*The Oxford Handbook of Mobile Music Studies* Sumanth Gopinath, Jason Stanyek, 2014-03-21 The two volumes of The Oxford Handbook of Mobile Music Studies consolidate an area of scholarly inquiry that addresses how mechanical, electrical, and digital technologies and their corresponding economies of scale have rendered music and sound increasingly mobile-portable, fungible, and ubiquitous. At once a marketing term, a common mode of everyday-life performance, and an instigator of experimental aesthetics, mobile music opens up a space for studying the momentous transformations in the production, distribution, consumption, and experience of music and sound that took place between the late nineteenth and the early twenty-first centuries. Taken together, the two volumes cover a large swath of the world-the US, the UK, Japan, Brazil, Germany, Turkey, Mexico, France, China, Jamaica, Iraq, the Philippines, India, Sweden-and a similarly broad array of the musical and nonmusical sounds suffusing the soundscapes of mobility. Volume 2 investigates the ramifications of mobile music technologies on musical/sonic performance and aesthetics. Two core arguments are that mobility is not the same thing as actual movement and that artistic production cannot be absolutely sundered from the performances of quotidian life. The volume's chapters investigate the mobilization of frequency range by sirens and miniature speakers; sound vehicles such as boom cars, ice cream trucks, and trains; the gestural choreographies of soundwalk pieces and mundane interactions with digital media; dance music practices in laptop and iPod DJing; the imagery of iPod commercials; production practices in Turkish political music and black popular music; the aesthetics of handheld video games and chiptune music; and the mobile device as a new musical instrument and resource for musical ensembles.

*Fatal Judgment* Andrew Welsh-Huggins,2019-04-05 Judge Laura Porter fiercely guarded her privacy, and never more so than during her long-running—and long in the past—affair with disgraced quarterback-turned-private investigator Andy Hayes. Now she’s missing, disappeared just hours after she calls Andy out of the blue explaining she’s in trouble and needs his help. A trail of clues leads Andy to a central Ohio swamp whose future lies in the judge’s hands as she weighs a lawsuit pitting environmentalists against developers. Soon Hayes encounters the case of another missing person, a young man who vanished without a trace in a different swamp two counties away. As he looks for links between the two disappearances, Hayes is led from Columbus to Cleveland, unearthing a history of secrets and betrayals threatening not just the judge but her family as well. Along the way, Hayes is forced to confront a newly strained relationship with his older son, now a budding football star himself, and revisit his tumultuous days as a Cleveland Browns quarterback and the gridiron failures that haunt him to this day. In partnership with a cop on her own quest for justice, Hayes rushes to find the judge, and the truth, before it’s too late.

Teenage Rebels Kaiwen Leong,Elaine Leong,2014-02-15 You think the teenagers of today have it good? That their struggles are merely First World pains? Or only kids from broken families go bad? Think again. Negative influences are lurking at every corner and money can buy anything. For everything else, there is the Internet. Want friends? Join an online cult. Want drugs? Click and DIY. Want to forge? Learn how with web videos. Want porn? Upload your own. When such disturbing influences combine with an oppressive pressure to fit in, some teens stick to the straight path society has laid out, while others stray into dark alleys, only to be trapped, committing crimes or developing psychological problems that ruin them, leaving their futures in shambles. Through interviews, experience, and research, the authors expose stories of seemingly normal teens from average Singaporean families. Hear their voices and understand their mindsets. After all, beneath the rosy-cheeked exterior of that sweet child across the road lurks a possible future social psychopath Author Dr Kaiwen Leong is an economist, entrepreneur, lecturer and academic researcher. A graduate of Princeton University, he is currently an Assistant Professor of Economics at Nanyang Technological University. He is also an Associate Faculty Member at the Singapore Institute of Management, and consults for many private sector organisations, including Singapore Business Federation and Oxford Economics. His autobiography Singapore’s Lost Son: How I Made It From Dropout to Princeton PhD was published in 2012.
