Song of the Crimson Flower Julie C. Dao,2019-11-05 From the acclaimed author of *Forest of a Thousand Lanterns* comes a fantastical new tale of darkness and love, in which magical bonds are stronger than blood. Will love break the spell? After cruelly rejecting Bao, the poor physician's apprentice who loves her, Lan, a wealthy nobleman's daughter, regrets her actions. So when she finds Bao's prized flute floating in his boat near her house, she takes it into her care, not knowing that his soul has been trapped inside it by an evil witch, who cursed Bao, telling him that only love will set him free. Though Bao now despises her, Lan vows to make amends and help break the spell. Together, the two travel across the continent, finding themselves in the presence of greatness in the forms of the Great Forest's Empress Jade and Commander Wei. They journey with Wei, getting tangled in the webs of war, blood magic, and romance along the way. Will Lan and Bao begin to break the spell that's been placed upon them? Or will they be doomed to live out their lives with black magic running through their veins? In this fantastical tale of darkness and love, some magical bonds are stronger than blood.

Beauty Everlasting - Dried and Pressed Flowers - Learning the Ancient Art of Drying and Pressing Flowers and Creating Things of Beauty Dueep Jyot Singh,John Davidson,2016-03-20 Table of Contents Introduction How to Skeletonize Leaves Drying Flowers Naturally Traditional Drying with Sand Preparing Your Flowers for Drying Two Ways of Drying Flowers – Face up and Face Down Dry Filler Items Drying with Silica Gel How to Prevent Over – Drying Air Drying Methods and Glycerin Glycerin Assembling Your Flowers Dried Flower Projects Flower Frame Flower and Herb Leaf Ideas Appendix Conclusion How to Make a Rose Potpourri Crystallized Violets Author Bio Publisher Introduction The art of floral preservation has been en vogue for millenniums, all over the world, in some form or the other. You may have heard of dried flowers, dried herbs, dried seeds, bark, roots, and even potpourri. The only reason why I would want to live in the age of Cleopatra is that the ancient Egyptians knew all about a flower preservation method with which flowers kept their original color, shape, and looks for more than 6 months after they had been cut. Cleopatra's rooms were full of these flowers. Unfortunately, we have lost this method of preserving flowers, with the burning of the library at Alexandria. However, even up to 1638, Signor Ferrari living in Siena – Italy – described how flowers could be preserved and kept everlasting and alive. Nevertheless, the flowers that we dry today do not have their original color not do they have the rich feel of a thing alive. What we have is something mummified because it has been dried in sand and silica gel. When I was a child, I asked my science teacher to give me a little bit of silica gel because I wanted to preserve all the flowers in our garden in all their colors, and that nice gentleman told me that the colors changed and turn brown, when the water content was removed from that particular plant. I believe that was the first disappointment in my young life, because I wanted all of those colors and their shapes to last forever. But, well, that secret has gone with the ancient Egyptians. Nevertheless, today we are drying flowers, through air drying processes, and this book is going to tell you all about how you can create things of beauty from dried flowers, and anything natural, which you can dry and turn into a thing of beauty and a joy forever.
