Elusive Alliance Jesse Kauffman,2015-08-05 As World War I dragged on into 1915, German armies along the Western Front settled into stalemate with entrenched British and French forces. But in the East the picture was quite different. The Kaiser's army routed the Russians, took possession of Polish territory, and attempted to create a Polish satellite state. *Elusive Alliance* delves into Germany's three-year occupation of Poland and explains why its ambitious attempt at nation-building failed. Dubbed the Imperial Government-General of Warsaw, Germany's occupation regime was headed by veteran Prussian commander Hans Hartwig von Beseler. In his vision for Central Europe, Poland would become Germany's permanent ally, culturally and politically autonomous but bound to the Fatherland in foreign policy matters. To win Polish support, Beseler spearheaded the creation of new institutions including a Polish-language university in Warsaw, reformed the school system, and established democratically elected municipal governments. For Beseler and other German strategists, a secure Poland was essential to ensuring Central Europe against a threatening tide of nationalism and revolution. But as Jesse Kauffman shows, Beseler underestimated the resistance to his policies and the growing hostility to occupation as Germany plundered Polish resources to fuel its war effort. By 1918, with the war over, Poles achieved independence. Yet it would not be long before they faced a second, far more brutal German occupation at the hands of the Nazis.

Finding Common Ground Jennifer Keene,Michael Neiberg,2011 Representing the best of cutting-edge scholarship in First World War studies, this anthology demonstrates how conversations among historians across international and cross-disciplinary boundaries enhances our understanding of this global conflict.

Imperial Sudan M. W. Daly, 2003-12-11 Imperial Sudan completes a study of the formative colonial period during which Britain and Egypt ruled the country. The previous volume, the acclaimed *Empire on the Nile: The Anglo-Egyptian Sudan, 1898-1934*, appeared in 1986. The current book takes the narrative to independence in 1956 and thus, with *Empire*, constitutes the first comprehensive survey of the political and economic history of the Anglo-Egyptian Sudan. Dr Daly examines the structure of the colonial regime, its role in Anglo-Egyptian relations, and the development of Sudanese nationalist politics during the inter-war years. He surveys economic and social developments, including government finance and development policy, transport and communications, agricultural production, and social services. He reveals the Sudan's important role in the Second World War, when the Sudan Defence Force held back Italian invasion. The complicated path to self-government and self-determination, which culminated in independence in 1956, is explained in great detail. The book ends with the transfer of power, and the author reflects on the legacy of the Condominium.
