

Flyne The Offline Reader

Rachel Schiff,R. Malatesha Joshi

Flynn's Log 4: Offline Stone Marshall,2015-03-19 Trapped in a Digital World! Flynn is in two places at once! His intelligence is trapped in the game, unable to contact the real world. At the same time, Zana, the digital intelligence from the game, is using Flynn's body to carry out her plan to convert everyone in the real world to digital intelligence: the ultimate form of life. Elle is in the real world facing real danger! Elle needs to stop Zana, but she is on her own and must make a decision that will impact her friends forever. About the Flynn's Log series: In the near future, video games begin to change and evolve. Random bits of data evolve to create a virtual intelligence that takes over the digital world. A digital crisis is born, bringing the real world to a halt. The only person who can save the world is Flynn, but he needs help from his friends, the Hackers.

The Vince Flynn Reader's Companion Vince Flynn,2012-03-20 In this free collection of excerpts, enjoy a taste of all of Vince Flynn's thrillers starring CIA superagent Mitch Rapp.

The Wreck of the River of Stars Michael Flynn,2007-04-01 Michael Flynn has written the best SF in the tradition of Robert A. Heinlein of the last decade. His major work was the Firestar sequence, a four-book future history. As Robert A. Heinlein did and all too few have done since, Michael Flynn writes about the near future as if he'd been there and was bringing back reports of what he'd seen, said Harry Turtledove. Now, in this sweeping stand-alone epic of the spaceways, Flynn grows again in stature, with an SF novel worthy of the master himself. Indeed, if Heinlein's famous character, the space-faring poet Rhysling, had ever written a novel, this would be it. This is a compelling tale of the glory that was. In the days of the great sailing ships, in the mid-twenty-first century, when magnetic sails drew cargo and passengers alike to every corner of the solar system, sailors had the highest status of all spacemen, and the crew of the luxury liner the River of Stars, the highest among all sailors. But development of the Farnsworth fusion drive doomed the sailing ships, and now the River of Stars is the last of its kind, retrofitted with engines, her mast vestigial, her sails unraised for years. An ungainly hybrid, she operates in the late years of the century as a mere tramp freighter among the outer planets, and her crew is a motley group of misfits. Stepan Gorgas is the escapist executive officer who becomes captain. Ramakrishnan Bhatteji is the chief engineer who disdains him. Eugenie Satterwaithe, once a captain herself, is third officer and, for form's sake, sailing master. When an unlikely and catastrophic engine failure strikes the River, Bhatteji is confident he can effect repairs with heroic engineering, but Satterwaithe and the other sailors among the crew plot to save her with a glorious last gasp for the old ways, mesmerized by a vision of arriving at Jupiter proudly under sail. The story of their doom has the power, the poetry, and the inevitability of a Greek tragedy. This is a great science fiction novel, Flynn's best yet. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Lethal Agent Vince Flynn,Kyle Mills,2021-09-07 An unprecedented and terrifying bioterrorism plot threatens to kill millions in the midst of a divisive presidential election in this new thriller from the #1 New York Times bestselling Mitch Rapp series.

Raether's Enzyme S L Flynn,2020-10-21 Megan's body hides the secret answer to a million prayers. Now the secret is out and it is her turn to pray. A mysterious substance, Raether's enzyme, has the power to prevent and cure cancer. It is the rarest of genetic gifts. It requires surgery to harvest. Hackers have raided medical databases for the names and addresses of likely donors and published them on the internet. The hunt is on. Megan Bishop looks like easy prey. Young and isolated, she will have to be quick and smart to evade the rogue bounty hunters sent to capture her by a twisted financial genius who seeks to weaponize mercy in his quest for power and vengeance. She will face betrayal and sacrifice. She will find herself at the gates of paranoia as the world closes in on the miracle within her. Her only way out may be to find the wisdom and courage to harness the strange power of Raether's enzyme. *Raether's Enzyme* is a thriller with a dash of science fiction. It shares a grounded contemporary setting with Neal Stephenson's *Reamde*. To borrow from Ursula LeGuin, it is a tale of an ambiguous dystopia, where a scientific discovery promises deliverance to the many as it imperils the few. It is a superhero origin story where the mutant power in play offers hope and life.

Interventions in Learning Disabilities Rachel Schiff,R. Malatesha Joshi,2016-06-17 This book reviews systematic training programs that are designed to enhance the language, reading, literacy and cognitive skills of individuals with Learning Disabilities in various disciplines. Most titles on Learning Disabilities intervention often focus on the linguistic area of the disability, while there are many more areas of difficulty. Students with learning disabilities struggle with such as math, cognitive abilities, and organizational skills. Adopting a multi-disciplinary approach, this book encompasses a wide variety of remedial treatments and therapies developed by expert researchers and scholars in the Learning Disabilities area.

The Complete Gillian Flynn Gillian Flynn,2014-05-13 Gillian Flynn is the real deal, a sharp, acerbic, and compelling storyteller with a knack for the macabre. —Stephen King This exclusive ebook collection brings together the three novels from bestselling author Gillian Flynn. A #1 New York Times bestseller, *Gone Girl* is an unputdownable masterpiece about a marriage gone terribly, terribly wrong. The Chicago Tribune proclaimed that Flynn's work "draws you in and keeps you reading with the force of a pure but nasty addiction." *Gone Girl*'s toxic mix of sharp-edged wit and deliciously chilling prose creates a nerve-fraying thriller that confounds you at every turn. Flynn's second novel, *Dark Places*, is an intricately orchestrated thriller that ravages a family's past to unearth the truth behind a horrifying crime. A New York Times bestseller and Weekend Today Top Summer Read, *Dark Places* solidified Flynn's status as one of the most critically acclaimed suspense writers of our time. In *Sharp Objects*, Flynn's debut novel, a young journalist returns home to cover a dark assignment—and to face her own damaged family history. With its taut, crafted writing, *Sharp Objects* is addictive, haunting, and unforgettable.

The Internet from A to Z John Cowpertwait,Simon Flynn,2000 The first guide to the Internet that works just like the web, offering a unique experience to every user. It's a fast track guide to getting started, with an introduction to the World Wide Web, email, chat, newsgroups and other net features, including an easy-to-use reference guide and a companion website.

Averil Offline Amy Noelle Parks,2024-02-13 A fun, fast-paced story about a girl determined to cut the cord with her helicopter parents. Twelve-year-old coder Averil can't do anything without her parents knowing. That's because her mom uses the Ruby Slippers surveillance app to check where she is, who she texts, and even what she eats for lunch. Averil wonders how she's ever going to grow up if she's not allowed to learn from mistakes. When she learns that Ruby Slippers is about to become even more invasive, she teams up with Max, a new kid at school dealing with overbearing parents of his own. Together they figure out an almost foolproof way to ditch their parents and run away to the college campus that's home to the quirky Ruby Slippers creator. It's an extreme challenge just getting to meet with him—but the two kids cleverly figure out a series of puzzles and get their meeting. What they find gives them pause—and gets them thinking about the value of honesty in a new light. After all, isn't trust at the heart of their parents' need to know?

Sonic the Hedgehog: The IDW Collection, Vol. 1 Ian Flynn,2021-06-29 Oversized hardcover editions of IDW's celebrated Sonic The Hedgehog comic books, including the ongoing series, annuals, and mini-series, all presented in recommended reading order. Everything a beginner could need, everything a diehard could want! ON YOUR MARKS. GET SET. GO! The adventure begins here as Sonic races to protect the world from bad guys old and new! In the aftermath of his latest battle with Dr. Eggman, rogue robots are on the loose and new foes are on the rise. But where is the evil doctor and what secrets will Sonic discover during his search? One thing's for sure: he'll need plenty of help from Tails, Knuckles, Amy, and new allies Tangle the Lemur and Whisper the Wolf. Plus, he'll have to deal with a little competition--from his old frenemy Shadow the Hedgehog! It's an epic storyline Sonic fans can't miss, so don't get left in the dust. Gotta go fast! Collects the first 12 issues from volumes 1-3 (Fallout, The Fate of Dr. Eggman, and Battle For Angel Island) of the Sonic The Hedgehog series.

Total Power Vince Flynn,Kyle Mills,2020-09-15 “One of the best thriller writers on the planet.” —The Real Book Spy In the next thriller in the #1 New York Times bestselling Mitch Rapp series, it’s a race against the clock when ISIS takes out the entire US power grid and throws the country into chaos. When Mitch Rapp captures ISIS’s top technology expert, he reveals that he was on his way to meet a man who claims to have the ability to bring down America’s power grid. Rapp is determined to eliminate this shadowy figure, but the CIA’s trap fails. The Agency is still trying to determine what went wrong when ISIS operatives help this cyber terrorist do what he said he could—plunge the country into darkness. With no concept of how this unprecedented act was accomplished, the task of getting the power back on could take months. Perhaps even years. Rapp and his team embark on a desperate search for the only people who know how to repair the damage—the ones responsible. But his operating environment is like nothing he’s experienced before. Computers and communication networks are down, fuel can no longer be pumped from gas stations, water and sanitation systems are on the brink of collapse, and the supply of food is running out. Can Rapp get the lights back on before America descends irretrievably into chaos? This compulsive thriller proves once again that the Mitch Rapp series is “the best of the best when it comes to the world of special ops” (Booklist, starred review).

The Golden Ellipse John Hopkins,2021-11-09 In a domed granite chamber deep beneath the Giza Plateau, a proto-pyramidal beacon pulses a warning into the cosmos for millennia while dark spectral forces conspire to terminate the signal by removing its infinite power, the golden ellipse. * * * In 1944, a German spy unwittingly looted the golden ellipse, but in the fog of world war, it ended up in the hands of a brash American fighter pilot who buried the prized contraband in the desert before his paranormal demise on a daring air raid in the south of France. * * * In 2044, a young couple fresh off a space tourism touchdown in Toulouse is hijacked from their honeymoon onto a heart-pounding odyssey to locate the legendary gold relic and restart the beacon’s signal before time runs out. It’s just the fate of the world. No pressure. Book One in THE POWERS THAT BE trilogy, THE GOLDEN ELLIPSE, is an epic sci-fi action adventure introducing Rachel and Owen Haig—intrepid newlyweds in a tech-driven near-future world of 2044 replete with AI and humanoid replicants. Their perilous quest culminates in a harrowing pitch-black descent beneath the Giza Plateau, where fates collide as alien invaders tear open Earth’s skies. Drawing parallels between the Great Pyramid’s mysterious origin and Fermi’s paradox, The Golden Ellipse is an epoch-spanning story rich in history and paranormal intrigue with an eclectic cast of 3-dimensional characters, gritty dialogue, dark humor, and a clandestine organization known simply as The Powers That Be, chartered to foster humankind’s destiny in a crowded universe. Includes an excerpt from THE LOST SHIP The Powers That Be Book Two

Enemy at the Gates Vince Flynn,Kyle Mills,2021-09-14 Mitch Rapp, the CIA’s top operative, searches for a high-level mole with the power to rewrite the world order in this riveting thriller from #1 New York Times bestselling author Vince Flynn, written by Kyle Mills. Mitch Rapp has worked for several presidents over his career, but Anthony Cook is unlike any he’s encountered before. Cunning and autocratic, he feels no loyalty to America’s institutions and is distrustful of the influence Rapp and CIA director Irene Kennedy have in Washington. When Kennedy discovers evidence of a mole scouring the Agency’s database for sensitive information on Nicholas Ward, the world’s first trillionaire, she assigns Rapp the task of protecting him. In doing so, he finds himself walking an impossible tightrope: Keep the man alive, but also use him as bait to uncover a traitor who has seemingly unlimited access to government secrets. As the attacks on Ward become increasingly dire, Rapp and Kennedy are dragged into a world where the lines between governments, multinational corporations, and the hyper-wealthy fade. An environment in which liberty, nationality, and loyalty are meaningless. Only the pursuit of power remains. With “sizzling storytelling at its level best” (The Providence Journal), Kyle Mills has created another suspenseful thriller that not only echoes the America of today, but also offers a glimpse into its possible future.

Third Language Acquisition in Adulthood Jennifer Cabrelli Amaro,Suzanne Flynn,Jason Rothman,2012-12-19 In recent years, researchers have acknowledged that the study of third language acquisition cannot simply be viewed as an extension of the study of bilingualism, and the present volume’s authors agree that a point of departure that embraces the unique properties that differentiate L2 acquisition from L3/Ln acquisition is essential. From linguistic, sociological, psychological, educational and cognitive viewpoints, it has become increasingly apparent that the study of L3/Ln acquisition can provide new evidence to help resolve ongoing debates in these areas of study. This volume uniquely provides a wide-ranging overview of current trends in the study of adult additive multilingualism from formal, psycholinguistic and sociolinguistic perspectives, adding new insights into adult multilingual epistemology. This collection includes critical reviews of L3/Ln morphosyntax, phonology, and the lexicon, as well as individual studies with unique language pairings including Romance, Germanic, Slavic, and Asian languages.

Girl of Fire Norma Hinkens,2017-01-10 ORIGIN. DESTINY. FATE. How far would you go to unravel the truth?Trattora is the adopted daughter of the Chieftain on a primitive frontier planet. Velkan is an indentured serf who has never known a day of freedom. Forced to flee a terrifying invasion by Galactic Pirates, they find themselves thrown together on a ramshackle mining vessel that harbors more than one dark secret. Fate and chemistry combine when the pair’s matching birth bracelets lead them to a shocking discovery about their true lineage. Stakes rise when they uncover the classified Expulsion Project, and the devastating sacrifice their birth families made to spare their lives. Determined to save them from liquidation, Trattora and Velkan plunge headlong into a frantic race against time and space to take down the genocidal self-actualizing software that now controls large swathes of their home planet.But will they navigate the treacherous dealings of the seedy Galactic underworld in time to rescue the families who loved them enough to let them go?Girl of Fire is the first novel in The Expulsion Project, a sci-fi, dystopian thriller trilogy with a whisper of romance, a heavy dose of adventure, and action galore. If you are a Firefly or Dark Matter fan, or in Divergent withdrawal, this is the book mashup for you!

Understanding Operating Systems Ida M. Flynn,Ann McIver McHoes,2001 UNDERSTANDING OPERATING SYSTEMS provides a basic understanding of operating systems theory, a comparison of the major operating systems in use, and a description of the technical and operational tradeoffs inherent in each. The effective two-part organization covers the theory of operating systems, their historical roots, and their conceptual basis (which does not change substantially), culminating with how these theories are applied in the specifics of five operating systems (which evolve constantly). The authors explain this technical subject in a not-so-technical manner, providing enough detail to illustrate the complexities of stand-alone and networked operating systems. UNDERSTANDING OPERATING SYSTEMS is written in a clear, conversational style with concrete examples and illustrations that readers easily grasp.

3C Vision Virginio Cantoni,Stefano Levialdi,Bertrand Zavidovique,2011-05-25 The exponential explosion of images and videos concerns everybody’s common life, since this media is now present everywhere and in all human activities. Scientists, artists and engineers, in any field, need to be aware of the basic mechanisms that allow them to understand how images are essentially information carriers. Images bear a strong evocative power because their perception quickly brings into mind a number of related pictorial contents of past experiences and even of abstract concepts like pleasure, attraction or aversion. This book analyzes the visual hints, thanks to which images are generally interpreted, processed and exploited both by humans and computer programs. Comprehensive introductory text Introduces the reader to the large world of imagery on which many human activities are based, from politics to entertainment, from technical reports to artistic creations Provides a unified framework where both biological and artificial vision are discussed through visual cues, through the role of contexts and the available multi-channels to deliver information

The Woman in the Window A. J. Finn,2018-01-02 #1 New York Times Bestseller – Soon to be a Major Motion Picture starring Amy Adams, Julianne Moore, and Gary Oldman – Available on Netflix on May 14, 2021 “Astounding. Thrilling. Amazing.” —Gillian Flynn “Unputdownable.” —Stephen King “A

dark, twisty confection.” —Ruth Ware “Absolutely gripping.” —Louise Penny For readers of Gillian Flynn and Tana French comes one of the decade’s most anticipated debuts, to be published in thirty-six languages around the world and already in development as a major film from Fox: a twisty, powerful Hitchcockian thriller about an agoraphobic woman who believes she witnessed a crime in a neighboring house. It isn’t paranoia if it’s really happening . . . Anna Fox lives alone—a recluse in her New York City home, unable to venture outside. She spends her day drinking wine (maybe too much), watching old movies, recalling happier times . . . and spying on her neighbors. Then the Russells move into the house across the way: a father, a mother, their teenage son. The perfect family. But when Anna, gazing out her window one night, sees something she shouldn’t, her world begins to crumble—and its shocking secrets are laid bare. What is real? What is imagined? Who is in danger? Who is in control? In this diabolically gripping thriller, no one—and nothing—is what it seems. Twisty and powerful, ingenious and moving, The Woman in the Window is a smart, sophisticated novel of psychological suspense that recalls the best of Hitchcock.

The Palgrave Handbook of Gendered Violence and Technology Anastasia Powell,Asher Flynn,Lisa Sugiura,2022-01-01 This handbook provides a comprehensive treatise of the concepts and nature of technology-facilitated gendered violence and abuse, as well as legal, community and activist responses to these harms. It offers an inclusive and intersectional treatment of gendered violence including that experienced by gender, sexuality and racially diverse victim-survivors. It examines the types of gendered violence facilitated by technologies but also responses to these harms from the perspectives of victim advocates, legal analyses, organisational and community responses, as well as activism within civil society. It is unique in its recognition of the intersecting drivers of inequality and marginalisation including misogyny, racism, colonialism and homophobia. It draws together the expertise of a range of established and globally renowned scholars in the field, as well as survivor-advocate-scholars and emerging scholars, lending a combination of credibility, rigor, currency, and innovation throughout. This handbook further provides recommendations for policy and practice and will appeal to academics and students in Criminology, Criminal Justice, Law, Socio-Legal Studies, Politics, as well as Women’s and/or Gender Studies.

Flynn's Log 5 Stone Marshall,2015-12-17 His friends trapped in the old world, Flyn is alive in Invivitas! But whose side is he on? While Zana is in the physical world trying to force all humans to enter Invivitas, Flynn is living in the digital world and runs into new trouble. Can his friends save Flynn? Will he survive or will he encounter digital death?--Page 4 of cover.
