HSK 1, 2, 3, 4 Vocabulary Flashcards B Y Leong, This book has all the official vocabulary for HSK 1, 2, 3 and 4. One of the methods of learning a new language is to start with memorising new

vocabulary and meaning along with the pronunciation. The Chinese language is particularly hard to master. It has five tones (including the silent tone), and to make things even more complicated, the same word can have different meanings and pronunciations, depending on the context. For instance, the word 还 is used in both HSK 2 and HSK 3 with different meanings and pronunciations. In HSK 2, 还 (with the pinyin hái) means also, still, yet whereas in HSK 3 还 (with the pinyin huán) means to return something. Therefore, it is important to learn the right meaning and pronunciation for the appropriate HSK level. This set of flashcards, along with the supplementary materials, is designed to help you succeed in learning new Chinese words. The supplementary material includes: •Audio files (at a fast and slow rate) •HSK vocabulary writing practice sheets. We have also included printable blank writing practice sheets, which you can print on both sides of an A4 paper. The password and link to download all the files are at the end of the book.

Chinese in a Flash Philip Yungkin Lee, 2014-12-16 Chinese in a Flash Volume 4 continues to provide more resources for Chinese language students wishing to learn Chinese quickly and easily. This unique set of Chinese flash cards enables learners to acquire more Chinese words and their derivatives in an easy-to-use manner, at a pace to be set by the learners themselves. Common idiomatic expressions are widely distributed among the cards; learners who master these will come to appreciate the beauty of the Chinese language by using a few words to say a thousand different things.

Fluent Forever Gabriel Wyner, 2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six

languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

Hacking Chinese Olle Linge, 2016-03-26 Learning Chinese can be frustrating and difficult, partly because it's very different from European languages. Following a teacher, textbook or language course is not enough. They show you the characters, words and grammar you need to become proficient in Chinese, but they don't teach you how to learn them! Regardless of what program you're in (if any), you need to take responsibility for your own learning. If you don't, you will miss many important things that aren't included in the course you're taking. If you study on your own, you need to be even more aware of what you need to do, what you're doing at the moment and the difference between them. Here are some of the questions I have asked and have since been asked many times by students: How do I learn characters efficiently? How do I get the most out of my course or teacher? Which are the best learning tools and resources? How can I become fluent in Mandarin? How can I improve my pronunciation? How do I learn successfully on my own? How can I motivate myself to study more? How can I fit learning Chinese into a busy schedule? The answers I've found to these questions and many others form the core of this book. It took eight years of learning, researching, teaching and writing to figure these things out. Not everybody has the time to do that! I can't go back in time and help myself learn in a better way, but I can help you! This book is meant for normal students and independent language learners alike. While it covers all major areas of learning, you won't learn Chinese just by reading this book. It's like when someone on TV teaches you how to cook: you won't get to eat the delicious dish just by watching the program; you have to do the cooking yourself. That's true for this book as well. When you apply what you learn, it will boost your learning,

making every hour you spend count for more, but you still have to do the learning yourself. This is what a few readers have said about the book: The book had me nodding at a heap of things I'd learnt the hard way, wishing I knew them when I started, as well as highlighting areas that I'm currently missing in my study. - Geoff van der Meer, VP engineering This publication is like a bible for anyone serious about Chinese proficiency. It's easy for anyone to read and written with scientific precision. - Zachary Danz, foreign teacher, children's theatre artist About me I started learning Chinese when I was 23 (that's more than eight years ago now) and have since studied in many different situations, including serious immersion programs abroad, high-intensity programs in Sweden, online courses, as well as on the side while working or studying other things. I have also successfully used my Chinese in a graduate program for teaching Chinese as a second language, taught entirely in Chinese mostly for native speakers (the Graduate Institute for Teaching Chinese as a Second Language at National Taiwan Normal University). All these parts have contributed to my website, Hacking Chinese, where I write regularly about how to learn Mandarin.

First 100 Chinese Characters: Traditional Character Edition Laurence Matthews, Alison Matthews, 2013-05-21 This book is a quick and easy way to learn basic Chinese Characters. All beginning Chinese language learners struggle to memorize and learn to write Chinese characters. The First 100 Chinese Characters adopts a structural approach which helps students to quickly master the basic characters that are fundamental to this language. Intended for beginning Chinese students, this character book presents characters that have been carefully selected for rapid and effective learning. The English meanings, pronunciations in hanyu pinyin and alternate forms (if any) for each Chinese character are presented along with a stroke order guide and spaces for writing practice. Printed with gray guidelines, the stroke order guides are designed to be traced over to teach students the standard sequence of strokes used to write the character. Related compounds and phrases are given to assist in vocabulary building. Three indexes at the back allow the characters to be looked up by their English meanings, hanyu pinyin pronunciations, or radicals. Extra practice sheets are also provided. This Chinese character book contains: Step-by-step stroke order diagrams show you how to write each character. Special boxes with grid lines help you practice writing them correctly.

Compounds and sample sentences provide easy vocabulary building. Hanyu pinyin romanizations identify and help you pronounce every word.
