Forex Trading Strategies : Revealed Underground Shocking Secrets and Sleek Weird But Crazy Profitable Tricks to Easy Millionaire with Forex Strategy Trader X,2015-06-12 You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you.This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade.

The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success in FOREX if you know what you are doing. Yes you can make a living with FOREX and quit your job. You can achieve your dreams. Buy this book and find out How?

Trading Strategies Andrew Rich, 2020-01-04 Are you eager to join the word of trading? Want to start making money without breaking a sweat? If yes, then keep reading... Would it not be great to have a successful business and be your own boss? Just sit back and

watch your money grow as the business succeeds! Does this sound like a daydream? It might, but this dream is closer to reality than one might imagine. The world of trading is diverse and full of different possibilities and chances. One of the best things about the trading world is that there is a place for everyone. Whether you're a beginner or have been investing for years, have long or short-term goals, or simply just want to experiment a bit, you will definitely find something suitable for you. However, it is essential to understand that this isn't a get rich quick scheme where you're going to make millions overnight. You will first need to educate yourself about its different aspects, set your goals, and choose what you want to invest in. Becoming successful in the trading world requires hard work, dedication, and a proper understanding of its different aspects. Most people choose to keep their money in the bank to save it. A bank is an attractive option for people because it is safe. The buying and selling of stocks, however, involves risk. You could buy a stock today and the value of the stock could decline or worse; the company might go bankrupt. If a company goes out of business, then your shared ownership would be worthless, and all the money you had invested would be gone. On the other hand, if you choose the right stocks and buy them at the right time, then their value could go up. By the time you sell the stock, you will have made a profit. The advantage of investing in the stock, forex and options market, rather than investing in a bank is the chance to profit from your investment. When you keep your money in a bank, very little value is added to the money over time. Banks will pay interest rates, but nowadays interest rates are so low that they don't manage to keep up with inflation. Often, we associate inflation with the increase in the money supply, making things more expensive and our money less valuable. In economics, inflation is the gradual increase in the prices of goods and services over time. Over time, things become more expensive which means the dollar amount to purchase x item increases. A small amount of inflation is good for the economy because it makes the loans you have to repay less expensive over time. But if we just keep our money sitting in the bank then the value of our money won't keep up with the rate of inflation. In this bundle, you will learn strategies of trading and investing for a living. Simple & Easy Forex Trading Strategies Josef Fluse, 2017-09-21 I have seen brand new Forex investors and traders around the world waste a serious amount of valuable education and training time on learning information that will not do them any good and can even cause them to lose some of their hard earned money right away in the live markets. No one wants that however it is a huge mistake that virtually all brand new Forex traders make because they don't know any better, after reading this book you will. I don't care where you trade from or what you trade, Dubai to Detroit or Mumbai to Manhattan doesn't matter because a chart is a chart and supply and demand is supply and demand, period, live markets don't work any other way no matter where in the world you are or what your trading even camels or goats. New Forex traders all around the world spend waaaay too much time on looking for the magical combination of indicators, settings and colors they think will show them something that is going to help them make more money. There are no shortcuts or bells that go ding to tell you to enter the right position so stop looking right now and if you are using something like that and you're losing money that is why. All you need to see is right in front of you on the price chart and that is price and time. Those are the only things that professional Forex traders care about and nothing else. You can certainly use your chart like a crystal ball to tell you where price will go with a high degree of certainty.
