jim Steenburgh,2014-11-13 Utah has long claimed to have the greatest snow on Earth—the state itself has even trademarked the phrase. In *Secrets of the Greatest Snow on Earth*, Jim Steenburgh investigates Wasatch weather, exposing the myths, explaining the reality, and revealing how and why Utah's powder lives up to its reputation. Steenburgh also examines ski and snowboard regions beyond Utah, making this book a meteorological guide to mountain weather and snow climates around the world. Chapters explore mountain weather, avalanches and snow safety, historical accounts of weather events and snow conditions, and the basics of climate and weather forecasting. Steenburgh explains what creates the best snow for skiing and snowboarding in accurate and accessible language and illustrates his points with 150 color photographs, making *Secrets of the Greatest Snow on Earth* a helpful tool for planning vacations and staying safe during mountain adventures. Snowriders, weather enthusiasts, meteorologists, students of snow science, and anyone who dreams of deep powder and bluebird skies will want to get their gloves on *Secrets of the Greatest Snow on Earth*.

My First Piano Adventure: Lesson Book A with CD,2007-01-01 (Faber Piano Adventures). Written for ages 5 and 6, *My First Piano Adventure* captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's *My First Piano Adventure, Lesson Book A*. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative discovery at the keyboard. Young students will enjoy the multi-cultural friends at the piano who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory ACE - Analysis, Creativity, and Expression, guides the pedagogy of *My First Piano Adventure*. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. View Helpful Introductory Videos Here

The Animated Man Michael Barrier,2007-04-30 Walt Disney (1901-1966) was one of the most significant creative forces of the twentieth century, a man who made a lasting impact on the art of the animated film, the history of American business, and the evolution of twentieth-century American culture. He was both a creative visionary and a dynamic entrepreneur, roles whose demands he often could not reconcile. In his compelling new biography, noted animation historian Michael Barrier avoids the well-traveled paths of previous biographers, who have tended to portray a blemish-free Disney or to indulge in lurid speculation. Instead, he takes the full measure of the man in his many aspects. A consummate storyteller, Barrier describes how Disney transformed himself from Midwestern farm boy to scrambling young businessman to pioneering artist and, finally, to entrepreneur on a grand scale. Barrier describes in absorbing detail how Disney synchronized sound with animation in *Steamboat Willie*; created in *Snow White and the Seven Dwarfs* sympathetic cartoon characters whose appeal rivaled that of the best live-action performers; grasped television's true potential as an unparalleled promotional device; and—not least—parlayed a backyard railroad into the Disneyland juggernaut. Based on decades of painstaking research in the Disney studio's archives and dozens of public and private archives in the United States and Europe, *The Animated Man* offers freshly documented and illuminating accounts of Disney's childhood and young adulthood in rural Missouri and Kansas City. It sheds new light on such crucial episodes in Disney's life as the devastating 1941 strike at his studio, when his ambitions as artist and entrepreneur first came into serious conflict. Beginning in 1969, two and a half years after Disney's death, Barrier recorded long interviews with more than 150 people who worked alongside Disney, some as early as 1922. Now almost all deceased, only a few were ever interviewed for other books. Barrier juxtaposes Disney's own recollections against the memories of those other players to great effect. What emerges is a portrait of Walt Disney as a flawed but fascinating artist, one whose imaginative leaps allowed him to vault ahead of the competition and produce work that even today commands the attention of audiences worldwide.

The 4 A's of Marketing Jagdish Sheth,Rajendra Sisodia,2012-04-23 The authors present a powerful and tested approach that helps managers see a business's every action through the eyes of its customers. This approach is organized around the values that matter most to customers: Acceptability, Affordability, Accessibility and Awareness. Taken together, these attributes are called the 4A's. The 4A framework derives from a customer-value perspective based on the four distinct roles that customers play in the market: seekers, selectors, payers and users. For a marketing campaign to succeed, it must achieve high marks on all four A's, using a blend of marketing and non-marketing resources. The 4A framework helps companies create value for customers by identifying exactly what they want and need, as well as by uncovering new wants and needs. (For example, none of us knew we needed an iPad until Apple created it.) That means not only ensuring that customers are aware of the product, but also ensuring that the product is affordable, accessible and acceptable to them. Throughout this book, the authors demonstrate how looking at the world through the 4A lens helps companies avoid marketing myopia (an excessive focus on the product) as well as managerial myopia (an excessive focus on process). In fact, it is a powerful way to operationalize the marketing concept; it enables managers to look at the world through the customer's eyes. This ability has become an absolute necessity for success in today's hyper-competitive marketplace.

Soundtrack of the Revolution Nahid Siamdoust,2017-01-18 “A lovely tribute to the courage and creativity of Iran’s musicians . . . filled with hope and sadness—and the universal human desire for freedom.” —Joe Klein, Time Music was one of the first casualties of the Iranian Revolution. It was banned in 1979, but it quickly crept back into Iranian culture and politics. Now, more than forty years on, both the children of the revolution and their music have come of age. Soundtrack of the Revolution offers a striking account of Iranian culture, politics, and social change to provide an alternative history of the Islamic Republic. Drawing on over five years of research in Iran, including during the 2009 protests, Nahid Siamdoust introduces a full cast of characters, from musicians and audience members to state officials, and takes readers into concert halls and underground performances, as well as the state licensing and censorship offices. She closely follows the work of four musicians—a giant of Persian classical music, a government-supported pop star, a rebel rock-and-roller, and an underground rapper—each with markedly different political views and relations with the Iranian government. Taken together, these examinations of musicians and their music shed light on issues at the heart of debates in Iran—about its future and identity, changing notions of religious belief, and the quest for political freedom. Music will continue to offer an opening for debate and defiance. As the 2009 Green Uprising and the 1979 Revolution before it have proven, the invocation of a potent melody or musical verse can unite strangers into a powerful public. “Paints a vivid portrait of the struggles over popular music in the Islamic Republic.” —Mark LeVine, author of Heavy Metal Islam

First Tracks Bruce Gianola,2006-11-13 Everyone encounters new experiences on a daily basis regardless of age. However, some people seek out and embrace them while others try to avoid them. Risk taking, overcoming obstacles, setting goals and vigorously pursuing a specific objective gives rise to learning, energizes the spirit and builds self-confidence. Often there are other unexpected rewards. This book contains five short adventure stories that provide lessons from people who attempted new activities. Opening up to new experiences expands personal boundaries, establishes new limits and sets the groundwork to achieve objectives or goals once thought to be unachievable. Overcoming the inherent challenges of doing something new allows for physical, emotional and psychological growth. Yet for many, trying something new is a daunting challenge. The theme of first-time adventures, experienced in the High Sierra, exemplifies how the combination of planning, hard work and determination can push a person’s performance, knowledge and understanding of self to a new level. The pursuit of “First Tracks” by engaging in unique experiences is filled with humor, challenge, reward and disappointment but ultimately produces a well-rounded person, with a matchless story to tell. The stories in this book will capture your heart and mind and satisfy your appetite for adventure. Each story provides an unexpected twist that rewards the reader right up to the final word.

Singing the Body Electric: The Human Voice and Sound Technology Miriama Young,2016-03-03 Singing the Body Electric explores the relationship between the human voice and technology, offering startling insights into the ways in which technological mediation affects our understanding of the voice, and more generally, the human body. From the phonautograph to magnetic tape and now to digital sampling, Miriama Young visits particular musical and literary works that define a century-and-a-half of recorded sound. She discusses the way in which the human voice is captured, transformed or synthesised through technology. This includes the sampled voice, the mechanical voice, the technologically modified voice, the pliable voice of the digital era, and the phenomenon by which humans mimic the sounding traits of the machine. The book draws from key electro-vocal works spanning a range of genres - from Luciano Berio's Thema: Omaggio a Joyce to Radiohead, from Alvin Lucier's I Am Sitting in a Room, to Björk, and from Pierre Henry's Variations on a Door and a Sigh to Christian Marclay's Maria Callas. In essence, this book transcends time and musical style to reflect on the way in which the machine transforms our experience of the voice. The chapters are interpolated by conversations with five composers who work creatively with the voice and technology: Trevor Wishart, Katharine Norman, Paul Lansky, Eduardo Miranda and Bora Yoon. This book is an interdisciplinary enterprise that combines music aesthetics and musical analysis with literature and philosophy.

The Discourse of Protest, Resistance and Social Commentary in Reggae Music Elizabeth Turner,2021-09-30 A comprehensive, engaging and timely Bakhtinian examination of the ways in which the music and lyrics of Pacific reggae, aspects of performance, a record album cover and the social and political context construct social commentary, resistance and protest. Framed predominantly

by the theory and philosophy of Russian literary theorist Mikhail Bakhtin, this innovative investigation of the discourse of Pacific reggae in New Zealand produces a multi-faceted analysis of the dialogic relationships that create meaning in this genre of popular music. It focuses on the award-winning EP What’s Be Happen? by the band Herbs, which has been recognised for its ground-breaking music and social commentary in the early 1980s. Herbs’ songs address the racism and ideology of the apartheid regime in South Africa and the relationship between sport and politics, as well as universally relevant conflicts over race relations, the experiences of migrants, and the historic and ongoing loss of indigenous people’s lands. The book demonstrates the striking compatibility between Bakhtin’s theorisation of utterances as ethical acts and reggae music, along with the Rastafari philosophy that underpins it, which speaks of resistance to social injustice, of ethical values and the kind of society people seek to achieve. It will appeal to a cross-disciplinary audience of scholars in Bakhtin studies; discourse analysis; popular cultural studies; the literary analysis of popular music and lyrics, and those with an interest in the culture and politics of Aotearoa New Zealand and the Pacific region. Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.
