Social Software Engineering Jessica Keyes,2016-04-19 Although the precepts of software engineering have been around for decades, the field has failed to keep pace with rapid advancements in computer hardware and software. Communicating Sequential Processes. The First 25 Years Ali E. Abdallah,Cliff B. Jones,Jeff W. Sanders,2005-05-04 This volume, like the symposium CSP25 which gave rise to it, commemorates the semi-jubilee of Communicating Sequential Processes. 1 Tony Hoare's paper "Communicating Sequential Processes" is today widely regarded as one of the most influential papers in computer science. To commemorate it, an event was organized under the auspices of BCS-FACS (the British Computer Society's Formal Aspects of Computing Science specialist group). CSP25 was one of a series of such events organized to highlight the use of formal methods, emphasize their relevance to modern computing and promote their wider application. BCS-FACS is proud that Tony Hoare presented his original ideas on CSP at one of its first meetings, in 1978. The two-day event, 7-8 July 2004, was hosted by London South Bank University's Institute for Computing Research, Faculty of Business, Computing and Information Management. The intention was to celebrate, reflect upon and look beyond the first quarter-century of CSP's contribution to computer science. The meeting examined the impact of CSP on many areas stretching from semantics (mathematical models for understanding concurrency and communications) and logic (for reasoning about behavior), through the design of parallel programming languages (i/o, parallelism, synchronization and threads) to applications ranging from distributed software and parallel computing to information security, Web services and concurrent hardware circuits. It included a panel discussion with panelists Brookes, Hoare, de Roever and Roscoe (chaired by Jeff Sanders), poster presentations by PhD students and others, featured a fire alarm (requiring evacuation in the rain!) and concluded with the presentation of a fountain pen to Prof. Sir C. A. R. Hoare.

First Class Alison Stewart,Melissa Harris-Perry,2013-08-01 Combining a fascinating history of the first U.S. high school for African Americans with an unflinching analysis of urban public-school education today, *First Class* explores an underrepresented and largely unknown aspect of black history while opening a discussion on what it takes to make a public school successful. In 1870, in the wake of the Civil War, citizens of Washington, DC, opened the Preparatory High School for Colored Youth, the first black public high school in the United States; it would later be renamed Dunbar High and would flourish despite Jim Crow laws and segregation. Dunbar attracted an extraordinary faculty: its early principal was the first black graduate of Harvard, and at a time it had seven teachers with PhDs, a medical doctor, and a lawyer. During the school's first 80 years, these teachers would develop generations of highly educated, successful African Americans, and at its height in the 1940s and '50s, Dunbar High School sent 80 percent of its students to college. Today, as in too many failing urban public schools, the majority of Dunbar students are barely proficient in reading and math. Journalist and author Alison Stewart—whose parents were both Dunbar graduates—tells the story of the school's rise, fall, and possible resurgence as it looks to reopen its new, state-of-the-art campus in the fall of 2013.

A Vision Greater than Themselves Laurence B. Mussio,2016-11-01 For the past two centuries, the Bank of Montreal has been at the centre of Canada's economic and financial development. Marking the bicentennial of Canada's first bank, *A Vision Greater than Themselves* tells the story of the financial institution from its origins to the present through its iconography. Exploring the Bank of Montreal's past through images of objects, its leaders, key documents, and forgotten advertisements, Laurence Mussio illustrates how the Bank of Montreal emerged over time. He shares perspectives on leadership, culture, community, triumphs, and challenges to offer a glimpse into the bank's personality, innovations, technologies, nation-building projects, and architectural legacy. The mosaic that emerges provides a unique understanding of the Bank of Montreal's experience over the years. Individually, each visual reveals a self-contained story that is both entertaining and

extraordinary. Collectively, these objects impart a much larger story. Throughout this volume's pages, a picture emerges of a bank that has shaped and been shaped by Canada and the North Atlantic world. Examining an astonishing range of material, *A Vision Greater than Themselves* celebrates the evolution of one bank and how it made its mark.

First Class Citizenship Michael G. Long, 2008-09-02 Never-before-published letters offer a rich portrait of the baseball star as a fearless advocate for racial justice. Jackie Robinson's courage on the baseball diamond is one of the great stories of the struggle for civil rights in America, but his death at age fifty-three in 1972 robbed America of his voice far too soon. Here, Robinson comes alive on the page, as scholar Long unearths a remarkable trove of Robinson's correspondence with--and personal replies from--such towering figures as Dwight Eisenhower, Richard Nixon, John F. Kennedy, Lyndon Johnson, Martin Luther King, Malcolm X, Hubert Humphrey, Nelson Rockefeller, and Barry Goldwater. Writing eloquently, Robinson charted his own course, offering his support to Democrats and Republicans, questioning the tactics of the civil rights movement, and challenging the nation's leaders. Robinson truly personified the first class citizenship that he considered the birthright of all Americans.--From publisher description

Going First Class? Vered Amit, 2011-06-01 People travel as never before. However, anthropological research has tended to focus primarily on either labor migration or on tourism. In contrast, this collection of essays explores a diversity of circumstances and impetuses towards contemporary mobility. It ranges from expatriates to peripatetic professionals to middle class migrants in search of extended educational and career opportunities to people seeking self development through travel, either by moving after retirement or visiting educational retreats. These situations, however, converge in the significant resources, variously of finances, time, credentials or skills, which these voyagers are able to call on in embarking on their respective journeys. Accordingly, this volume seeks to tease out the scope and implications of the relatively privileged circumstances under which these voyages are being undertaken.
