John Pedersen

The Legend of the Lighter Ad van Weert, Joop Bromet, Alice van Weert, 1995 Through the ages, people have drawn inspiration from their desire to develop the idea of portable fire. This book traces the history of the cigarette lighter from its predecessor, the tinder box, to the fashionable and exquisitely decorated lighters of the 20th century, and provides a unique account of its development in design and technology. 150 color photos.

Cigarette Lighter Jack Pendarvis, 2016-01-28 *Object Lessons* is a series of short, beautifully designed books about the hidden lives of ordinary things. Smokers, survivalists, teenagers, collectors.... The cigarette lighter is a charged, complex, yet often entirely disposable object that moves across these various groups of people, acquiring and emitting different meanings while always supplying its primary function, that of ignition. While the lighter may seem at first a niche object-only for old fashioned cigarette smokers-in this book Jack Pendarvis explodes the lighter as something with deep history, as something with quirky episodes in cultural contexts, and as something that dances with wide ranging taboos and traditions. Pendarvis shows how the lighter tarries with the cheapest ends of consumer culture as much as it displays more profound dramas of human survival, technological advances, and aesthetics. *Object Lessons* is published in partnership with an essay series in *The Atlantic*.

The Torch Peter Twohig, 2015-03-18 The sequel to the much-loved novel, *The Cartographer*. Melbourne, 1960: Mrs Blayney and her twelve year old son live in South Richmond. At least, they did, until their house burnt down. The prime suspect - one Keith Aloysius Gonzaga Kavanagh, also aged 12 - has mysteriously disappeared. Our narrator, the Blayney kid, sets off on a covert mission to find young Keith, who he privately dubs 'Flame Boy', to save him from the small army of irate locals - not to mention his mother - who want to see him put away. Flame Boy has not only made himself scarce, but he's done so with a very important briefcase of secrets, which the kid is keen to get hold of for his grandfather, a shady character who has some secrets of his own. But the kid has got a lot going on: he's also organising a new gang of kids; coping with the ups and downs of having a girl friend (who likes to kiss - a lot); trying to avoid Keith's dangerous prison-escapee father, Fergus Kavanagh, also an arsonist, who is suspected of selling secrets to the Russians; and all the while wondering how he can get his hands on the most beautiful object in the world: the Melbourne Olympic Torch. A madcap, brilliantly shambolic and irresistibly fun novel about loss, discovery and living life to the full, *The Torch* is a ripper of a ride.

The Ultimate Cigar Book Richard Carleton Hacker, 2015-06-02 First published in 1993, *The Ultimate Cigar Book* has become a classic in its field, and is generally credited with having helped launch the current cigar smoking craze. It has been reprinted numerous times in the United States, and is now sold worldwide. No other book contains as much detailed and factual information on virtually every facet of cigar making and cigar smoking. And now this trendsetting book has been revised in this fourth edition for the aficionado of the future! Forget 1492. This book starts out in B. C. (Before Columbus) and transports the cigar enthusiast on a fun and fact-filled adventure into virtually every realm of today's popular and growing cigar smoking pastime. Written by one of the most knowledgeable and internationally-celebrated pipe and cigar authors of our time, Richard Carleton Hacker's well-known wit and wisdom will keep the reader enthralled with every turn of the page, as he takes you on an information-packed world tour of cigars. Starting off with a history of cigar smoking, the author then shows us how cigars are made today (handmade, handrolled, and machine made), divulges the secrets of finding the "perfect" cigar, and discusses the ritual of smoking and how to properly care for and store our cigars. From there the book lists a number of innovative cigar accessories, suggests which beers, wines, whiskeys, brandies, and cognacs go with what cigars, enlightens us with a chapter on cigar smoking celebrities, and concludes with the world's first International Compendium of virtually every cigar brand known today, complete with histories and observations on taste, according to the author's HPH (Highly Prejudiced Hacker-Scale) ratings. If that was not enough, there is even a dictionary of CigarSpeak! *The Ultimate Cigar Book* is the most

comprehensive, factual, and up-to-date book for the cigar smoker or for those who just want to learn more about the fascinating and popular world of cigar smoking.

Potato People Jack Schmitt,2019-02-12 The book details the adventures of the eldest son of a working-class family from the urban Midwest who enters the army in the late 1960s and is transformed from a naive cowboy idolizer into a devious, larcenous, gun-carrying reprobate. He delves into the world of black market activities, prostitutes, drugs, and race relations and emerges a callous man for whom death is divided into two basic classes: bodies that are sent away and those that are dismissed as the impersonal enemy. Raised in an all-white environment and having had only one long-term exposure to a person of color, during a short period attending a seminary, he was taught to treat others fairly or to ignore them if their behavior warranted it. In the army, he encounters young men from every part of the country. Some require special treatment, while others introduce him to layers of the spectrum of life, which he did not know existed. He receives specialized training and, instead of being sent directly to Vietnam, is dispatched to Germany to participate in the Cold War in a very active manner. While in the army from 1967 to 1970, he wrote over five hundred letters, many to a girl with whom relations ended upon his return from Vietnam. She gave all the letters back, and they stayed on a shelf, waiting to fulfill the promise to someday write a book about the things that happened. His father also returned the letters that were written to him, which described the language used, the abuse suffered, and the status of race and homosexual relations, as well as the horrors of war, in no uncertain terms. The letters remained untouched for nearly fifty years, but he would sometimes recount an incident to friends or family, receiving in return an urging to write the stories for them. His older daughter chronologically organized the letters, while his other daughter edited the manuscript as it was being written. The idea to write this book, as well as its title, struck while joking with fellow GI's in the barracks about someday telling the world that no one would believe the things they were doing in the name of serving their country. They would develop audacious pranks to outdo one another or minimize a situation and just be glad to live another day. They often remarked about spending parents' and grandparents' tax money on atrocious wastes of effort and material. The military personnel during the late '60s fit three distinct categories: juicers, heads, and straights. The first included men from every state, since almost everyone drank now and then. The second referred to the use of acid by some, while smokers and dopers fit right in. Lastly, there were some individuals who preferred not to get wasted by any means. Homosexuals and blacks could occupy any of the groups. The story details army life for a middle-class Midwest man who is introduced to conditions and concepts he had never imagined in Europe, then in the States, and finally in Vietnam. The intended audience is adult, mostly because of the language and the portrayal of man's cruelty to man, while on the other hand, the book is both nostalgic as well as informative.
