*Place-based Learning for the Plate* Joel B. Pontius, Michael P. Mueller, David Greenwood, 2020-06-08 This edited volume explores 21st century stories of hunting, foraging, and fishing for food as unique forms of place-based learning. Through the authors' narratives, it reveals complex social and ecological relationships while readers sample the flavors of foraging in Portland, Oregon; feel some of what it's like to grow up hunting and gathering as a person of Oglala Lakota and Shoshone-Bannock descent; track the immersive process of learning to communicate with rocky mountain elk; encounter a road-killed deer as a spontaneous source of local meat, and more. Other topics in the collection connect place, food, and learning to issues of identity, activism, spirituality, food movements, conservation, traditional and elder knowledge, and the ethics related to eating the more-than-human world. This volume will bring lively discussion to courses on place-based learning, food studies, environmental education, outdoor recreation, experiential education, holistic learning, human dimensions of natural resource management, sustainability, food systems, environmental ethics, and others.

*The Dobe Ju/'Hoansi* Richard Lee, 2012-03-01 This classic, bestselling study of the !Kung San, foragers of the Dobe area of the Kalahari Desert describes a people's reactions to the forces of modernization, detailing relatively recent changes to !Kung rituals, beliefs, social structure, marriage and kinship system. It documents their determination to take hold of their own destiny, despite exploitation of their habitat and relentless development to assert their political rights and revitalize their communities. Use of the name Ju/'hoansi (meaning real people) acknowledges their new sense of empowerment. Since the publication of the Third Edition in 2003, Richard Lee has made eight further trips to the Kalahari, the most recent in 2010 and 2011. The Dobe and Nyae Nyae Areas have continued to transform and the people have had to respond and adapt to the pressures of capitalist economics and bureaucratic governance of the Namibian and Botswana states. This Fourth Edition chronicles and bears witness to these evolving social conditions and their impacts on lives of the Ju/'hoansi.

*The North American Guide to Common Poisonous Plants and Mushrooms* Nancy J. Turner, Patrick von Aderkas, 2009-09-01 If people knew how many poisonous plants are commonly found in homes and gardens, they'd be shocked. Plants as common as monkshood, castorbean, and oleander are not just dangerous, they're deadly. The North American Guide to Common Poisonous Plants and Mushrooms is a comprehensive, easy-to-use handbook. The book is split into four main categories: mushrooms, wild plants, ornamental and crop plants, and houseplants. Each plant entry includes a clear photograph to aid the task of identification, a description of the plant, notes on where they commonly occur, and a description of their toxic properties. Plants are listed by common name to assist the non-specialist.

*How Does My Fruit Grow?* Gerda Muller, 2022-03-17 Sophie lives in the city and spends her summer in the countryside where she learns all about the fruits that grow there: apples, plums, cherries and all kinds of berries. When Sophie's family moves south, where the weather is warmer, she discovers that different plants and trees grow in her new garden. With the help of her friendly neighbours, Sophie harvests melons, grapes, figs, oranges and pomegranates. At school, Sophie and her classmates learn about tropical fruits and nuts from all over the world -- bananas, coconuts, cashews, pineapples and many more. This is a wonderful book for children to learn about how fruit grows and where. It combines a charming seasonal story with fascinating facts and beautiful, accurate botanical illustrations. It is a superb companion to Gerda Muller's beloved *How Does My Garden Grow?*

San Diego County Native Plants James Lightner, 2006

*Guests of the Sheik* Elizabeth Warnock Fernea, 1995-10-01 A delightful account of one woman's two-year stay in a tiny rural village in Iraq, where she assumed the dress and sheltered life of a harem woman. A most enjoyable book about [Muslim women]—simple, dignified, human, colorful, sad and humble as the life they lead. —Muhsin Mahdi, Jewett Professor of Arabic Literature, Harvard University. A wonderful, well-written, and vastly informative ethnographic study that offers a unique insight into a part of the Middle Eastern life seldom seen by the West.

*Your Inner Fish* Neil Shubin, 2008-01-15 The paleontologist and professor of anatomy who co-discovered Tiktaalik, the “fish with hands,” tells a “compelling scientific adventure story that will change forever how you understand what it means to be human” (Oliver Sacks). By examining fossils and

DNA, he shows us that our hands actually resemble fish fins, our heads are organized like long-extinct jawless fish, and major parts of our genomes look and function like those of worms and bacteria. Your Inner Fish makes us look at ourselves and our world in an illuminating new light. This is science writing at its finest—enlightening, accessible and told with irresistible enthusiasm.

**The Curious Incident of the Dog in the Night-Time** Mark Haddon, 2009-02-24 A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

**Hungry Lightning** Pei-Lin Yu, 1997 A personal view not only of a people whose life as savannah foragers is unique and fast-disappearing, but of the thoughts and actions of a young woman researcher during the hardest, and most exciting time in her life.

*Into the Wild* Jon Krakauer, 2009-09-22 NATIONAL BESTSELLER • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and

walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. It may be nonfiction, but *Into the Wild* is a mystery of the highest order. —Entertainment Weekly McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. *Into the Wild* is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.
