Digital Innovations for Mass Communications Paul Martin Lester, 2013-11-12 In every field of mass communications—advertising, entertainment studies, journalism, public relations, radio-television-film, tourism, and visual reporting—professionals understand the importance of storytelling. Regardless of whether the finished product is a commercial, an in-depth investigative piece, a public service campaign, an independent documentary, a travelogue, or a collection of photographs, effective storytelling requires a combination of creativity, empathy, and expertise. Through the innovative technologies and techniques described in this textbook, students will learn how to turn passive readers and viewers into engaged and regular users. The sixteen chapters each include a brief introduction, assignments, simple-to-follow step-by-step exercises, and sources for additional information in which users will learn to produce apps, informational graphics, quick response codes, quizzes, simulations, smartphone and tablet icons, social media campaigns, three-dimensional pictures, and video. Students will work with the following programs: Blogger, Dreamweaver, Excel, Facebook, GeoCommons, Google Maps, Illustrator, Imgur, iMovie, Infogram, iShowU, JavaScript, JustGive, Kaywa, Kickstarter, LinkedIn, Onvert, Photoshop, Pixel Resort, QuickTime, Reddit, Second Life, SurveyMonkey, TheAppBuilder, Twitter, Vizualize, Wikipedia, Word, WordPress, and YouTube. When digital innovations are added to traditional print and screen presentations, a media user is not only allowed to interact with the information but can also physically engage with the story displayed. Giving students the tools they need to transform their storytelling in this manner is the ultimate goal of this textbook.

Europe's Promise Steven Hill, 2010 Argues that Europe has produced a viable structure for economic security, environmental sustainability, and global stability since the end of World War II and encourages other countries to adopt their methods to improve their own economic and political systems.

Reading the News Robert Karl Manoff, Michael Schudson, 1986 We take our news for granted: that it will inform us about the significant people and cite the authoritative ones, reflect the world the way it is, and tell us why something happens as it does. Now, six working journalists, press critics, and scholars at the leading edge of media criticism have been specially commissioned to make the familiar act of reading the news into a fresh and revealing event. Taking the famous five W's and an H (Who, What, When, Where, Why, and How), the authors turn these questions back on journalism for the first time to show us exactly what to make of the press. Leon V. Sigal Who? Sources Make the News Carlin Romano What? Grisly Truth about Bare Facts Michael Schudson When? Deadlines, Datelines, and History Where? Cartography, Community, and the Cold War James W. Carey Why And How? The Dark Continent of American Journalism Robert Karl Manoff Writing the News (By Telling the Story) For everyone who reads the newspaper, for the journalist, and for the media critic alike, these essays offer fresh, provocative insights into a centerpiece of American culture, the news.

News Howard Tumber, 1999 News: A Reader sets out to provide students with an introduction to some of the key theoretical debates within the field of the sociology of news and journalism. It includes many of the accepted classics together with more recent pieces that address contemporary debates. The Reader brings out the diversity of work on the analysis of news and indicates the points at which arguments have led to new directions and paradigms. All the pieces in the book have been carefully edited. The essence of each work is has been captured in extracts that maintain their integrity to readers unfamiliar with the evolution of this field of research.

Disciplined Growth Strategies Peter S. Cohan, 2017-02-06 Accelerate your company's growth in a disciplined fashion. This book provides leaders of large and small companies a proven comprehensive framework to think systematically about growth options and to yield practical strategies that produce faster growth. Drawing insights from case studies of successful and unsuccessful companies, strategy teacher and venture capitalist Peter Cohan models his systematic approach to brainstorming, evaluating, and implementing growth strategies across five dimensions: Customers, Geography, Products, Capabilities, Culture. He examines each of these five growth dimensions in turn, selecting and organizing his cases to compare the growth strategies deployed successfully and unsuccessfully by large and small companies along the given dimension. In each of his five dimensional chapters, the author derives from his case analyses the key principles and processes for creating and achieving faster growth. Professor Cohan draws on a network of hundreds of founders, CEOs, and investors developed through his decades of consulting, authorship of 11 books, and over five years as a Forbes columnist. He shows through many compelling stories how leaders craft effective growth strategies. Business leaders will learn the following lessons from this book: Achieving rapid but sustainable growth is a business leader's most important responsibility – and leaders must approach this challenge with a mixture of vision, intellectual humility, and a willingness to experiment and learn from failure. The growth challenges facing companies that are currently growing quickly differ from the ones that stagnating or shrinking companies must overcome. Companies can achieve growth along one or more of the dimensions simultaneously – and they often expand geographically to customers in the same segments. Useful insights can emerge from comparing case studies of successful and unsuccessful companies pursuing similar growth strategies. Companies should select a growth strategy based on three factors: the attractiveness of the growth opportunity, the company's capabilities to provide superior value to customers in the selected market, and the expected return on investment in the growth vector. Companies should select a growth strategy that best fits their capabilities and culture and they must enhance both to adapt to new growth opportunities. Who This Book Is For The people in companies who are responsible for growth: chief executive officers, chief marketing officers, chief product officers, heads of business development, product managers, sales people, and human resources managers

Proceedings of the 2023 2nd International Conference on Public Culture and Social Services (PCSS 2023) Youbin Chen, Shakila Yacob, Joanna Rak, Jia Li, 2023-11-28 This is an open access book. 2023 2nd International Conference on Public Culture and Social Services (PCSS 2023) was held on August 11–13, 2023 in Qingdao, China Public culture is a cultural form formed to meet the common needs of society, where everyone can participate in culture, enjoy culture, and create culture. A good public culture can not only enhance the happiness of residents, but also cultivate one's character through moral cultivation. Moreover, it can improve the charm, vitality, self-confidence and cohesion of the city, and promote the cultural exchanges between the city and the outside world. The more developed the economy is, the more powerful the country is, the more it attaches importance to the construction of Urban culture. Public culture is the basic culture of a city and has far-reaching significance in shaping Urban culture. Social services refer to activities in the fields of education, medical and health care, elderly care, childcare, housekeeping, culture, tourism, sports, and other social sectors that rely on diverse entities to provide services to meet the multi-level and diverse needs of the people. They are related to the most direct and practical interests of the general public. There is an essential difference between social services and for-profit commercial services, as they are welfare services. PCSS explores how to make society develop better and people feel happier by discussing the relationship between public culture and social services. The specific content, activities, and services provided by public culture need to be adapted to the level of social development and supply capacity, and therefore are dynamically adjusted, up-to-date, and tailored to local conditions. Public culture involves a wide range of social undertakings, including ideology, culture, news and publishing, radio and television, as well as national fitness, popular

science, and mass rule of law cultural activities. Social services belong to the basic public services provided by the government, which is the most prominent feature of public culture compared to other cultural types and forms, and also the theoretical basis for forming a policy system for public cultural services. Public culture and social services interact with each other, and to a certain extent, public culture determines the type of social services, which in turn affects the development of public culture.

Fluent Forever Gabriel Wyner, 2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

Reading, Writing, and Talk Mariana Souto-Manning, Jessica Martell, 2016 This book introduces a variety of inclusive strategies for teaching language and literacy in kindergarten through 2nd grade. Readers are invited into classrooms where racially, culturally, and linguistically diverse children’s experiences, unique strengths, and expertise are supported and valued. Chapters focus on oral language, reading, and writing development and include diverse possibilities for culturally relevant and inclusive teaching. Featured teaching strategies foster academic success, cultural competence, and critical consciousness—leading students to read their worlds and question educational and societal inequities. Early childhood teachers will find this book invaluable as they consider effective ways to teach diverse children. The hands-on examples and strategies portrayed will help educators expand their thinking and repertoires regarding what is possible—and needed—in the language and literacy education curriculum. Unique in its focus on equitable, fully inclusive, and culturally relevant language and literacy teaching, this important book will help K–2 teachers (re)think and (re)conceptualize their own practices. “Offers us a great opportunity to explore pedagogical strategies that are diverse and inclusive.” —From the Foreword by Gloria Ladson-Billings, University of Wisconsin–Madison “Readers will discover a treasure of teacher and student collaborative experiences to engage diverse learners.” —Yetta and Ken Goodman, University of Arizona “The authors offer rich vignettes and pragmatic guidance for learning about, responding to, and respectfully building community among children. We readers are in their debt.” —Anne Haas Dyson, University of Illinois “A beautifully written book filled with powerful examples. . . . I heartily recommend it for all teachers lucky enough to work on a daily basis with our brilliant early elementary students.” —Ernest Morrell, Teachers College, Columbia University

Beautiful Code Greg Wilson, Andy Oram, 2007-06-26 How do the experts solve difficult problems in software development? In this unique and insightful book, leading computer scientists offer case studies that reveal how they found unusual, carefully designed solutions to high-profile projects. You will be able to look over the shoulder of major coding and design experts to see problems through their eyes. This is not simply another design patterns book, or another software engineering treatise on the right and wrong way to do things. The authors think aloud as they work through their project’s architecture, the tradeoffs made in its construction, and when it was important to break rules. This book contains 33 chapters contributed by Brian Kernighan, Karl Fogel, Jon Bentley, Tim Bray, Elliotte Rusty Harold, Michael Feathers, Alberto Savoia, Charles Petzold, Douglas Crockford, Henry S. Warren, Jr., Ashish Gulhati, Lincoln Stein, Jim Kent, Jack Dongarra and Piotr Luszczek, Adam Kolawa, Greg Kroah-Hartman, Diomidis Spinellis, Andrew Kuchling, Travis E. Oliphant, Ronald Mak, Rogerio Atem de Carvalho and Rafael Monnerat, Bryan Cantrill, Jeff Dean and Sanjay Ghemawat, Simon Peyton Jones, Kent Dybvig, William Otte and Douglas C. Schmidt, Andrew Patzer, Andreas Zeller, Yukihiro Matsumoto, Arun Mehta, TV Raman, Laura Wingerd and Christopher Seiwald, and Brian Hayes. Beautiful Code is an opportunity for master coders to tell their story. All author royalties will be donated to Amnesty International.

Bad News Mark Pack, 2020-03-12 Bad News is a popular guide that helps you make sense of the news wherever it appears – print, broadcast or online. Peppered with examples from around the world, the book turns a serious subject into an enjoyable read. You will learn as you are entertained. Readers will discover all the tricks and techniques required to work out whether to trust a story based on an anonymous source, when big numbers are really small and when small numbers are really big, why you should ignore what appears behind someone on the TV and much more. You’ll even learn why you should always read stories in the Daily Mail backwards and when correlation is causation. But readers will also learn how ill-suited the news is to understanding and interpreting the modern world, even when it comes from honest journalists working for reputable outlets. The news has a role, but readers will learn how to ensure they don’t confuse that with understanding the world.

Information Needs of Communities Steven Waldman, 2011-09 In 2009, a bipartisan Knight Commission found that while the broadband age is enabling an info. and commun. renaissance, local communities in particular are being unevenly served with critical info. about local issues. Soon after the Knight Commission delivered its findings, the FCC initiated a working group to identify crosscurrent and trend, and make recommendations on how the info. needs of communities can be met in a broadband world. This report by the FCC Working Group on the Info. Needs of Communities addresses the rapidly changing media landscape in a broadband age. Contents: Media Landscape; The Policy and Regulatory Landscape; Recommendations. Charts and tables. This is a print on demand report.

Chinese Australians Sophie Couchman, Kate Bagnall, 2015-01-27 In *Chinese Australians: Politics, Engagement and Resistance* key scholars of Chinese-Australian history explore how Chinese Australians in the nineteenth and twentieth centuries influenced the communities in which they lived on a civic or individual level.

Writing and Reporting the News Gerald Lanson, Mitchell Stephens, 1993-08-15 *Writing and Reporting the News*, Second Edition, by Gerald Lanson and Mitchell Stephens provides thorough instructions on writing and reporting and extensive opportunities to apply those instructions. Based on the authors’ careers as journalists and on the experience of dozens of other first-rate reporters, this unique textbook/workbook combination gives students a sense of the challenges, pressures, and rewards of the profession. It supplies hundreds of real-life examples and problems designed to accomplish four goals: 1) teach a comprehensive set of complex writing and reporting skills; 2) expose students to real-life sources of information; 3) train students to think and act like reporters; and 4) help students think about words and how they are used.
