The Begging Question Erik Hansson, 2023-05 Begging, thought to be an inherently un-Swedish phenomenon, became a national fixture in the 2010s as homeless Romanian and Bulgarian Roma EU citizens arrived in Sweden seeking economic opportunity. People without shelter were forced to use public spaces as their private space, disturbing aesthetic and normative orders, creating anxiety among Swedish subjects and resulting in hate crimes and everyday racism. Parallel with Europe's refugee crisis in the 2010s, the "begging question" peaked. The presence of the media's so-called EU migrants caused a crisis in Swedish society along political, juridical, moral, and social lines due to the contradiction embodied in the Swedish authorities' denial of social support to them while simultaneously seeking to maintain the nation's image as promoting welfare, equality, and antiracism. In *The Begging Question* Erik Hansson argues that the material configurations of capitalism and class society are not only racialized but also unconsciously invested with collective anxieties and desires. By focusing on Swedish society's response to the begging question, Hansson provides insight into the dialectics of racism. He shrewdly deploys Marxian economics and Lacanian psychoanalysis to explain how it became possible to do what once was thought impossible: criminalize begging and make fascism politically mainstream, in Sweden. What Hansson reveals is not just an insight into one of the most captivating countries on earth but also a timely glimpse into what it means to be human.

Exposed Mia-Marie Hammarlin, 2019-09-15 This book illuminates the personal experience of being at the centre of a media scandal. It applies ethnological perspectives to empirical materials from a Swedish context to highlight the existential level of the phenomenon. How does it feel to be exposed through scandalisation? How does such an experience affect a person's everyday life? These are the urgent and fascinating questions that the book addresses. It also highlights the fusion between face-to-face communication and traditional news media. Gossip and rumour must be included in the idea of the media system for us to be able to understand the power of a media scandal, a finding leads to a critique of earlier research.

Tim – The Official Biography of Avicii Måns Mosesson, 2021-11-30 The intimate biography of the iconic DJ who was lost too soon. Like a firework against the night sky, the DJ and producer Tim Bergling exploded onto the music scene. A musical visionary who, through his sense for melodies, came to define the era when Swedish and European house music took over the world. But Tim Bergling was also an introverted and fragile young man who was forced to grow up at an inhumanly fast pace. After a series of emergencies resulting in hospital stays, he stopped touring in the summer of 2016. Barely two years later, he took his own life. *Tim - The Biography of Avicii* is written by the award-winning journalist Måns Mosesson, who was given unique access to Tim's own notes, as well as interviews with Tim's family, friends and colleagues in the music business. The book paints an honest picture of Tim and his search in life, not shying from the difficulties that he struggled with.

The Oxford Handbook of Social Media and Music Learning Janice L. Waldron, Stephanie Horsley, Kari K. Veblen, 2020-09-23 The rapid pace of technological change over the last decade, particularly the rise of social media, has deeply affected the ways in which we interact as individuals, in groups, and among institutions to the point that it is difficult to grasp what it would be like to lose access to this everyday aspect of modern life. *The Oxford Handbook of Social Media and Music Learning* investigates the ways in which social media is now firmly engrained in all aspects of music education, providing fascinating insights into the ways in which social media, musical participation, and musical learning are increasingly entwined. In five sections of newly commissioned chapters, a refreshing mix of junior and senior scholars tackle questions concerning the potential for formal and informal musical learning in a networked society. Beginning with an overview of community identity and the new musical self through social media, scholars explore intersections between digital, musical, and social constructs including the vernacular of born-digital performance, musical identity and projection, and the expanding definition of musical empowerment. The fifth section brings this handbook to full practical fruition, featuring firsthand accounts of digital musicians, students, and teachers in the field. *The Oxford Handbook of Social Media and Music Learning* opens up an international discussion of what it means to be a musical community member in an age of technologically mediated relationships that break down the limits of geographical, cultural, political, and economic place.

Fitness Doping Jesper Andreasson, Thomas Johansson, 2019-06-25 This book compiles several years of multi-faceted qualitative research on fitness doping to provide a fresh insight into how the growing phenomenon intersects with issues of gender, body and health in contemporary society. Drawing on biographical interviews, as well as online and offline ethnography, Andreasson and Johansson analyse how, in the context of the global development of gym and fitness culture, particular doping trajectories are formulated, and users come into contact with doping. They also explore users' internalisation of particular values, practices and communications and analyse how this influences understandings of the self, health, gender and the body, as well as tying this into wider beliefs regarding individual freedom and the law. This insight into doping goes beyond elite and organised sports, and will be of interest to students and scholars across the sociology of sport, leisure studies, and gender and body politics.

Möten med mening Karin L. Eriksson, 2016-09-30 I *Möten med mening* belyser en grupp forskare ämnesdidaktiska frågor om meningsskapande i och utanför skolans väggar. Genom fallstudier inventerar skribenterna – själva ämneslärarutbildare – lärarens möjligheter att skapa nya insikter i och förståelser av humanistiska och estetiska ämnen som historia, språk och musik. Bokens första del fokuserar på elevers och studenters möten med olika ämnen och discipliner. Hur kan didaktiska frågor och perspektiv användas för att beskriva, granska och skapa en fördjupad ämnesförståelse? I den andra delen utgår författarna från den didaktiska forskningen och ger konkreta exempel och förslag på hur undervisande lärare kan arbeta för att skapa inspirerande upplevelser i ämnesundervisningen. Boken riktar sig främst till ämneslärarstudenter i de humanistiska och estetiska ämnena, men fungerar utmärkt som inspiration och kompetensutveckling för redan verksamma lärare. *Möten med mening* manar till fortsatt forskning i ett ämne med potential att påverka framtida undervisning.

The Construction of Equality Jennifer Mack, 2017-10-30 An industrial city on the outskirts of Stockholm, Södertälje is the global capital of the Syriac Orthodox Christian diaspora, an ethnic and religious minority group fleeing persecution and discrimination in the Middle East. Since the 1960s, this Syriac community has transformed the standardized welfare state spaces of the city's neighborhoods into its own "Mesopotälje," defined by houses

with Mediterranean and other international influences, a major soccer stadium, and massive churches and social clubs. Such projects have challenged principles of Swedish utopian architecture and planning that explicitly emphasized the erasure of difference. In *The Construction of Equality*, Jennifer Mack shows how Syriac-instigated architectural projects and spatial practices have altered the city's built environment "from below," offering a fresh perspective on segregation in the European modernist suburbs. Combining architectural, urban, and ethnographic tools through archival research, site work, participant observation (among residents, designers, and planners), and interviews, Mack provides a unique take on urban development, social change, and the immigrant experience in Europe over a fifty-year period. Her book shows how the transformation of space at the urban scale—the creation and evolution of commercial and social districts, for example—operates through the slow accumulation of architectural projects. As Mack demonstrates, these developments are not merely the result of the grassroots social practices usually attributed to immigrants but instead are officially approved through dialogues between residents and design professionals: accredited architects, urban planners, and civic bureaucrats. Mack attends to the tensions between the "enclavization" practices of a historically persecuted minority group, the integration policies of the Swedish welfare state and its planners, and European nativism.

Julian Assange in Sweden Guy J. Sims, 2012-10-12 Julian Assange, founder of WikiLeaks, was in Sweden for almost seven weeks during August and September 2010. What happened to him during those seven weeks is a story familiar to many people in Sweden, because it is in the Swedish language. Here, for the first time, is the story for English-speaking readers, much of it from official Swedish police documents. The first section of the book reports items day by day. Assange was invited to Sweden to give a seminar. He gave his seminar on Saturday 14 August and that evening a crayfish party was held in his honour. On Wednesday 18 August, he applied for a work permit and residence permit in Sweden. With these permits he would also be able to apply for a publishing certificate which would give him and WikiLeaks strong legal protection in Sweden. On Friday 20 August two women walked into a police station. That evening, Julian Assange was sought for arrest on suspicion of rape and this was reported in the newspaper Expressen and subsequently world-wide. The next day the arrest order was cancelled and the suspicion of rape dropped. On Wednesday 1 September, the suspicion of rape against Assange was resurrected. On Monday 27 September Assange had waited for almost four weeks to be interrogated by the police but nothing had happened so he left Sweden. Other sections of the book provide information on key events, short biographies of the main characters, a review of the Swedish justice system, full translations of all the available police documents, and a final section reports the legal and business activities of Julian Assange and WikiLeaks in Sweden during that period.

Scandology 3 André Haller, Hendrik Michael, Lucas Seeber, 2022-01-01 This book presents research on mediated scandals and substantiates the understanding of such forms of scandals and their impact on societies. Additionally, it connects the study of scandals with the broader fields of political communication research, organizational communication, journalism studies, and digital communication research. The authors focus on the 21st century as an age of perpetual scandalization and on digital technologies as a catalyst in this respect. Against this backdrop, the book examines different aspects of the transformation of mediated scandals through digital communication practices. Topics covered include, but are not limited to, the scandalizing potential of new media and the requirement of modified strategies of reputation management and crisis communication in politics, the entertainment industry, and the economic system among others; a different perspective on professional journalism and scandals created through new media; technological infrastructure and digital tools allowing journalists to establish new means to investigate hard scandals, i.e., substantial financial or political wrongdoings by the economic and political elite. The book, therefore, is a must-read for researchers and scholars from different disciplines, as well as practitioners and policy-makers interested in a better understanding of the study of scandals, their impact on societies, and their catalyzation through new media.

The Future of Journalism: Risks, Threats and Opportunities Stuart Allan, Cynthia Carter, Stephen Cushion, Lina Dencik, Inaki Garcia-Blanco, Janet Harris, Richard Sambrook, Karin Wahl-Jorgensen, Andy Williams, 2020-04-28 This volume draws together research originally presented at the 2015 Future of Journalism conference at Cardiff University, UK. The conference theme, 'Risks, Threats and Opportunities,' highlighted five areas of particular concern for discussion and debate. The first of these areas, 'Journalism and Social Media', explores how journalism and the role of the journalist are being redefined in the digital age of social networking, crowd-sourcing and 'big data', and how the influence of media like Twitter, Facebook, YouTube, Instagram, and Reddit affects the gathering, reporting or consumption of news? 'Journalists at Risk' assesses the key issues surrounding journalists' safety and their right to report, as news organizations and their sources are increasingly targeted in war, conflict or crisis situations. The third area, 'Journalism Under Surveillance', asks what freedom of the press means in a post-Snowden climate. What are the new forms of censorship confronting journalism today, and what emergent tactics will help it to speak truth to power? 'Journalism and the Fifth Estate' examines the traditional ideals of the fourth estate, which risk looking outdated, if not obsolete, in the modern world. How much can we rely on citizen media to produce alternative forms of news reporting, and how can we reform mainstream media institutions to make them more open, transparent and accountable to the public? The final area, 'Journalism's Values', asks how journalism's ethical principles and moral standards are evolving in relation to the democratic cultures of communities locally, regionally, nationally or internationally. What are the implications of changing priorities for the education, training and employment of tomorrow's journalists? Every chapter in this volume engages with a pressing issue for the future of journalism, offering an original, thought-provoking perspective intended to help facilitate further dialogue and debate. The chapters in this book were originally published in special issues of Digital Journalism, Journalism Practice, and Journalism Studies.

The 36 revised full papers presented were carefully reviewed and selected from 75 submissions. The traditional focus of the IDA symposium series is on end-to-end intelligent support for data analysis. The symposium aims to provide a forum for inspiring research contributions that might be considered preliminary in other leading conferences and journals, but that have a potentially dramatic impact.

Eventide Therese Bohman, 2018-04-10 "Eventide is full of damn fine writing, but it's the novel's irreverent attitude toward feminism that makes it necessary to read." —Los Angeles Review of Books In her forties, childless, and living alone, Karolina Andersson feels adrift after the breakup of a long relationship. An art history professor, she finds fulfillment in her work, and when she starts advising a new postgraduate student, she is struck by his confidence. He claims to have discovered new materials from a female artist working around 1900 that could change the history of Swedish visual arts. Karolina soon finds herself embroiled in a complex game with both emotional and professional consequences. Eventide is a perceptive novel of ideas about love, art, and solitude in our time, and the distorted standards to which women are held in their relationships and careers.

Exaptation and Language Change Muriel Norde, Freek Van de Velde, 2016-02-24 This volume is the first collection of papers that is exclusively dedicated to the concept of exaptation, a notion from evolutionary biology that was famously introduced into linguistics by Roger Lass in 1990. The past quarter-century has seen a heated debate on the properties of linguistic exaptation, its demarcation from other processes of linguistic change, and indeed the question of whether it is a useful concept in historical linguistics at all. The contributions in the present volume reflect these diverging points of view. Along with a comprehensive introduction, covering the history of the notion of exaptation from its conception in the field of biology to its adoption in linguistics, the book offers extensive discussion of the concept from various theoretical perspectives, detailed case studies as well as critical reviews of some stock examples. The book will be of interest to scholars working in the fields of evolutionary linguistics, historical linguistics, and the history of linguistics.
