Sleeping on the Summits Jon Kedrowskii,Chris Tomer,2015-06-15 Roughly 750,000 people attempt to climb a Colorado Fourteener each year. Of those climbers, the majority start pre-dawn to avoid deadly afternoon thunderstorms. Now imagine doing just the oppositeclimbing during the stormiest part of each day and then sleeping on every Fourteener summit, from sunset to sunrise, in 95 days. With striking photography and expert analysis, the authors explain how they tracked and dodged storms above tree line, climbed with maximum efficiency, and were treated to 54 stunning sunsets and sunrises while perched at over 14,000 feet.

#IMomSoHard Kristin Hensley,Jen Smedley,2019-04-02 NEW YORK TIMES BESTSELLER Has it been months since you've read a book with actual adult words that had nothing to do with farm animals or superheroes or going potty? Well then, it's time to take a break. Pour yourself some wine. Put on your comfy pants. All good? Ok, welcome to the party. Kristin Hensley and Jen Smedley, the creators of #IMOMSOHARD, know that you probably didn't get to shower today and that the last thing you need is more advice on how to be a better parent. Instead, they invite you to join their laugh-out-loud, best friend banter on the eighty bajillion ways moms give their all every day—including: I KEEP IT TOGETHER SO HARD I BODY AFTER BABY SO HARD I HIT THE TOWN (AND AM IN BED BY 9:30 P.M.) SO HARD I BUST MY ASS SO HARD I KEEP FOOLS ALIVE SO HARD Come for the laughs, stay for the kinship with two friends who are just getting it right, getting it wrong, and leaning on each other for a laugh at the end of the day. They don't care if your house is a mess and they won't judge you if you pee a little when you sneeze. So kick back, relax, and enjoy. You

deserve it.

Wonder Women Debora L. Spar, 2013-09-17 Fifty years after the Equal Pay Act, why are women still living in a man's world? Debora L. Spar never thought of herself as a feminist. Raised after the tumult of the 1960s, she presumed the gender war was over. As one of the youngest female professors to be tenured at Harvard Business School and a mother of three, she swore to young women that they could have it all. We thought we could just glide into the new era of equality, with babies, board seats, and husbands in tow, she writes. We were wrong. Now she is the president of Barnard College, arguably the most important all-women's college in the United States. And in *Wonder Women: Sex, Power, and the Quest for Perfection*—a fresh, wise, original book— she asks why, a half century after the publication of Betty Friedan's *The Feminine Mystique*, do women still feel stuck. In this groundbreaking and compulsively readable book, Spar explores how American women's lives have—and have not—changed over the past fifty years. Armed with reams of new research, she details how women struggled for power and instead got stuck in an endless quest for perfection. The challenges confronting women are more complex than ever, and they are challenges that come inherently and inevitably from being female. Spar is acutely aware that it's time to change course. Both deeply personal and statistically rich, *Wonder Women* is Spar's story and the story of our culture. It is cultural history at its best, and a road map for the future.

And Evil Shall Be Vanquished: SPC Gabriel David Conde, 2020-10-23 The words of this book are deftly written from the unique perspective of an airborne infantry soldier who dropped out of engineering school to enlist as an 18X special forces recruit. The values,

candor, and passion of this philosophically, morally, and ethically-grounded paratrooper reach through the murky relativism of our time and beckon the reader to think and to act.

Columbine Dave Cullen, 2009-04-06 Ten years in the works, a masterpiece of reportage, this is the definitive account of the Columbine massacre, its aftermath, and its significance, from the acclaimed journalist who followed the story from the outset. The tragedies keep coming. As we reel from the latest horror . . . So begins a new epilogue, illustrating how Columbine became the template for nearly two decades of spectacle murders. It is a false script, seized upon by a generation of new killers. In the wake of Newtown, Aurora, and Virginia Tech, the imperative to understand the crime that sparked this plague grows more urgent every year. What really happened April 20, 1999? The horror left an indelible stamp on the American psyche, but most of what we know is wrong. It wasn't about jocks, Goths, or the Trench Coat Mafia. Dave Cullen was one of the first reporters on scene, and spent ten years on this book-widely recognized as the definitive account. With a keen investigative eye and psychological acumen, he draws on mountains of evidence, insight from the world's leading forensic psychologists, and the killers' own words and drawings-several reproduced in a new appendix. Cullen paints raw portraits of two polar opposite killers. They contrast starkly with the flashes of resilience and redemption among the survivors. Expanded with a New Epilogue

I Love You All the Time Deborah Farmer Kris, 2022-03-15 Reassure children that they are loved and loveable no matter the ups and downs of the day with words of affirmation for kids. *I Love You All the Time* speaks to the power of caregivers’ steady love to help children develop confidence, resilience, and emotional agility with words of affirmation for kids. Parents and teachers want strategies for helping preschoolers manage their emotions. But to effectively teach emotional self-regulation strategies, children first need to know they are safe and loved—all the time. Even when they lose their temper, even when they stay up too late, or lose their shoes, or yell at their friend. The steady love of a caregiver can help children thrive, even when life is challenging. Written from the perspective of a caring adult speaking to a child, *I Love You All the Time* strengthens relationships by addressing the common childhood fear: Am I loved all the time? Its charming rhyme, words of affirmation for kids, and heartwarming message make the book perfect for storytime, home, the preschool classroom, and whenever children need a reminder that they’re loved. All the Time Series Written from the perspective of an adult speaking to a child, these rhyming books help young children know that they are deserving of love through life’s ups and downs and show them all the ways they’re supported as they continue to grow and learn.

The Urgency of Climate Change Kiarash Aramesh, Gerard Magill, 2017-01-06 The

Urgency of Climate Change addresses a pivotal challenge for the sustainability of our planet. This topic was selected for the inaugural conference in 2015 of an annual series on the Integrity of Creation. The essays in this collection were selected in a peer-reviewed manner and appeal to a general audience. The chapters move from general to more specific points of view, with a discussion at the end of each section addressing the global impact of climate change. The first section sets the Context for the discussion, explaining that the climate is an indispensable common good. The part on Science emphasises that empirical reality must guide any analysis of the climate as a matter of basic knowledge and comprehension. A crucial implication is whether the climate is sufficiently robust for the Earth to flourish for millennia ahead, as discussed in the part on Sustainability. In turn, these sections raise pivotal questions, regarding Ethics about social obligations for the planet to flourish and regarding Religion to foster global stewardship. Finally, this alignment of Ethics and Religion around the problems related to Science and Sustainability leads to the final section on Law that considers policy possibilities to effectively engage Climate Change.

Do the Impossible Jason Drees, 2022-04-05 Life is just waiting to give you everything you deserve and desire--you just need to shift your mindset to achieve it. Doing the impossible is not something you make happen, it is something you allow to happen. After conducting 10,000-plus personal and group coaching sessions over the last decade, Jason Drees has unlocked the simple yet effective formula to accept and create success in your life on the most basic, instinctive level. When you embrace success as a state of being and align with your targets, a life of abundance and unlimited potential is waiting for you! Inside

the book, you'll learn: How to remove resistance and misalignment in order to live in your natural state of abundance and endless opportunity The secret to living life like a never-ending vacation and enjoying every moment of the journey How to overcome social conditioning and limiting beliefs that secretly block your success Why ambitious goals require the same amount of work as conservative ones How to leverage your emotions as indicators for success and growth opportunities How to recognize and follow your unique path The secrets to playing life at a higher level by embracing success as a state of being through framing

Global Perspectives on Reforming the Criminal Justice System Pittaro, Michael, 2021-06-25 The often-tenuous relationship between law enforcement and communities of color, namely African Americans, has grown increasingly strained, and the call for justice has once again ignited the demand for criminal justice reform. Rebuilding the trust between the police and the citizens that they have sworn to protect and serve requires that criminal justice practitioners and educators collaborate with elected officials and commit to an open, ongoing dialogue on the most challenging issues that remain unresolved but demand collective attention and support. Reform measures are not limited to policing policies and practices, but rather extend throughout the criminal justice system. There is no denying that the criminal justice system as we know it is flawed, but not beyond repair. Global Perspectives on Reforming the Criminal Justice System provides in-depth and current research about the criminal justice system around the world, its many inadequacies, and why it urgently needs reformation. Offering a fully fleshed outline of the current system, this book details the newest research and is incredibly important to fully

understand the flaws of the criminal justice system across the globe. The goals of this book are to improve and advance the criminal justice system by addressing the glaring weaknesses within the system and discuss potential reforms including decreasing the prison population (decarceration) and improving police/community relations. Highlighting topics that include accountability, community-oriented policing, ethics, and mass incarceration, this book is ideal for law enforcement officers, trainers/educators, government officials, policymakers, correctional officers, court officials, professionals, researchers, academicians, and students in the fields of criminal justice, criminology, sociology, psychology, addictions, mental health, social work, public policy, and public administration.

Latinos and the 2016 Election Gabriel R. Sanchez, Luis Ricardo Fraga, Ricardo Ramírez, 2020-05-01 The 2016 election saw more Latino votes than the record voter turnout of the 2012 election. The essays in this volume provide a highly detailed analysis of the state and national impact Latino voters had in what will be remembered as one of the biggest surprises in presidential election history. Contrary to much commentary, Latino voters increased their participation rates in all states beyond the supposed peak levels that they attained in 2012. Moreover, they again displayed their overwhelming support of Democratic candidates and even improved their Democratic support in Florida. Nonetheless, their continued presence and participation in national elections was not sufficient to prevent the election of Donald Trump, the Republican presidential candidate who vilified Latinos and especially Latino immigrants. Each essay provides insights as to

how these two competing realities coexist, while the conclusion addresses the implications of this coexistence for the future of Latinos in American politics.

Am I Cactus? Peter Vale, 2019-05-01 Six-year-old Erica is found unconscious under the road bridge at Rocky Crossing. Victim of a brutal, perverted assault, she is rushed to hospital by helicopter and placed on life support. With terrible injuries, she is not expected to survive. The little girl's father has been arrested. The surrounding rural community is devastated and very angry. However, there is an unforeseen outcome to what really happened. This story is about Erica's five-year recovery.

Routledge Handbook of Philosophy and Nursing Martin Lipscomb, 2023-09-19 Philosophy offers a means of unpacking and grappling with important questions and issues relevant to nursing practice, research, scholarship, and education. By engaging in these discussions, this Handbook provides a gateway to new understandings of nursing. The Handbook, which is split loosely into seven sections, begins with a foundational chapter exploring philosophy's relationship to and with nursing and nursing theory. Subsequent sections thereafter examine a wide range of philosophic issues relevant to nursing knowledge and activity. Philosophy and nursing, philosophy and science, nursing theory Nursing's ethical dimension is described Philosophic questions concerning patient care are investigated Socio-contextual and political concerns relevant to nursing are unpacked Contributors tackle difficult questions confronting nursing Difficulties around speech, courage, and race/otherness are discussed Philosophic questions pertaining to scholarship, research, and technology are addressed International in scope, this volume provides a vital reference for all those interested in thinking about nursing, whether students, practitioners,

researchers, or educators.

A New Leaf Alyson Martin, Nushin Rashidian, 2015-02-03 Two award-winning journalists offer a “cogent, well-sourced and ambitious analysis of the slow decline of cannabis prohibition in the United States” (Kirkus Reviews). In November 2012, voters in Colorado and Washington passed landmark measures to legalize the production and sale of cannabis for social use—a first in the United States and the world. Once vilified as a “gateway drug,” cannabis is now legal for medical use in eighteen states and Washington, DC. Yet the federal government refuses to acknowledge these broader societal shifts. 49.5 percent of all drug-related arrests involve the sale, manufacture, or possession of cannabis. In the first book to explore the new landscape of cannabis in the United States, investigative journalists Alyson Martin and Nushin Rashidian demonstrate how recent cultural and legal developments tie into cannabis’s complex history and thorny politics. Reporting from nearly every state with a medical cannabis law, Martin and Rashidian interview patients, growers, doctors, entrepreneurs, politicians, activists, and regulators. *A New Leaf* moves from the federal cannabis farm at the University of Mississippi to the headquarters of the ACLU to Oregon’s World Famous Cannabis Café. The result is a lucid account of how cannabis legalization is changing the lives of millions of Americans and easing the burden of the “war on drugs” both domestically and internationally.

Emerging Voices in Natural Hazards Research Fernando I. Rivera, 2019-06-15 *Emerging Voices in Natural Hazards Research* provides a synthesis of the most pressing issues in natural hazards research. The book begins with an overview of emerging research on natural hazards, such as hurricanes, earthquakes, floods, wildfires, sea-level rise, global

warming, climate change and tornadoes, among other topics. Remaining sections cover socially vulnerable populations and the cycles of emergency management. This book will serve as a consolidated resource for academics, students and researchers who are eager to learn about the most pressing issues in today's natural hazard research. Provides a platform for readers to keep up-to-date with the interdisciplinary research that new professionals are producing Covers the multidisciplinary perspectives of the hazards and disasters field Includes international perspectives from new professionals around the world, including developing countries

A Life That Matters Kenneth E. Salyer, 2013-06-11 A LIFE THAT MATTERS is a fascinating and profoundly moving new book by a surgeon who has devoted his life to helping the world's most unfortunate children grow up with faces that allow them to know they are part of the human community-assured that they are ordinary in the very best way and fully capable of being loved. We present ourselves to the world foremost with our faces, Dr. Ken Salyer explains, and the people we meet initially look to our faces to ascertain who, in fact, we are. Dr. Salyer is a fiercely intelligent, energetic, insatiably inquiring, and deeply compassionate man whose life has been one of service. As he writes in his introduction to A LIFE THAT MATTERS, he is convinced that possessing a face you aren't forced to hide is a fundamental human right-as important to a fully lived life as freedom from fear or want. And in clinics and operating room around the world, today Dr. Salyer continues a groundbreaking forty-year career whose nexus melds cutting-edge medicine with humanitarian aid offered to profoundly unfortunate children. A LIFE THAT MATTERS focuses on the moving stories of the children whose lives have been transformed

and their moving personal testaments to how precious their normalcy now is. It is these children who inspired Dr. Salyer to found the World Craniofacial Foundation and establish clinics across the globe that now offer hope for good lives to hundreds of poor children in still-developing countries who otherwise would be shunned, locked away, or abandoned. In a voice that's compelling, eloquent, and always impassioned, he issues a call for a new worldwide understanding of the rights of the terribly disfigured, and he encourages readers to be inspired by the lives of these children and to transform our own challenges into triumphs.

The Fertility Diet Sarah Dobbyn, 2012-01-05 Approximately £500m per year is spent in the UK on assisted conception techniques such as IVF by couples who do not know that their diet could be affecting their fertility. Men and women who are stigmatised as 'infertile' or told they are too old to have a baby feel betrayed by their own bodies yet, according to Sarah Dobbyn, biological age and chronological age do not have to coincide. If your body believes you are young and healthy enough to have a baby, no matter how old you are, you will be able to conceive a child - and easily. Not only this, but a healthy diet that eschews 'contraceptive foods' can enhance libido and delay the onset of the menopause. With chapters on fertility power foods, supplements and drinks, enhancing male fertility and avoiding miscarriage, *The Fertility Diet* will tell readers everything they need to know about staying as young, fertile and sexually charged for as long as possible. With delicious recipes and a Fertility Action Plan at the end of each chapter, the book sets out suggestions for immediate steps you can take today to maximise your chances of conceiving the old-

fashioned way.
