Fishing Times

Upriver and Downstream New York Times, 2010-03-16 Upriver and Downstream gathers seventy columns about fishing—from freshwater to saltwater, from small ponds to the Great Lakes, from the Pacific Northwest to post-Soviet Russia—written for the “Outdoors” column of the New York Times. Contributors include such celebrated names as Nick Lyons, Thomas McGuane, Nelson Bryant, Peter Kaminsky, Ernest Schweibert, and Robert H. Boyle. Short, evocative, informative, and entertaining, here are pieces about fly-fishing for wild brook trout, bait-fishing for striped bass, casting into tailwaters, or angling in midwinter. The settings range from Hudson River piers to the Florida Everglades, from Iceland to the Amazon, and the fish include everything from the common sunfish to the esoteric paddlefish. These engaging essays remind us of what fishing is all about: companionship and solitude, challenge and relaxation, nature and technology, from coast-to-coast to around the globe. Rich with the particulars of water, light, and air, as well as a keen awareness of, as Verlyn Klinkenborg puts it in his introduction, “what is happening out there—in the deep, in the shallows, at the end of the line,” these reflections and recollections beautifully capture the natural world and one of life’s most challenging, perennial pursuits.

Martha's Vineyard Fish Tales Nelson Sigelman, 2019-02-01 The focus is on Martha's Vineyard but the information, fishing tips, and stories about Island characters—Bob “Hawkeye” Jacobs jumping off Memorial Wharf to snag an albie he hooked—will sound familiar to anyone who has spent time in a community of fishermen. This informative and fun read answers the questions asked in local tackle shops, including the best spots to catch a striped bass on a fly rod—Lobsterville Beach—and rigging tackle for blues, fluke, black sea bass, false albacore, and bonito. Spin fishing, bottom fishing, and fly fishing are all covered. This book follows the island fishing seasons: rods appear on island trucks in April, a sign that schoolies have arrived, and they do not begin to disappear until the venerable Bass and Bluefish Derby, five weeks of single-minded pursuit of fish, ends in October. And there are tips on looking and talking the part . . . “handy phrases include any reference to a falling or rising tide and a rock, any rock, as long as you refer to it with a sense of authority so that the other person is unwilling to ask which rock for fear of seeming like a novice.” Martha's Vineyard Fish Tales is a “how to” book

that flows with the character and personality of a fishing-obsessed island off the coast of Massachusetts.

On the East End Clarence Hickey,2015-07-11 In 1970, as a young marine biologist, Clarence Hickey won a position on the staff of the New York State Ocean Sciences Laboratory, Montauk, NY. For the next five years he was involved in landmark studies of Long Island's then-thriving fisheries. He developed deep bonds with the Baymen and ocean fishers who called the East End of Long Island home, and worked closely with them as he and the Ocean Sciences Lab studied the habits and prospects of more than one hundred species of fish and shellfish that call Long Island home – or visit our waters on a regular basis. This is his loving, anguished memoir of those years, replete with vivid portraits of the traditional fishers and scientists

he worked with, their habits and discoveries, and their history-suffused community. Like their brethren to the north and south on the East Coast, Long Island's Bonacker fishing community represents a long and colorful tradition celebrated most famously in Peter Mattheissen's classic *Men's Lives*. Hickey's memoir is an elegiac complement to that book. Perhaps more important, Hickey calls for our deep attention to the destruction – in less than a generation – of a crucial natural resource. The contrast between Clarence's years on the East End and today is stark and disturbing. Over the last forty years he has revisited his beloved East End regularly, and watched with alarm as our ecosystem – and it's community – has declined. On the East End is Clarence Hickey's clarion call for us to preserve and revive the natural community he fell in love with when he was young. A publication of the Long Island Nature Organization.

He deftly ranges from joyful topics to bittersweet moments to a tongue-in-cheek quiz designed to test your fly-fishing sophistication. Other contemplations include: Essays on fishing for trout, steelhead, bonefish, and carp Surviving a career in journalism Fishing for Atlantic salmon vs. Pacific salmon The impending future of outdoor sports It is with good humor, precision, and thoughtful insight that Raymond reels you

in. Sixty Seasons is a must-have for anyone who loves fly-fishing or the natural world.

Jardines de la Reina, Cuba (tarpon), the Zhupanova River, Kamchatka (rainbow trout), and the Rio Negro, Brazil (peacock bass) are also included. The fifty essays include a cultural and natural history of each site, along with colorful anecdotes based on the author's and authorities' experiences. Valentine Atkinson, the book also provides adventurous anglers with enough travel-and-tackle information so that they, too, can start planning excursions to go fish around the globe. The Common Angler Jack Wollitz, 2021-05-11 The Common Angler taps into the passion that simmers in the souls of anglers and celebrates the primordial connection of people to fish and fishing. Author Jack Wollitz set out to explain the “why” behind the fact that so many people are passionate about fishing and along the way discovered a book's worth of experiences and stories. Early chapters cover the foundation of Jack's own passion for fishing and explore the connection we have with water and the creatures that depend on it for life. The Common Angler explores fishing friendships, relationships, and observations; extraordinary experiences; and the value of personal time on the water. Also included is a whimsical piece that personifies two common waterside fixtures. A key chapter draws parallels

between the legendary River Lea in Izaak Walton's *The Compleat Angler*, written in the mid-seventeenth century, and Northeast Ohio's Mahoning River and the mighty Ohio River. *The Common Angler* also provides an insider's perspective about what makes certain people great anglers, featuring two Northeast Ohio men known for their fishing accomplishments, as well as Ernest Hemingway, baseball stars Ted Williams and Wade Boggs, and Rick Clunn, considered the greatest bass angler of all time. The book advances with chapters that explore the development and popularity of competitive fishing, the therapeutic value of fishing when times are difficult, and even the pain and suffering dedicated anglers sometimes endure. *The Common Angler* concludes with an examination of the obligations anglers shoulder and how we can grow with our passion. "Next time you go to the water, open your eyes wider than ever before. Listen like your ears are amplifiers. Breathe with a purpose, deep and slow, so every molecule of nature checks in with your brain. Feel the sun. Touch the water. Ask yourself why you are there and what you intend to accomplish. Do this and you will be fishing. Do it every time and you will open a new chapter in your life as an angler."

Fifty More Places to Fly Fish Before You Die Chris Santella, 2012-11-15
Fifty More Places to Fly Fish Before You Die is the latest offering in the bestselling Fifty Places series. Chris Santella's first book, Fifty Places to Fly Fish Before You Die, has more than 100,000 copies in print, and Santella—now a regular fly-fishing contributor to the New York Times and many angling periodicals—has finally returned to the subject that started it all. Santella profiles 50 more first-class fly-fishing destinations around the world, as shared by top fishing-expedition leaders and journalists. This volume includes many of fly fishing's "next big things": fishing in San Diego for mako sharks; sight-casting in Bolivia for golden dorado; flats-style striper fishing in Maine's Casco Bay; nocturnal sea trout angling in Wales; and fishing for giant mahseer in the Himalayan foothills of India. Gorgeous photography showcases the beauty of these destinations, and the "If You Go" section enables readers to embark on the fishing trips themselves.

Four Fish Paul Greenberg, 2010-07-15 "A necessary book for anyone truly interested in what we take from the sea to eat, and how, and why." —Sam Sifton, The New York Times Book Review Acclaimed author of American Catch and The Omega Principle and life-long fisherman, Paul Greenberg takes us on a journey, examining the four fish that dominate our menus: salmon, sea bass, cod, and tuna. Investigating the forces that get fish to our dinner tables, Greenberg reveals our damaged relationship with the ocean and its inhabitants. Just three decades ago, nearly everything we ate from the sea was wild. Today, rampant overfishing and an unprecedented biotech revolution have brought us to a point where wild and farmed fish occupy equal parts of a complex marketplace. Four Fish offers a way for us to move toward a future in

which healthy and sustainable seafood is the rule rather than the exception.

The Believer David Coggins, 2024-04-09 The author of the instant fishing classic *The Optimist* wades into deeper waters and shares new wisdom, humor, and experience in seven extraordinary fly-fishing expeditions that mark one year in his journey through the middle part of life when worldly demands increase even as fishing continues to beckon—and must be pursued. In David Coggins's previous book, *The Optimist*, he tackles the techniques of fly fishing and meditates on its virtues, recounting his triumphs and frustrations. Now, in *The Believer*, he deftly mixes travel, local cultures, further fishing challenges (some knee-buckling in their disappointment), and details his own experience as life and love crowd his time to fish. Self-consciously—and self-deprecatingly—Coggins embarks on seven far-flung fishing voyages, away from screens and social media, not answering his phone, reveling in humanity's undying yearning for a quest, for the rituals and rites of passage that mark transition. For David, these journeys not only showcase his skill as an angler—including to Norway, Scotland, Spain, Cuba, and Argentina, as well as road trips to Wyoming, Tennessee, and the Catskills—they also signal the end of his fly-fishing youth. But that doesn't mean that David will sell all his rods and hang up his hat; rather, that his relationship with his fly-fishing obsession will evolve. And he's okay with that—mostly, especially if he can catch an elusive salmon or a ferociously strong tarpon or the mysterious and almost invisible bonefish. *The Believer* is a humble, humorous call for the journey that is part of the destination, where the search for greater self-awareness leads to patience, observation, and endurance. And, since this is fly fishing, after all—there's always the possibility of abject failure and leaping, glorious reward. Wry,

entertaining, thoughtful, and relatable, *The Believer* will hook both anglers and non-anglers alike.

Home Waters John N. Maclean, 2021-06-01 "Beautiful. ... A lyrical companion to his father's classic, *A River Runs through It*, chronicling their family's history and bond with Montana's Blackfoot River." -Washington Post A poetic and captivating (Publishers Weekly) memoir about the power of place to shape generations, *Home Waters* is John N. Maclean's remarkable chronicle of his family's century-long love affair with Montana's majestic Blackfoot River, the setting for his father's classic novella, *A River Runs through It*. Maclean returns annually to the simple family cabin that his grandfather built by hand, still in search of the trout of a lifetime. When he hooks it at last, decades of longing promise to be fulfilled, inspiring John, reporter and author, to finally write the story he was born to tell. A book that will resonate with everyone who feels deeply rooted to a landscape, *Home Waters* is a portrait of a family who claimed a river, from one generation to the next, of how this family came of age in the 20th century and later as they scattered across the country, faced tragedy and success, yet were always drawn back to the waters that bound them together. Here are the true stories behind the beloved characters fictionalized in *A River Runs through It*, including the Reverend Maclean, the patriarch who introduced the family to fishing; Norman, who balanced a life divided between literature and the tug of the rugged West; and tragic yet luminous Paul (played by Brad Pitt in Robert Redford's film adaptation), whose mysterious death has haunted the family and led John to investigate his uncle's murder and reveal new details in these pages. A universal story about nature, family, and the art of fly fishing, Maclean's memoir beautifully captures the inextricable ways our

personal histories are linked to the places we come from—our home waters. Featuring twelve wood engravings by Wesley W. Bates and a map of the Blackfoot River region.
