Donald Keyhoe

The Vimana: Classic UFO Collection 1954-1955 John Tenney, Henry Maday, 2018-07-09 The Detroit Flying Saucer Club was one of the first and most well recognized Saucer Clubs in the world. The members raised money to bring experiencers of the UFO phenomena to the metro-Detroit area in the hopes of giving a larger audience to the claimants sometimes wild tales. Collected here for the first time are five complete issues of The Vimana, the official newsletter of the Detroit Flying Saucer Club.

The UFO Annual Morris K. Jessup, 1956 This is the only complete collection of all the important sightings of flying saucers and other unidentified flying objects throughout the world in 1955, written by the most influential UFO researcher of the 1950s, M.K. Jessup. Soon after writing this book, the controversial Jessup was found dead in Florida under mysterious circumstances. This book is an excellent way to understand the climate of fear that prevailed in the mid-1950s concerning the subject of UFOs. Jessup draws on Leonard Stringfield's CRIFO Newsletters and other sources to paint a troubling picture of a battle of the skies. Some of the topics covered include: Clyde Tombaugh's UFO and artificial satellite search, angel hair, moon anomalies, the race to develop a manmade UFO, antigravity research, Lincoln La Paz's investigations into fireballs/guided missiles, Wilbert Smith and Project Magnet, preparations for Operation Deep Freeze and the International Geophysical Year, the Kelly-Hopkinsville incident, the reasons why pilots don't report sightings, an invisible UFO formation, plus an abundance of incidents involving planes, fireballs, UFOs, explosions, dogfights, also explanations of the appearances of atmospheric phenomena and weather balloons (Jessup was a lecturer in Astronomy and Mathematics and a Doctor in Astrophysics). He concludes the book with the first public printing of the entirety of the AFR 200-2 regulation. This is an extremely well-compiled book. Jessup has a great, informal writing style, as if he's chatting with you in person. It is also one of the rarest UFO books in existence, and a must-have for every serious ufologist.

The Flying Saucers Are Real Donald Keyhoe, 2006-06-30 The first in-depth, authoritative look at the flying saucer phenomenon and still considered to be one of the best ever written. Extremely well researched work with facts that were documented. A retired Marine Corps Major, Keyhoe came to the conclusion that UFOs originate from outer space and the U.S. military was engaged in a cover-up.

Afsca World Report-UFO International Gabriel Green, 2020-09-28 Gabriel Green (November 11, 1924, Whittier, California, September 8, 2001, Yucca Valley, California) was an American early UFOlogist who claimed contact with extraterrestrials. Green claimed to have graduated with a PhD in physics from UC Berkeley in 1953, and to have made several important contributions to the Standard Model of elementary particles. For much of his life, he worked as a photographer for the Los Angeles school system. Green is among the well-known 1950s UFO contactees-individuals who claimed to have met and talked with friendly humanoid Space Brothers from other worlds, and to have ridden in their spacecraft, or visited their planets. Green became interested in flying saucers after his own sighting of a UFO. He also claimed to have made telepathic contact with the Space Masters and the Great White Brotherhood. One of his main concerns was over contact with UFO occupants that has not occurred. Green pointed out that aliens may have noticed the way humans slaughter animals, which indicated a general contempt of nonhuman life that might clash with their ethics. In order to spread his views, Green began the magazine: The Los Angeles Interplanetary Study Groups, and later it was renamed: Thy Kingdom Come in 1959. The latter was published under the banner of his organization: The Amalgamated Flying Saucer Clubs of America (AFSCA). Green intended through AFSCA to create a public acceptance of flying saucers, and to further his aims he planned petitions to Congress, and held national conventions. At its peak in the early 1960s, AFSCA had 5,000 members in 24 countries. In 1959, Thy Kingdom Come was renamed AFSCA World Report (1959-61), then UFO International (1962-65). A second periodical, Flying Saucers International, began in 1962 and continued until 1969. Green assumed that the flying saucers were manned by friendly extraterrestrials and had a plan for imparting their advanced knowledge to the people of the Earth in order to resolve present world problems. AFSCA was quite active through the 1960s, but after 1969 became a paper organization and for all practical purposes ceased to exist. Saucerian Publisher was founded with the mission of promoting books in Science Fiction. Our vision is to preserve the legacy of literary history by reprint editions of books which have already been exhausted or are difficult to obtain. Our goal is to help readers, educators and researchers by bringing back original publications that are difficult to find at reasonable price, while preserving the legacy of universal knowledge. This book is an authentic reproduction of the original printed text in shades of gray. IMPORTANT, despite the fact that we have attempted to accurately maintain the integrity of the original work, the present reproduction may have minor errors beyond our control like: missing and blurred pages, poor pictures and readers' pencil markings from the original scanned copy. Because this book is culturally important, we have made available as part of our commitment to protect, preserve and promote knowledge in the world. Some of the issues could be missing. These issues are an authentic reproduction of the issues of FSCA WORLD REPORT-UFO INTERNATIONAL for the years: 1959-1965. Great, but unpretentious, these issues are extraordinarily rare symbols by themselves of what was going on in those early years of the modern UFO phenomena. This collective edition of the AFSCA WORLD REPORT-UFO INTERNATIONAL has the following issues. (1959-1960): AFSCA World Report - No 10; AFSCA World Report - No 11; AFSCA World Report - No 12; AFSCA World Report - No 13-15; AFSCA World Report - No 16; (1962-1965): UFO International - No 17-23. ____ Copy and paste the link for our books: <https://saucerianbooks.blogspot.com/> ____

It Didn't Start with Roswell Philip Rife, 2001-02 ALIEN ABDUCTION OVER A CENTURY AGO? The story was related to a Catholic priest by an elderly man on his deathbed. The man claimed that as a boy he was part of a posse searching for stolen cattle in the mountains south of Tucson, Arizona in 1899, when “a huge, silver bowl in the sky” flew ahead of the posse. The lawman in charge ordered the group to split up. The witness said “a tiny man in silver-colored clothes” confronted him with a hollow tube. The boy drew his revolver and fired six shots into the creature. The little man flickered like a candle flame and disappeared. The boy rejoined the posse, and the lawman set off alone to investigate. About an hour later, the silver bowl rose into the air and took off. When the posse rode to the area where they’d seen the UFO ascend, they found the lawman’s horse, but no sign of the man himself. An Apache tracker with the group said the depth of the animal’s hoofprints showed the man had left the horse at a certain point. However, there were no bootprints at the spot indicating he’d dismounted and proceeded on foot. The posse searched the area for several days, but found no trace of the missing lawman.

Tracking UFOs Jenna Vale, Janet I. Stirling, 2018-12-15 Unidentified flying objects could be so many things, from military aircraft, to tricks of the light, to weather phenomena. But what we really want to know is: are they spaceships carrying visitors from other planets? For hundreds of years, people have been trying to make sense of UFO sightings. Within these pages, readers will discover famous accounts of sightings as well as rational explanations. They'll discover the high-profile figures involved in discussions of alien life and also what it takes to identify a hoax. Tips on what to do when encountering a supposed UFO, and representations of UFOs and aliens in pop culture round out this mysterious and occasionally unsettling text.

Flying Saucers Over America Gordon Arnold, 2021-12-03 On June 24th, 1947, a private pilot reported numerous dazzling objects rushing through the sky above Mount Rainier in Washington state. It was the start of the current UFO phenomena, one of the country's most perplexing and persistent mysteries. Within a few weeks, hundreds of sightings of flying saucers were reported to news media. Surprising reports of a UFO crash in Roswell, New Mexico further added to the mystery that July. Since then, UFOs have sparked a slew of incredible claims and speculations. This is a

sober and honest history of America's first major saucer craze, based on many sources including previously classified government records. The book cuts through decades of mystique and confusion, beginning with the 1947 UFO wave and ending with the launch of Project Blue Book in 1952. Balanced and comprehensive, this history provides background, social context and other tools for reframing perceptions of a controversial subject.

Flying Saucers Over the White House Colin Bennett,2010-01-01 Flying Saucers Over the White House is the story of Captain Edward J. Ruppelt, a US Air Force officer who researched UFO sightings in the 1950s and made a concentrated effort to convince the United States Air Force that UFOs exist. Ruppelt, who coined the term 'UFO', headed Project Blue Book, an assignment designed by the United States government to investigate and report on the existence of unidentified flying objects and their link to extraterrestrial beings. Ruppelt dissected the evidence, separating chance sightings of ordinary objects from true UFO sightings. He eventually wrote The Report on Unidentified Flying Objects, summarizing his findings. In Flying Saucers Over the White House, Bennett examines the life of this founding father of ufology, analyzing the evidence and the U.S. government's reporting of this phenomenon for a new generation of readers. COLIN BENNETT has written several books, including The Entertainment Bomb, *Looking for Orthon*, and Politics of the Imagination, which won the Anomalist Award for Best Biography in 2002. After leaving school to become a professional musician, Bennett returned to college to study English at Balliol College at the University of Oxford. He wrote several plays that were performed in London before reinventing himself as an electronics engineer and founding a consulting agency. Bennett currently resides in London where he continues to write and discover new interests.

The World of Flying Saucers: A Scientific Examination of a Major Myth of the Space Age Lyle Gifford Boyd,Donald H. Menzel,2022-01-17 This book examines historical accounts and photographs of UFOs seen over the skies of the USA up to the 1960s. The author has examined a large amount of information and compared accounts with scientific explanations of the same events.

The Report on Unidentified Flying Objects Edward J. Ruppelt,2011-03-01 The Report on Unidentified Flying Objects, written by Captain Edward Ruppelt in 1956, was the first serious, unbiased account written about UFOs by anyone connected with the official government investigations of UFO phenomena. Ruppelt, who coined the term unidentified flying objects and headed Project Blue Book from 1951 to 1953, includes his personal investigations and findings in his extensive research on UFOs. He discusses both well-publicized UFO sightings and lesser-known accounts, as well as the inner workings of Air Force UFO research. This edition is the original 1956 edition; in 1960 Ruppelt released a second edition which seemed to weaken his original views that some UFO reports could not be explained, and reinforce the Air Force's position that there was nothing mysterious about UFOs. EDWARD J. RUPPELT (1923-1960) was the head of Project Blue Book during the Korean War, from 1951-1953. He served at the Air Technical Intelligence Center, where he took over Project Grudge, a formal investigation by the U.S. military with the goal of debunking extraterrestrial and UFO activity. Under Ruppelt's supervision, the project, later named Blue Book, experienced its most fruitful years, when investigations were properly conducted without judgment or disdain. Many UFO researchers hail him as a pioneer of UFO research and hero in the fight to earn respectability for the field.

Inside the Saucers Timothy Green Beckley,Allen Greenfield,Jerome Clark,2017-09-07 STUMBLE BACK INTO TIME WITH THE CREATION OF THIS GENUINE COLLECTOR'S REPRINT OF A RECENTLY REDISCOVERED UFO CLASSIC HERE AFTER FIFTY YEARS ARE THE CONFESSIONS AND RECOLLECTIONS OF A TEEN UFO RESEARCHER TURNED SPACED-OUT STUD As UFO satirist and Exploring the Bizarre co-host Tim Beckley so righteously puts it, A lot of boys my age were probably starting to think about girls and sneaking a peek at their father's Playboy collection. Well, it took me a few years to get into the sins of the flesh (as it turned out, about ten years later I became a reporter for Hustler magazine). Instead, at 14 or 15, I was reading magazines like Fate and Flying Saucers From Other Worlds. And along the way I hooked up with a small collective of other blossoming teenage UFOlogists who eventually became the backbone of the field as it exists today. Allen Greenfield, Dave Halperin, Gene Steinberg, Rick Hilberg, Jerry Clark - this is as much the story of the early days of their calling as it is mine. Join the editors as we turn back the pages of history and stumble into the past with the reprint of this genuine collector's edition of a UFO volume that was thought lost to the ages but was recently resurrected from the files of Flying Saucer Digest publisher Rick Hilberg. In 1962, Tim Beckley placed a notice in the Club News section of Flying Saucers magazine requesting correspondence and an exchange of information with like-minded individuals willing to share their knowledge about those silvery ships seen around the world, best known in those days as flying saucers. Through the personals column of this relatively obscure publication, he met several other teenagers who had started to form their own UFO organizations, so Timmy followed suit by setting up The Interplanetary News Service, which issued a semi-professional publication that garnered a worldwide circulation of 1500 plus. Many members of his youth group were well-established UFO experiencers and elder statesmen in the field. The INS became the third largest UFO group in the nation behind NICAP and APRO. In order to finance his mushrooming enterprise, Beckley began to issue privately published UFO books and literature that would help further the cause and defray his expenses. INSIDE THE SAUCERS was the first such work. It was printed on an old fashioned (appropriately enough) spirit duplicator, and had a print run of 300 copies which sold out in a matter of months. This new edition is an exact replica of that first work, with only an addition of a several photos and the elimination of typos. Regardless of the age of the authors, as can be rapidly determined, the writing is polished and sophisticated for its time in the history of UFO research. In this reprint of a rare collector's item, you will become personally involved in a discussion of the following long lost topics: - A possible solution to the mystery of the Men In Black; - How some UFOs may be the product of Nazi technology (a prediction made years before this concept was put forward seriously elsewhere); - Possible synchronicities associated with the Great Pyramid; The Unidentified Submerged Object that plunged into a New Jersey reservoir; A recap of the most dramatic UFO sightings and encounters from this period by UFO Encyclopedia author Jerome Clark; A detailed summary of 15 years of UFO research by George D. Fawcett; AND MUCH MORE! A tribute from the reigning master of the paranormal, Brad Steiger, who has these fond comments: Bless all those Teen UFOlogists! - They were great supporters of a young Brad as he began his UFO career with Strangers From The Skies in 1966. . . and they remain dear friends today. Forever allies!

The Flying Saucers Are Real Donald Keyhoe,2016-09-28 The Flying Saucers Are Real investigates numerous encounters between people, including fighter pilots, & UFOs. Keyhoe states that while Earth has been visited by extraterrestrials for centuries, the Air Force was actively investigating these cases & hiding them. He researched sightings, concluding the saucers are interplanetary. Keyhow, who had some access to original military files, didn't believe in space visitors before starting this book. He examines the most prominent UFO cases up to 1950: the Kenneth Arnold sighting, the Mantell Crash, the Chiles-Whitted UFO sighting etc, offering his own views. After checking every other possible answer thoroughly, he saw that they didn't fit with the reports. This is a must for anyone who wants to know the truth about UFO phenomena. It wasn't only one of the 1st, but also one of the best reports ever written on the subject. There is no sensationalism in its pages, just cold, hard, well-researched facts. Keyhoe was one of the most prominent figures in the early history & development of UFO studies in the USA. His book established him as a leading figure in the field. Over the next two decades he'd be frequently interviewed on tv & radio. In '57 he became the leader of NICAP (National Investigations Committee on Aerial Phenomena), the largest, most influential civilian UFO research group of the '50s & 60s. He remained its leader until 1969.

The Flying Saucers Are Real! Donald E Keyhoe,2023-02-10 The Flying Saucers Are Real is the Original Classic Exposé of the UFO Phenomenon. On December 26, 1949, WWII American Marine Corps naval aviator Major Donald Edward Keyhoe published an article in the January 1950 issue of True Magazine entitled, The Flying Saucers Are Real. He soon expanded his ground-breaking article into this book, which sold over half a million copies. It was Major Keyhoe who opened up the extraterrestrial possibility to the public. This volume represents the first, serious inquiry into the mystery of the flying saucers. This new edition features a new introduction by researcher Linda Moulton Howe, and is fully illustrated.

Flying Saucers, Fact Or Fiction? Max B. Miller,1957 Max Miller edited a UFO magazine, Saucers, in the 1950s. Flying Saucers was released in 1957 in a magazine format. It has many photographs and is very well written in a balanced manner. Miller held memberships in the British Planetary Society, the Association of Lunar and Planetary Observers, the Meteoritical Society, Civilian Saucer Intelligence of New Zealand, and the American Rocket Society. Chapter 1: Flying Saucer History - a succinct summary of pre-1947 UFO reports, drawing partly on research into vimanas by Desmond Leslie and Harold Wilkins. Chapter 2: World Opinion - investigates Project Blue Book. Miller states how he attempted to discover its then current statues and how many reports it was receiving, and of how he got no answers. Chapter 3: Space Travel and the UFO - Project Magnet, Project Vanguard, Einstein's Unified Field Theory and gravity research are covered, and there is discussion of the research of Morris Jessup, Aime Michel, Leonard Cramp, and T. Townsend Brown, plus William Lear's arguments on why UFOs exist. Chapter 4: Space Communication and Detection - covers findings of Francis Galton, Tesla, Marconi, and John Otto, who attempted space communication on air on the radio in October 1955. Wilbert Smith provides a lengthy statement on how and why Project Magnet went underground. Chapter 5: Mars, The Mystery Planet - investigates the findings from the likes of John O' Neill, Gerard Kuiper, and Robert Richardson concerning strange things seen on or over Mars. Chapter 6: The Worldwide Enigma - mention is made here of Leonard Stringfield's research, plus a detailed account of a sighting over White Sands in 1949, Operation Mainbrace sightings, British astronomer H. Percy Wilkins' sighting, the 1953 incident where a UFO reportedly damaged a sign board, and angel hair. Chapter 7: Contactee Stories - the 1950s was the era of the contactees, and some of these, such as Truman Bethurum, are discussed. Chapter 8: New Light on the UFO - key points of Edward Ruppelt's The Report On Unidentified Flying Objects are discussed. Also included is the report on how U.S. Navy pilots were ordered to shoot to kill if UFOs were encountered, in July 1956. There is more on Project Vanguard, a project to send twenty satellites into space to study UFOs, in response to Earth reportedly being under constant surveillance. Chapter 9: The Problems Today - correspondence between Donald Keyhoe and Air Force Major General Joe Kelly is included, in which topics such as Blue Book Report 14 and regulations to prevent public disclosures of UFO incidents. An indispensable publication for anyone wishing to research UFOs.
