How to Use Corpora in Language Teaching John McHardy Sinclair,2004-01-01 After decades of being overlooked, corpus evidence is becoming an important component of the teaching and learning of languages. Above all, the profession needs guidance in the practicalities of using corpora, interpreting the results and applying them to the problems and opportunities of the classroom. This book is intensely practical, written mainly by a new generation of language teachers who are acknowledged experts in central aspects of the discipline. It offers advice on what to do in the classroom, how to cope with teachers' queries about language, what corpora to use including learner corpora and spoken corpora and how to handle the variability of language; it reports on some current research and explains how the access software is constructed, including an opportunity for the practitioner to write small but useful programs; and it takes a look into the future of corpora in language teaching.

Las mejores Frases y Citas Célebres varios

autores, 2017-03-17 He aquí una excelente colección de las denominadas “frases y citas célebres”, supuestas o no, pronunciadas en la más diversas épocas y países según la tradición, por personajes en general importantes (de aquí el epíteto aplicado a las frases y citas) como emperadores, reyes, escritores y artistas. Al no existir la tecnología actual han sido conservadas desde hace mucho tiempo por tradición oral y escrita en documentos antiguos. Es imposible aseverar la autenticidad de todas, pero como dice el refrán italiano: “si no son ciertas, están bien encontradas”.

Diccionario de refranes, adagios, proverbios, modismos, locuciones y frases proverbiales de la lengua española, recogidos y glosados

José María Sbarbi y Osuna, 1922 En este catálogo se citan colecciones de refranes, adagios y proverbios de todas clases: unas, en que sus compiladores glosaron los decires que recogieron; otras, en que los agruparon por materias; algunas, en que sólo se insertan los refranes que tratan de una especialidad determinada, y, por fin, muchas en que sus autores se

limitaron a acumularlos sin un plan determinado, guiados sólo del deseo de que se conservasen según los habían ido recogiendo de los labios del vulgo.
