How To Flirt William Clark,2019-12-18 Do you want to know how to flirt with women and achieving successful relationships? If yes, then keep reading... You may not know it, but the reason why you may not be alluring to the opposite sex may be because you haven't really thought about what type of male you are. Within the pages of this book, you will find out what it takes to attract women in all kinds of social environments. What's more, the information is up to date and takes account of modern approach, rather than the staid and traditional approach - which you may find isn't that effective anymore. Let's face it, we didn't have all of the potential contact venues several years ago, and older folk don't really understand all of this side swiping and voting on how beautiful you think a woman is. It's a new age now, and thus the rules of combat have to be redefined. As you read through the chapters, you will find that you will learn how to change your approach to suit the new lady of the twenty-first century and believe me, it will be well worth it. The book covers a whole heap of information about what women expect from men, what turns them on, but most importantly, what doesn't. Once you are aware of their needs, you are more likely to fulfill their fantasies as well as your own. Think being smart is enough? Think having a good job should be enough? Well, pal, I have news for you. Women are becoming less timid, and since the book 50 Shades of Grey was written are taking a much more proactive part in the dating process. You will find out through the pages of this book exactly what you need to change about your approach, in order to be a winner. Whether you are in the dating game looking for permanence or simply someone to spend your time with, it doesn't matter because the rules of the game are very much the same, and although you may think of yourself as a stud, believe me - if you were that good at the dating game, you wouldn't be reading this introduction. Much of this comes from the approach you use. There's a lot more to the dating game than simply approaching someone of the opposite sex. Believe me; you need to understand the mentality of a woman and how it differs from her male counterpart. You also need to be aware of your approach and the way in which you present yourself. It does make a huge difference to your level of success. Are you an alpha or a beta? You probably don't know, but you will by the time that you have read this book. I promise you that. I also promise that you will be more confident and able to please a woman because the book will make you much more aware of what women are looking for. It goes beyond good looks and great manners. This book gives a comprehensive guide on the following: Understanding women's biggest fear The secret to getting the first kiss Approach smoothly How To Get Any Woman To Tell You Anything You Want to Know About Her The power of listening Why is listening important? The importance of sex in a long-term relationship Online Dating Techniques d104ing Game How to Pre-Select and Court Women Behaviors and Habits For Better Results ... AND MORE!!! I'm people.So when Dylan Parker takes the seat across from me, I'm ready to dismiss him at one glance.The problem? He's hot and funny and sweet and the exact kind of guy I read about in the romance novels I sell like hotcakes in my bookstore.He's also my new roommate.Who likes to walk around in his sweatpants and peer over my shoulder and comment on all my online dating escapades.When he offers to help me flirt my way to dating success, I'm all for it.But what am I supposed to do when the only person I want to flirt with is... Dylan?
