BUT YOU BETTER NOT TOUCH . . . FBI agent Harry O'Dell's ex-wife and son were tragic casualties in his ongoing war against organized crime. He'll do whatever it takes to bring Trotta down--even if it means sticking like glue to this blonde bombshell who unwittingly married into the mob. She needs him if she wants to stay alive. **You Are Not a Sh\*tty Parent** Carla Naumburg, 2022-09-27 Of course you think you're doing a sh\*tty job. Every parent does. It's pretty much a byproduct of our society, with its incessant demands coupled with the in-your-face competitiveness parents see on social

media. Unfortunately, the pandemic only made things worse, as parents juggled the stresses of helping their kids navigate online schooling while they also had to work from home. All of which makes Carla Naumburg's new book utterly necessary. Author of *How to Stop Losing Your Sh\*t with Your Kids*, with 149,000 copies in print, Naumburg delivers her message right up front—You Are Not a Sh\*tty Parent—that all parents need to hear and believe in. And she does it with her singular understanding, relatably funny voice, and keen insights. You don't react calmly to every situation? That doesn't make you a sh\*tty parent. You'd rather hide in the back of the closet than play dolls with your child (because you hate dolls)—nope, doesn't mean you're a sh\*tty parent. The fact is, great parenting is not the same thing as perfect parenting. Great parenting starts with true self-compassion, the kind that means you don't judge yourself. Harnessing this self-compassion is the key to giving yourself a break and embracing your best qualities as a parent. There are four evidence-based elements of self-compassion—noticing, connection, curiosity, and compassion of course—and Naumburg gives tangible steps for how to use each to help parents reduce their anxiety, trust their instincts, move past the guilt and become a calmer, more confident parent. Which, in the end, benefits your child as much as you.

Satan's Arrow Richard Webb, 2016-01-22 The method of operation (MO), of this killer is complex and gruesome. All of his victims are women between the ages of twenty and thirty and they are all attractive brunettes, either artists or patrons of the arts in and around the Washington, D.C. area, and their bodies are found in secluded areas in the counties surrounding Washington, D.C. In all the cases, the women are abducted and taken somewhere to be raped and tortured, later taken to the place of execution where, in a

satanic ritual, they are sodomized and then crucified upside-down, and then killed by an arrow through the heart. The killings had begun thirteen years ago and then suddenly stopped with the fourth victim. After an apparent long cooling-off period of eleven years, the killings begin again two years ago and the F.B.I. task force was augmented. Special Agent Adrian DeWinter, sixty-two, and the most experienced and successful agent in the field is appointed Lead-Investigator, and special agent Vivian Dubary, twenty-nine, is made Co-Investigator. A new murder, with the victim discovered in Rock Creek Park, in Washington, D.C., yields only moderate leads. The psychotic killer is meticulous, but is partially identified by a family of hikers. Vivian goes undercover as an artist at the popular Torpedo Factory Art Center in Alexandria hoping to attract the murderer, while Adrian, with a close-knit team, investigates the Satanic Church, leading to an apparent dead end. The (UNSUB) unknown subject, is cornered in two shoot-outs with police and, on both occasions he kills them all with a powerful hunting rifle, no witnesses, but the task force is slowly closing in. In the meantime, Adrian is contacted by the Society for Paranormal Analysis and is informed that a four-year old girl, Becky Williams, may be a genuine case of past-life memories, a reincarnation of Cameron Summers, the fourth victim thirteen years ago. As Adrian explores this direction on his own, Becky reveals vital information leading to the identification of the murderer. Combined with Vivian's undercover operations, the investigators successfully identify the killer. But without solid evidence they have to resort to a dangerous trap which leads to an exciting violent end. Filled with horrible serial murders; police shoot-outs, factually based F.B.I. investigation methods, a delving into the world of art, Satanism, and a case of genuine reincarnation, Satan's Arrow is a paranormal

thriller with unique twists and turns, entry into the dark dimensions of a psychotic mind, and an interesting surprise ending.

*Sugar Among the Freaks* Lewis Nordan, 1996-01-05 Introduction by Richard Howorth and foreword by the author. The incomparable Lewis Nordan's first two collections of short fiction--WELCOME TO THE ARROW-CATCHER FAIR and THE ALL-GIRL FOOTBALL TEAM--originally published in 1983 and 1986, have long been out of print in all editions. Collectors' items, these two books are now almost impossible for Nordan fans to find anywhere. To rectify that, Algonquin is delighted to announce a selection of fifteen of the best stories from the two books, newly arranged and introduced by fellow Mississippian, bookseller Richard Howorth, and with a foreword by the author. Critics have called Lewis Nordan's fiction extraordinary and marvelous and stunning and scorching and story-telling genius. The selected stories show that genius in the making. Characters that people the South hobble and dance across the pages of his short stories.--United Press International;

Delightfully eccentric situations and colorful language add up to a work that is even stronger than WOLF WHISTLE.--Library Journal.

Number Freaking Gary Rimmer,2006-01-01 This isn't a book of statistics and it isn't a book of science. It has nothing whatsoever to do with actuaries or accountants. Number Freaking is a book of surreal sums and absurd arithmetic: it's doodling with numbers, doing sums in your head just for fun, playing dice with the universe. It's the art of putting numbers where none existed before to take an off-the-wall peek behind the curtains at how numbers rule our lives. It's about taking numbers that were never meant to be in the same room, crashing them together and seeing what comes out the other end. Number Freaking reveals the low drama of life, the unexpected realities and unforeseen truths that emerge only when numbers are tested to destruction. How long would it take to drive your car to the moon? How many people on Earth are drunk right now? If you were falling from the world's tallest building, would you have time to phone a friend to say goodbye? Which is more crowded: Jakarta, an IKEA store or Hell? How long will it take for America to eventually collide with Japan? What's a decent boyfriend worth... in chocolate? Discover for yourself how far you walk in a lifetime, how many people have ever lived and how to cure world debt in this essential guide to modern life.

**Number Freak** Derrick Niederman,2009-08-04 A compulsively readable look at the secret language of numbers- their role in nature, movies, science, and everything in between. What do Fight Club, wallpaper patterns, George Balanchine's Serenade, and Italian superstitions have in common? They're all included in the entry for the number 17 in

this engaging book about numbers- detailing their unique properties, patterns, appeal, history, and lore. Author Derrick Niederman takes readers on a guided tour of the numbers 1 to 300-covering everything from basic mathematical principles to ancient unsolved theorems, from sublime theory to delightfully arcane trivia. Illustrated with diagrams, drawings, and photographs, plus 50 challenging mathematical brainteasers (with answers), this book will fascinate and engage readers of all levels of mathematical skill and knowledge. Includes such gems as: ? There are 42 eyes in a deck of cards, and 42 dots on a pair of dice ? In order to fill in a map so that neighboring regions never get the same color, one never needs more than four colors ? Hells Angels use the number 81 in their insignia because the initials H and A are the eighth and first numbers in the alphabet respectively

**Freak Weather** Mary Kuryla,2018-06-29 From a nurse who sees a rattlesnake in the

pediatric ICU to an animal control officer convinced she's found her abducted daughter in the house of a dog hoarder, the thirteen stories in *Freak Weather* are as unpredictable as the atmospheric changes that give this collection its name. With dark and raucous humor, Mary Kuryla creates female characters who, at times, combine a violent urgency with lack of introspection as they struggle to get out from under the thumb of a perceived authority. The intricate language is inseparable from the narrator's conviction; the characters lie with such bravado they're soon tangled up in their own webs. This brand of romanticism in a female character is little tolerated, and *Freak Weather*'s mission—Kuryla's artistic mission overall—is to scratch at the intolerable. Call it bad instructions for moral behavior.
