Fly Me to the Moon Edward Belbruno,2013-09-12 When a leaf falls on a windy day, it drifts and tumbles, tossed every which way on the breeze. This is chaos in action. In *Fly Me to the Moon*, Edward Belbruno shows how to harness the same principle for low-fuel space travel--or, as he puts it, surfing the gravitational field. Belbruno devised one of the most exciting concepts now being used in space flight, that of swinging through the cosmos on the subtle fluctuations of the planets' gravitational pulls. His idea was met with skepticism until 1991, when he used it to get a stray Japanese satellite back on course to the Moon. The successful rescue represented the first application of chaos to space travel and ushered in an emerging new field. Part memoir, part scientific adventure story, *Fly Me to the Moon* gives a gripping insider's account of that mission and of Belbruno's personal struggles with the science establishment. Along the way, Belbruno introduces readers to recent breathtaking advances in American space exploration. He discusses ways to capture and redirect asteroids; presents new research on the origin of the Moon; weighs in on discoveries like 2003 UB313 (now named Eris), a dwarf planet detected in the far outer reaches of our solar system--and much more. Grounded in Belbruno's own rigorous theoretical research but written for a general audience, *Fly Me to the Moon* is for anybody who has ever felt moved by the spirit of discovery.

The Real Book - Volume II (Songbook) Hal Leonard Corp.,2006-02-01 (Fake Book). The Real Books are the best-selling jazz books of all time. Since the 1970s, musicians have trusted these volumes to get them through every gig, night after night. The problem is that the books were illegally produced and distributed without any copyrights or royalties paid to the master composers who created these musical canons. Hal Leonard is very proud to present the first legitimate and legal editions of these books ever produced. You won't even notice the difference...the covers look the same, the engravings look the same, the songlist is nearly identical, and the price remains fair even on a musician's salary! But every conscientious musician will appreciate that these books are now produced legally and ethically, benefitting the songwriters that we owe for some of the greatest music ever written! 400 songs, including: Air Mail Special * Birdland * Bye Bye Blackbird * Caravan * Doxy * Fly Me to the Moon (In Other Words) * Georgia * Girl Talk * In Walked Bud * I Remember You * I Thought About You * The Jody Grind * Just the Way You Are * Killer Joe * Little Sunflower * Mercy, Mercy, Mercy * Moanin' * The Nearness of You * Now's the Time * Old Devil Moon * Phase Dance * St. Thomas * Speak Low * Stardust * Tangerine * Tenor Madness * Watch What Happens * Whisper Not * Willow Weep for Me * Yardbird Suite * and more.

Little do they know that Chitose and her maids are on their tail, bent on turning their quickie honeymoon into a quickie divorce! -- VIZ Media

Earth Bound Emma Barry,Genevieve Turner,2016-05-11 Houston, Texas, 1961 The race to the moon is on, and engineer Eugene Parsons has two enemies: danger and distraction. Nothing is more distracting than his attraction to the brilliant, beautiful computer scientist on his team, but he's determined to overcome it since he needs her to help America win. Charlie Eason is used to men underestimating her. It comes with being a woman in engineering, but it's worth it to join the space race—even if she can't figure out what's behind the intense looks one tightly wound engineer keeps sending her. But life isn't as unemotional or predictable as code, and things soon boil over with the intriguingly demanding Parsons. With every launch, their secret affair grows thornier. The lines between work and play tangle even as Parsons and Charlie try to keep them separate. But when a mission goes wrong, they'll have to put aside their pride for the greater good—and discover that matters of the heart have a logic all their own. space race romance mad men engineer hero computer scientist heroine 1960s texas moon secret affair, military, navy, astronaut romance NASA

Fly Me to the Moon, Vol. 6 Kenjiro Hata,Kenjiro Hata,2021-07-13 Is this manga cute enough yet? No? Better add a cat! Toast, possibly the least adorable kitten in manga, doesn't care for Nasa and interrupts his private time with his wife.
