Entertainment Computing - ICEC 2004 Matthias Rauterberg, 2004-08-23 The advancement of information and communication technologies (ICT) has enabled broad use of ICT and facilitated the use of ICT in the private and personal domain. ICT-related industries are directing their business targets to home applications. Among these applications, entertainment will differentiate ICT applications in the private and personal market from the office. Comprehensive research and development on ICT applications for entertainment will be different for the promotion of ICT use in the home and other places for leisure. So far engineering research and development on entertainment has never been really established in the academic communities. On the other hand entertainment-related industries such as the video and computer game industries have been growing rapidly in the last 10 years, and today the entertainment computing business outperforms the turnover of the movie industry. Entertainment robots are drawing the attention of young people. The event called RoboCup has been increasing the number of participants year by year. Entertainment technologies cover a broad range of products and services: movies, music, TV (including upcoming interactive TV), VCR, VoD (including music on demand), computer games, game consoles, video arcades, gaming machines, the Internet (e. g. , chat rooms, board and card games, MUD), intelligent toys, edutainment, simulations, sport, theme parks, virtual reality, and upcoming service robots. The field of entertainment computing focuses on users' growing use of entertainment technologies at work, in school and at home, and the impact of this technology on their behavior. Nearly every working and living place has computers, and over two-thirds of children in industrialized countries have computers in their homes as well.

Technobiophilia Sue Thomas, 2013-09-26 Why are there so many nature metaphors - clouds, rivers, streams, viruses, and bugs - in the language of the internet? Why do we adorn our screens with exotic images of forests, waterfalls, animals and beaches? In *Technobiophilia: Nature and Cyberspace*, Sue Thomas interrogates the prevalence online of nature-derived metaphors and imagery and comes to a surprising conclusion. The root of this trend, she believes, lies in biophilia, defined by biologist E.O. Wilson as 'the innate attraction to life and lifelike processes'. In this wide-ranging transdisciplinary study she explores the strong thread of biophilia which runs through our online lives, a phenomenon she calls 'technobiophilia', or, the 'innate attraction to life and lifelike processes as they appear in technology'. The restorative qualities of biophilia can alleviate mental fatigue and enhance our capacity for directed attention, soothing our connected minds and easing our relationship with computers. *Technobiophilia: Nature and Cyberspace* offers new insights on what is commonly known as 'work-life balance'. It explores ways to make our peace with technology-induced anxiety and achieve a 'tech-nature balance' through practical experiments designed to enhance our digital lives indoors, outdoors, and online. The book draws on a long history of literature on nature and technology and breaks new ground as the first to link the two. Its accessible style will attract the general reader, whilst the clear definition of key terms and concepts throughout should appeal to undergraduates and postgraduates of new media and communication studies, internet studies, environmental psychology, and human-computer interaction. www.technobiophilia.com

Hotel as Home Gary Chang, 2006-09-14 Architect and photographer Gary Chang has a strange obsession: he absolutely loves hotels. It's a good thing, as he spends about 120 days a year traveling all over the world. Chang has become something of a hotel expert, but meeting his exacting standards for a suitable home away from home isn't easy. He doesn't stay at just any hotel. He plans his trips with exhaustive research on the hotels of his destination and even stays at several different ones during the same trip to one city. His favorite hotels are those places that have a certain special quality, ranging from New York's kitschy Maritime to Budapest's classic Gellert to Zurich's brand-spanking new Zurichberg. Chang's most-loved finds are documented in beautiful photographs, his hand drawn floor plans, and personal texts in *Hotel as Home*. He presents thirty-five hotels from around the world in this wonderfully atmospheric book from the Hotel 101 in Reykjavik to the Hotel Le Corbusier in Marseilles, the Soho House Hotel in New York, the W Hotel in Sydney, the Four Seasons in Tokyo, and the Hotel Metropolitan in Bangkok. Whether it's the all-white design of Starck's Hotel Delano in Miami, the Art Deco brass beds and chandeliers in the rooms of Istanbul's Pera Palaca Hotel, or the Zen atmosphere of London's Hotel Hempel, there's something to love in all of the hotels shown here. This a must-have for business class road warriors and all travelers in search of a unique, memorable, and rejuvenating hotel experience.

Hungry demons and howling werewolves haunt his waking nightmares... and threaten his life.

Wallpaper Paste PJ Hoge, 2018-12-13 Matt and Diane Harrington were settling into their newly married life. Diane's past had been hampered by a dysfunctional childhood, an abusive early marriage, and physical violence at the hands of her in-laws and even her own mother. Now she had a good, happy marriage, a relationship with her brother and her wonderful friends, and a great relationship with Matt's family. All she needed to complete her happiness was to have a child. She had been pregnant while she was married to

Dean. After a beating with a fireplace poker from her then mother-in-law, Diane not only lost her infant son but sustained serious damage to her ability to have another child. Matt was supportive, and he understood her position. He told her that she was more important to him. They could adopt. He didn't want to lose her. She had always craved to be like the other girls. To her, this was the most important thing. She wanted to fix up a nursery, talk about baby showers, and then have the pride of handing a child to her wonderful Matt. Matt was reluctant, but he relented. He knew how much it meant to her.

Play and playfulness for public health and wellbeing Alison Tonkin, Julia Whitaker, 2019-03-22 The role of play in human and animal development is well established, and its educational and therapeutic value is widely supported in the literature. This innovative book extends the play debate by assembling and examining the many pieces of the play puzzle from the perspective of public health. It tackles the dual aspects of art and science which inform both play theory and public health policy, and advocates for a 'playful' pursuit of public health, through the integration of evidence from parallel scientific and creative endeavors. Drawing on international research

evidence, the book addresses some of the major public health concerns of the 21st century – obesity, inactivity, loneliness and mental health – advocating for creative solutions to social disparities in health and wellbeing. From attachment at the start of life to detachment at life's ending, in the home and in the workplace, and across virtual and physical environments, play is presented as vital to the creation of a new 'culture of health'. This book represents a valuable resource for students, academics, practitioners and policy-makers across a range of fields of interest including play, health, the creative arts and digital and environmental design.
