**Romanesque Sculpture of the Pilgrimage Roads** Arthur Kingsley Porter, 1923

*Angel Flight* R. D. Kardon, 2020-09-08 Two determined women. The men they love. One desperate plan. Pilot Tris Miles is finally getting the recognition she deserves. She is a trusted captain and confidante to her boss at Westin Charter Company, and mentor to her young, ambitious co-pilot Bruce. Tris is offered a coveted promotion and the opportunity of a lifetime—to fly a prestigious “angel flight,” transporting a critically ill woman from a remote town in northern Canada to the US for medical treatment. But Tris needs more than professional success. Still alone almost three years after her lover Bron’s death, Tris meets Mike, a local pilot with a secret past he refuses to discuss. Their budding relationship stumbles when Mike gets hired by Westin Charter to compete for the promotion Tris was promised. As Tris & Mike’s professional battle intensifies, their personal relationship deepens. Life is getting a whole lot more complicated for Tris, and it’s about to get worse as the angel flight embarks. No one could imagine what awaits them in Canada, and how each will have to fight for their very lives on this mission of mercy.

**Angel Flight Mid-Atlantic** Suzanne Rhodes, 2008-02-18 In 1972, two pilots—one a federal career engineer, the other the pastor of a prominent church in Washington, D.C.—discovered a common passion for flying airplanes and serving people. One day over lunch, the men conceived a flight plan, one that would undergo many changes before becoming Angel Flight Mid-Atlantic, as it is known today. Ed Boyer of the U.S. Department of Health and Human Services and Dr. Louis Evans, pastor of the National Presbyterian Church, discussed how to pool their interests and qualifications. From its beginnings as a charitable shuttle service for religious leaders and dignitaries, to full-scale charitable air ambulance operations, to Angel Flights for ambulatory patients, the initial vision has grown into a network of over 1,500 volunteer pilots in the Mid-Atlantic region who use their private planes to fly people in need to specialized treatment. Angel Flight coordinates missions of mercy from its offices in Virginia Beach, helping patients to find “the shortest distance between home and hope.”

**Angel on the Wing** Joan M. Zeller, 2017-04-17 In *Angel on the Wing*, Joan Zeller shares how she survived a plane crash that took sixty-five lives in February 1959. She was a stewardess on American Airlines Flight 320, returning to New York from Chicago. Close to midnight on that foggy, cold evening, the plane crashed into the choppy waters of the East River on approach to LaGuardia Airport. Joan Zeller’s memoir vividly brings to life the events of the crash, the peril passengers and crew experienced following impact, the time spent in the frigid waters in total darkness before their dramatic rescue, and her recovery from traumatic injuries sustained in the accident. The author was inspired to pen her story when she came across a website that chronicled the events of that evening, listing the names of those who perished, as well as the eight survivors. Following the story was an opportunity to respond in an open letter. After reading pleas from family members of the deceased she recognized an invaluable opportunity as eyewitness and survivor, to help bring solace and closure to the families of those who lost loved ones that fateful night.

*Burgundy* Arthur Kingsley Porter,1966

**Flying With My Angel** Phil Latz,2007 This is a captivating story of life in another century. It's a remarkable tale of desert and jungle survival, finding religion and losing faith, about discovering lust and finding love, about dying in aircraft accidents that didn't happen. It's an inspirational account of a man who set his goals in the sky and achieved them. His hard-working angel keeps saving him during his early travels and later worldwide, while dodging hidden rocks in clouds. Then spears and gunfire in the third world. A must read, illustrated true story.

**Angel's Flight** Karen Angel,2019-03-25 Jimmie Angel was a noted American aviator who discovered Angel Falls in Venezuela-the tallest waterfall in the world. Yet after twenty years of searching for more about the man, the author finds that there are many aspects of his legendary life that are still unknown. Jimmie Angel was a man who was controversial during his life and remains to be so to this day. Angel's Flight is a marker on the path to resolving the mysteries of Jimmie Angel's life, and author Karen Angel, Jimmie's niece, gathers together the verifiable history of the life of Jimmie Angel and his pursuit of the lost River of Gold and his discovery in 1933 of the tallest waterfall on planet Earth. But did he learn to fly when he was only fourteen years old? Did he work as an aviation scout for Lawrence of Arabia during the Arab Revolt (1916-18), create an air force for a Chinese warlord in the Gobi Desert, or work as a test pilot for Italian airplane designer Giovanni Battista Caproni?

*An Angel with Silver Wings* James Keir Baughman, 2004-02 From whence came this mysterious, compelling tale? The writer, awed, fingers moving on a keyboard, following uncertainly along, wondering, wondering, what next is to come. Eyes riveted to dreamy glow of a computer screen, oft times surprised at word-visions appearing, as though writ large by disembodied hand, high upon a wall. Clearly it is a song of aviation, of a glorious war bird, the sheer joy of flying. Even more, of an unseemly Angel, cock-sure, brash, bold, content in his Heavenly mission. Yet remembering, pining a bit, for his mortal time under our own glowing star. Surely, it is a fleeting touch between the magnificence of Heaven, and Earth's beauty, the unique loveliness of Northwest Florida's splendid Emerald Coast. In the thrall of these pages you'll feel high flight, slashing speed - some at the speed of light - shock and fright, quiescent contemplation, explosive surprise, mishaps, learning and growing, surpassing fear, humor, the wonder of Angels, violence, compassion, companions of a curious meld. Perhaps though, by the last of them, it may be mere, abiding faith you sense. Faith intensely held by legions of us yet here, earnestly sought by so many more.

**Probing the Sky** Curtis Peebles, Richard Hallion, 2014-12-10 With the development of supersonic aircraft, the X-plane era ushered in a new and challenging phase of flight. Researchers found that much of the knowledge accumulated from the previous, subsonic flight era did not apply to the emerging supersonic aircraft. These turbojet-powered planes also outpaced the usefulness of the wind tunnel, previously an indispensable tool of aeronautic research. This book explores the development of the X-series research aircraft, the planes that helped bridge the gap between subsonic flight and hypersonic flight.

*Close to Shore* Michael Capuzzo, 2002-05-21 Combining rich historical detail and a harrowing, pulse-pounding narrative, *Close to Shore* brilliantly re-creates the summer of 1916, when a rogue Great White shark attacked swimmers along the New Jersey shore, triggering mass hysteria and launching the most extensive shark hunt in history. In July 1916 a lone Great White left its usual deep-ocean habitat and headed in the direction of the New Jersey shoreline. There, near the towns of Beach Haven and Spring Lake--and, incredibly, a farming community

eleven miles inland--the most ferocious and unpredictable of predators began a deadly rampage: the first shark attacks on swimmers in U.S. history. Capuzzo interweaves a vivid portrait of the era and meticulously drawn characters with chilling accounts of the shark's five attacks and the frenzied hunt that ensued. From the unnerving inevitability of the first attack on the esteemed son of a prosperous Philadelphia physician to the spine-tingling moment when a farm boy swimming in Matawan Creek feels the sandpaper-like skin of the passing shark, *Close to Shore* is an undeniably gripping saga. Heightening the drama are stories of the resulting panic in the citizenry, press and politicians, and of colorful personalities such as Herman Oelrichs, a flamboyant millionaire who made a bet that a shark was no match for a man (and set out to prove it); Museum of Natural History ichthyologist John Treadwell Nichols, faced with the challenge of stopping a mythic sea creature about which little was known; and, most memorable, the rogue Great White itself moving through a world that couldn't conceive of either its destructive power or its moral right to destroy. Scrupulously researched and superbly written, *Close to Shore* brings to life a breathtaking, pivotal moment in American history. Masterfully written and suffused with fascinating period detail and insights into the science and behavior of sharks, *Close to Shore* recounts a breathtaking, pivotal moment in American history with startling immediacy.

*Dark Ecology* Timothy Morton, 2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in *Blade Runner* (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.
