The Visual Factory Michel Greif, 2017-12-01 If you're aware of the tremendous improvements achieved in productivity and quality as a result of employee involvement, then you'll appreciate

the great value of creating a visual factory. This book explains why conventional work areas, where fragmented information flows from top to bottom, must be replaced by the visual workplace, where information flows in every direction. It details how visual management can make the factory a place where workers and supervisors freely communicate so that every employee can take improvement action. The author's year-long worldwide research resulted in an abundance of practical recommendations. The communication techniques he suggests will: Foster cohesion within groups of employees. Turn fault-based into fact based communication. Overcome such problems as absenteeism and high defect rates. Stimulate an unending flow of suggestions from employees. A valuable resource for plant, operations, and human relations managers, this text discusses how successful companies develop meeting and communication areas, communicate work standard production controls such as kanban, and make goals and progress visible. Over 200 diagrams and photos illustrate the numerous visual techniques discussed.

Mergers and Acquisitions Kevin K. Boeh,Paul W. Beamish,2007 Mergers and Acquisitions: Text and Cases provides guiding frameworks and information on Mergers and Acquisitions (M&A), complemented by a set of well-matched cases. The purpose is not to rehash the existing set of M&A books, but to provide real-world examples of situations that allow the reader to utilize the core concepts and processes in M&A. The authors present a process-based framework of M&A, within which the reader is

given in-depth information about the steps in doing deals. The reader then has the ability to apply these concepts and frameworks to the full-length cases. The book can be used as a stand-alone text because it provides good coverage of the entire M&A process. In order to more specifically focus on any particular aspect of M&A, the text can easily be supplemented with focused materials.

Springer Handbook of Computational Intelligence Janusz Kacprzyk, Witold Pedrycz, 2015-05-28 The Springer Handbook for Computational Intelligence is the first book covering the basics, the state-of-the-art and important applications of the dynamic and rapidly expanding discipline of computational intelligence. This comprehensive handbook makes readers familiar with a broad spectrum of approaches to solve various problems in science and technology. Possible approaches include, for example, those being inspired by

biology, living organisms and animate systems. Content is organized in seven parts: foundations; fuzzy logic; rough sets; evolutionary computation; neural networks; swarm intelligence and hybrid computational intelligence systems. Each Part is supervised by its own Part Editor(s) so that high-quality content as well as completeness are assured.

Practical Management Science Wayne L. Winston,S. Christian Albright,Mark Nathan Broadie,Lawrence L. Lapin,William D. Whisler,2006 This text takes an active-learning approach, providing numerous examples and problems so students can practice extensively with a concept before moving on. Four types of problems -- skill-building, skill-extending, modeling, and cases are graded within sections and chapters to help instructors assign homework. Another important feature is the way that the text integrates modeling into all functional areas of business: finance, marketing, operations management using real examples and real data. The text emphasizes modeling over algebraic formulations and memorization of particular models. Shell files are also provided so that instructors can give students as much or as little information as they need.

Attitude Like Wings Stephen Michael Mishler,2004-06 The uplifting and inspiring journey began with An Eagle, an examination of oneself and his willingness to be lifted

up. Through struggles and storms, he came away with Nothing, the true understanding of love. With his Attitude Like Wings and Wind's Lifting Power, he soared and learned of God's Guidance. Prepare to mount your wings like an eagle and enjoy your journey in life.

Gideon's Promise Jonathan Rapping, 2020-08-18 A blueprint for criminal justice reform that lays the foundation for how model public defense programs should work to end mass incarceration. Combining wisdom drawn from over a dozen years as a public defender and cutting-edge research in the fields of organizational and cultural psychology, Jonathan Rapping proposes a radical cultural shift to a “fiercely client-based ethos” driven by values-based recruitment training, awakening defenders to their role in upholding an unjust status quo, and a renewed pride in the essential role of moral lawyering in a democratic society. Public defenders represent over 80% of those who interact with the court system, a disproportionate number of whom are poor, non-white citizens who rely on them to navigate the law on their behalf. More often than not, even the most well-meaning of those defenders are over-worked, under-funded, and incentivized to put the interests of judges and politicians above those of their clients in a culture that beats the passion out of talented, driven advocates, and has led to an embarrassingly low standard of justice for those who depend on

the promises of Gideon v. Wainwright. However, rather than arguing for a change in rules that govern the actions of lawyers, judges, and other advocates, Rapping proposes a radical cultural shift to a “fiercely client-based ethos” driven by values-based recruitment and training, awakening defenders to their role in upholding an unjust status quo, and a renewed pride in the essential role of moral lawyering in a democratic society. Through the story of founding Gideon’s Promise and anecdotes of his time as a defender and teacher, Rapping reanimates the possibility of public defenders serving as a radical bulwark against government oppression and a megaphone to amplify the voices of those they serve.
