God's Light Bulb Muzella Hayes Ph.D, 2019-10-22 Earthly man does not always understand the revelations of the Word; it is therefore sometimes necessary to use metaphors or parables as Jesus did when teaching the Jews about the kingdom of God. In the same vein, this dissertation uses the metaphor of a light bulb that can emanate light when plugged into an electrical source to the light that shines from God. Going further with this metaphor, the light bulb of God takes its energy from the Lord himself as it shines in the lives of everyone who believes in God. Light is used to show the way, as roads, airport runways, and stations are lit to facilitate easier traveling to humans. Light, as humans know it, was only possible after electricity was discovered. Caldwell stated that in New York, by the late 1870's electric light was no longer a novelty, though the city didn't get its first consumer power grid until eight-teen eighty-two. The city put electrical lights to good use as the New York Train System lit up the tracks twenty-four hours a day this provided an indication of the way the train would go. This was considered light that would guide the way for so many people travelling the city. This train line pointing to the way people should go can be seen as a metaphor for The Way in a biblical sense. There are people who do not know or believe that the first light was God's light.

**The Light Giver** Dale A. Fife, 2012-12-17 Dr. Dale Fife, author of *The Secret Place*, takes readers on a visionary journey into the inner sanctum of God's presence to experience the mysteries and revelation that Dr. Fife has found through intimate communion with the Father. Moses encountered the light and fire of the burning bush. On their way to the Promised Land, the Israelites followed a pillar of smoke by day and a pillar of fire by night. The priests of God ministered in the temple with the flame of a lampstand as their only source of light. Jesus said, "I am the light of the world. He who follows Me shall not walk in darkness, but have the light of life" (John 8:12). God wants all believers to walk in that same light of supernatural revelation. He wants you to transcend human limitations and access the divine realm. Open your spirit to receive fresh illumination, for you are about to have an intimate encounter with The Light Giver.

**A Message of Light** Floyd Irving Lorbeer, 1927

*Children of Light* James Latimore, 2000-08 *Children of Light* is, on the surface at least, a book of history, the history of a small religious sect-- the True Light Church of Christ-- found in North and South Carolina. The story of its founding in 1874 by a man claiming to be the third angel mentioned in Revelation 14, an account of its practices and beliefs--remaining apart from the world, expectations regarding the return of Christ, church Elders who have figured prominently in the church's history, locations of the societies (originally seven in number) comprising the church, the split that occurred in 1969 that left the church divided internally, with each faction claiming to be the true church, and the episodes of disfellowshipping (excommunication) that occur periodically. The book is also a work in the sociology of religion, covering a diversity of topics. These include: the consequences of an oral tradition for a religious organization; the technique of testifying in a church in which God continues to speak to man; the role

that clan-like family structures play in religious groups of this kind; charisma and its relationship to the concepts of dead instrument and dispensation of the gospel; the return of Christ as contingency, and adaptations made to the failure of prophecy; and the lower limits of size in a religious elect. *Children of Light* is a sort of experimental book within the academic field. The voice of the author is not dominant. The narrative is very largely in the words of the subjects themselves. The questions are not known in advance; the end is not prefigured at the beginning. A personal and subjective line is interwoven in the text also—a pilgrimage that serves to guide the inquiry and provide a framework of meaning.

*God's Light* Norvel Hayes, 2014-04-08 In this book, Norvel Hayes teaches on the light of God. Norvel challenges you as a child of God to allow God's light to shine through you as you minister to others. Jesus' first action in His ministry was to resist the devil and cause him to flee. We are to follow Jesus' example in ministry as we resist devils, feed the poor, lay hands on the sick, and pray for people letting the light of God pour through us upon those who sit in darkness.

**The Presence of Light** Matthew Kapstein, 2004-11-03 There is perhaps no greater constant in religious intuition and experience than the presence of light. In spiritual traditions East and West, light is not only ubiquitous but something that assumes strikingly similar forms in altogether different historical and cultural settings. This study examines light as an aspect of religiously valued experiences and its entailments for mystical theology, philosophy, politics, and religious art. The essays in this volume make an important contribution to religious studies by proposing that it is misleading to conceive of religious experience in terms of an irreconcilable

dichotomy between universality and cultural construction. An esteemed group of contributors, representing the study of Asian and Western religious traditions from a range of disciplinary perspectives, suggests that attention to various forms of divine radiance shows that there is indeed a range of principles that, if not universal, are nevertheless very widely occurring and amenable to fruitful comparative inquiry. What results is a work of enormous scope, demonstrating compelling cross-connections that will be of value to scholars of comparative religions, mysticism, and the relationship between art and the sacred. *The Medium and the Light* Michael McLuhan, 2010-03-01 Say the name Marshall McLuhan and you think of the great discoverer's explorations of the media. But throughout his life, McLuhan never stopped reflecting profoundly on the nature of God and worship, and on the traditions of the Church. Often other intellectuals and artists would ask him incredulously, Are you really a Catholic? He would answer, Yes, I am a Catholic, the worst kind -- a convert, leaving them more baffled than before. Here, like a golden thread lining his public utterances on the media, are McLuhan's brilliant probes into the nature of conversion, the church's understanding of media, the shape of tomorrow's church, religion and youth, and the God-making machines of the modern world. This fascinating collection, gathered from his many and scattered remarks, essays, and other writings, shows the deeply Christian side of a man widely considered the most important thinker of our time, a man whose insights into media and culture have revolutionized the field of media study and the way we see the world.

Freud and Religion William B. Parsons, 2021-05-27 We live in an era that often described as 'therapeutic.' Our culture is suffused with unconscious fantasies and psychoanalytic ways of thinking about self, other, and society. Aspects of the Freudian cultural universe have also had an impact on how we think about religion. In this volume, William Parsons explores the relationship between religion and psychoanalysis through multiple, linked investigations. Why did Freud write about religion and what did he say? What were the multiple critiques levelled at his work? What were the post-Freudian psychoanalytic advances? How can we still apply psychoanalytic ideas going forward? In answering these and related questions, Parsons distinguishes between classic-reductive, adaptive, and transformational psychoanalytic models. He also argues that the psychoanalytic theory of religion needs to integrate reflexive, dialogical, and inclusive elements as part of its toolkit. Offering illustrations and applications of such revisions, Parsons creates new capacities for thinking psychologically and critically about religion.
