**The Last Lecture** Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Smart Moves for Liberal Arts Grads Sheila Curran, Suzanne Greenwald, 2012-06-20 Most people would love to have 20/20 hindsight on their careers. In Smart Moves for Liberal Arts Grads, college career experts Sheila Curran and Suzanne Greenwald have assembled the next best thing: the collective wisdom of a diverse and inspiring cast of success stories—twenty-three liberal arts graduates who have gone on to all manner of fascinating and satisfying professions. The authors have combined lessons from the stories with their own hands-on experience with thousands of students and graduates to outline a framework for finding a perfect career. What makes Smart Moves different is that it provides essential career advice while being fun to read. Readers will be struck by the frankness of the biographies of real graduates whose careers have taken twists and turns. Todd turned his passion into a living as the founder and CEO of several small businesses and a professional cellist; Thad's path took him from English major to a dream

job in the front office of a major league baseball team; and a subway ride helped Sharon speed her intended career leap from a luxury department store to journalism. What binds them together is that they have all made smart moves on the way to career success—both during their liberal arts education and in the real world. Smart Moves not only champions the value of a liberal arts education, it also embraces the complexity of careers, and the notion that many different factors contribute to success: education, experience, attitude, personal characteristics, and a good dose of luck. Smart Moves is an inspiration to all those who are seeking proven strategies to follow their passion—no matter what their age. The quarter million liberal arts students who receive diplomas each year will truly benefit from the insights of Smart Moves. But this book is equally helpful for high school students (and their guidance counselors) looking at colleges, for graduates still looking for their life's work, and for parents who want to understand career realities for their children. An innovative career guide for our stressful, fast-paced world, Smart Moves for Liberal Arts Grads illuminates valuable career lessons with sharp advice and an unparalleled framework for success.
