Moon Phase Whitetail Hunting Jeff Murray,2001 No longer a guarded secret, hunting whitetails using a lunar strategy is one of the most effective tactics employed by successful trophy hunters. The father of hunting deer by the moon, the man who started it all, Jeff Murray, shares his best kept secrets and insights on this fascinating aspect of white-tailed deer hunting and tells you how to make it work for you. From game-tracking experts and professional biologists to hunting club managers, outfitters and guides, great hunters know that deer are inextricably linked to the lunar cycle. In his latest book on the subject, Murray teaches how to predict peak rutting activity and how to plan to be afield when big bucks are moving. Other topics include tactics to zone in on deer in transition areas and when, according to moon phase, deer will be at the field's edge and when they won't! This book also covers the different lunar cycles and how the moon triggers the rut activity. Chapters include Does the Moon Trigger the Rut? Master Mast; Timing Food Sources; Zoned Out; Timing the Transition Zone; Wallhanger Whereabouts; The Moon is Unique and Influential; and Secret Scent.

The LUNAR Connection Phillip Muller,2017-12-21 The ultimate guide to timing your fishing trip for success!This book has been compiled from over 40 years of meticulous record keeping of thousands of fishing trips. Records which have been dissected and analysed and the repetitive feeding patterns noted and compared to each day of the Lunar cycle. It is astounding to see how, when tested, these records are extremely accurate and repeat constantly. Each year millions of Anglers throughout the world spend billions of dollars on fishing equipment, boats, bait, travel and holidays in an endeavour to fulfil their inner desire to catch fish.Many anglers spend no time selecting when they should be on the water. This results in a lot of time being wasted fishing when the fish are not feeding, therefore limiting success, and being extremely frustrating. The Lunar Connection is a comprehensive and detailed look at the phases of the moon, together with the sun and other influences, and the effect they have over the everyday feeding patterns of fish species. It shows in detail when fish are likely to be feeding and how ferociously. Dramatic changes in barometric pressure, cloud formations, the ionization of the atmosphere and the onset of storms can also be used to determine fluctuations in feeding activity. Recreation time these days is often limited. This book will allow maximization of results and less precious time wasted when the fish are not biting, enabling better results, and more enjoyment of the overall experience. Whilst there have been articles written about fishing and the Moon, there has never been anything written to this extent regarding the feeding patterns of fish. Phillip has personally won hundreds of fishing competitions using far less time, to the amazement of others who do not have this knowledge. This information is relevant around the globe, and is a game changer for anglers worldwide.
