

Focus Rally America

Ronald Kapp, M.d.

Ford Focus WRC Graham Robson,2017-10-15 When world rallying introduced a new formula for “World Rally Cars”, Ford seized the opportunity. Malcolm Wilson’s M-Sport organization was contracted to do the job, completed the design in less than a year, and spent the next 12 years campaigning this turbocharged, four-wheel-drive car all round the world. Working from state-of-the-art facilities, M-Sport built 97 Focus WRCs, all of which proved to be worthy of World level action when they won 44 World Championship events. Stellar drivers like Colin McRae, Carlos Sainz, Markko Märtin, Marcus Grönholm and Mikko Hirvonen all added to the mystique of an ultra-professional organization, along with substantial support and sponsorship from the likes of Martini, BP, and the state of Abu Dhabi. By building its in-house technical expertise, M-Sport not only engineered and developed the entire car on behalf of Ford, but gradually took over development of the 300bhp, 2.0-litre, turbocharged engine, and led the design of the complex four-wheel-drive transmissions provided by Xtrac. M-Sport’s reputation exploded to the point that when regulations changed, the company

immediately produced a new-generation Fiesta WRC, and kept the winning days rolling.

Polling America [2 volumes] Richard L. Clark, Kelly N. Foster, Samuel J. Best, Benjamin Radcliff, 2020-08-04 This work provides an authoritative overview of the composition of public opinion in America, the methodologies by which public opinion is measured, and the importance of polling to U.S. politics, policy, and culture. This revised edition is a comprehensive resource for understanding all aspects of public opinion polling in the United States, including major and emerging theories and concepts; historical and current methodologies; political, journalistic, and corporate uses; landmark events and developments in the history of polling; and influential people and organizations. The encyclopedia also illuminates how public opinion polling has become important in shaping the trajectory of American society and the views that Americans have about themselves and their fellow citizens. Specific big-picture topics explored include how data mining of internet and social media usage trends has shaped modern political and business advertising campaigns; the impact of politically partisan media outlets on public opinion; and attitudes of various sectors of the American electorate

about diverse topics including gun control, abortion, immigration, marijuana legalization, and the nation's two main political parties.

Nazi Saboteurs: Hitler's Secret Attack on America (Scholastic Focus) Samantha Seiple, 2019-12-03

A gripping tale of the little-known Nazi plot to attack on American soil, and the brave individuals who got in the way. In 1942, amid a growing German threat, Nazi agents infiltrated the United States in hopes of destroying American infrastructure and sowing panic throughout the nation. *Nazi Saboteurs* tells the nail-biting tale of this daring plot, buried in history, for young readers for the first time. Black-and-white historical photos throughout paint a picture of a nation on edge, the FBI caught unawares, and the incredible capture of eight dangerous criminals. A thrilling historical narrative for WWII buffs, reluctant readers, and adventure junkies.

Rally Point Chris Gibson,2017-10-03 A smart and surprising political inventory for how America can reunite and revitalize in a time of crisis. Written by an admired leader of the Republican party, Rally Point: Five Tasks to Unite the Country and Revitalize the American Dream looks past the 2016 election, past the finger pointing and conventional political thinking, to focus on clear, primary principles that conservatives must debate and defend to protect the future of America. Raised in a working-class family in upstate New York, the first in his family to go to college, paid for in part by his service in the National Guard, Chris Gibson rose from Private to Colonel in the Army, including combat command in the storied 82nd Airborne Division. RALLY POINT is his story: what he's learned from the

School of Hard Knocks and how he's applied those precious life lessons during his service in Iraq and in Congress. Drawn from a deep appreciation of history and American exceptionalism, Gibson provides incisive and frank analysis of the current political environment, including President Trump, and provides a roadmap based on time-tested Founding principles to help unite our country and revitalize the American Dream. RALLY POINT is a thoughtful, compelling, enjoyable read - a must for serious-minded Americans looking for answers in this challenging political environment.

Republic, Lost Lawrence Lessig, 2015-10-20 Revised and updated for the 2016 election with 75% new material. In an era when special interests funnel huge amounts of money into our government-driven by shifts in campaign-finance rules and brought to new levels by the Supreme Court in *Citizens United v. Federal Election Commission*-trust in our government has reached an all-time low. More than

ever before, Americans believe that money buys results in Congress, and that business interests wield control over our legislature. With heartfelt urgency and a keen desire for righting wrongs, Harvard law professor Lawrence Lessig takes a clear-eyed look at how we arrived at this crisis: how fundamentally good people, with good intentions, have allowed our democracy to be co-opted by outside interests, and how this exploitation has become entrenched in the system. Rejecting simple labels and reductive logic-and instead using examples that resonate as powerfully on the Right as on the Left-Lessig seeks out the root causes of our situation. He plumbs the issues of campaign financing and corporate lobbying, revealing the human faces and follies that have allowed corruption to take such a foothold in our system. He puts the issues in terms that nonwonks can understand, using real-world analogies and real human stories. And ultimately he calls for widespread mobilization and a new Constitutional Convention, presenting achievable solutions for regaining control of our corrupted-but redeemable-representational system. In this way, Lessig plots a roadmap for returning our republic to its intended greatness. While America may be divided, Lessig vividly champions the idea that we can succeed if

we accept that corruption is our common enemy and that we must find a way to fight against it. In *REPUBLIC, LOST*, he not only makes this need palpable and clear-he gives us the practical and intellectual tools to do something about it.

Racism in America Steven L. Foy, 2020-02-24 This book explains how race, once a differentiating factor, became a major basis for stratification in the United States that pervaded scientific thought, religious doctrine, governmental policy, and the patterned actions of decision-makers in all sectors of social life. *Racism in America: A Reference Handbook* diverges from the typical focus of accounts of racism on interpersonal prejudice and discrimination to situate racism within structural processes to demonstrate the systematic nature of racial discrimination. Racial progress, though notable, has largely addressed symptoms of the racialized social system rather than tackling the ways in which the system is inherently patterned to benefit whites. This book provides evidence that racial discrimination is not an occasional decision made by individuals. The book provides readers with a background and history of race in America; a thorough treatment of the problems, controversies, and solutions related to race; a perspectives section including essays from experts in a variety of related fields; profiles of important people and organizations; and a section dedicated to data and documents. Its organizational strategy

benefits the reader, first explaining core concepts and providing context for racism in America before moving into more specific applications in the work of relevant experts and providing directions for further study.
