Anyone can put out a YouTube video of anything and brand new Forex traders who are watching these types of things thinking that what they are viewing are the right things to do. **Forex Trading With the Set It and Forget It Method** J. Thune, 2017-09-19 New futures traders also spend waaaaay too much time on looking for the magical combination of indicators, settings and colors they think will show them something that is going to help them make more money. There are no shortcuts or bells that go ding to tell you to enter the right position so stop looking right now and if you are using something like that and you're losing money perhaps that is why. All you need to see is right in front of you on the price chart which is price and time. Those are the only things that professionals care about and nothing else. You can certainly use your chart like a crystal ball to tell you where price will go with a high degree of certainty and *Forex Trading with the Set it and Forget it Method* tells you how. *Forex Trading with the Set it and Forget it Method* describes a method of trading that is used by all professionals in the financial market who are money makers. It is really nothing special and is the way the markets have worked since the beginning of time when there were markets and trading. Doesn't it make complete sense to you to learn a method of trading that the actual price of the market you want to work in is based on? To me it's a no brainer however most brand new traders make it very hard on themselves and their accounts in the beginning by learning all the wrong information from day one. When you are done reading *Forex Trading with the Set it and Forget it Method* you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of formal education. The information in *Forex Trading with the Set it and Forget it Method* will put you on the fast track to becoming a successful self-directed financial market investor and trader with very little money invested. It will take you awhile to get your head around this set it and forget it mindset however once you do and you have learned the proper money management and other skills you need to be a successful consistently profitable trader you will never want to do it any other way trust me, you can take that to the bank!

You're heard the saying "just say no to drugs", just say no to day trading and you and your account will be waaaaay ahead of the game to start off. Don't say I didn't warn you, OK, continue with your insanity and read this entire book to give yourself a fighting chance. Many of the things I tell brand new investors and traders in all my books may sound like I am a broken record and some things you read may sound repetitive. I do that for a specific reason because much of what trading is about is doing those same actions over and over again repetitively to make money the same way every day. It is the only way professional traders do it and how they develop their edge to win in the live markets against the best market participants in the world. Trading is challenging for most people because they simply don't have tools or confidence to be successful. Best Tips for High Profit Day Trading is important for beginners because it tells it like it is and gives an inside look at the markets, giving you the reality on what the market is really like, the way they are really run and tells you who runs them. My hope from Best Tips for High Profit Day Trading is that you understand how important it is to have a competitive edge when putting your hard earned money at risk in the markets. Each day, the wealth from trader accounts is transferred from those without an edge into the accounts of those who have developed that all needed important winning edge. Which one do you want to be? When you are done reading Best Tips for High Profit Day Trading you will have an excellent basic explanation of what and what not to do before you even study anything or do any kind of education.
