Come as You Are Emily Nagoski,2015-04-09 A NEW YORK TIMES BESTSELLER An essential exploration of women's sexuality that will radically transform your sex life into one filled with confidence and joy. After all the books that have been written about sex, all the blogs and TV shows and radio Q&As, how can it be that we all still have so many questions? The frustrating reality is that we've been lied to – not deliberately, it's no one's fault, but still. We were told the wrong story. Come as You Are reveals the true story behind female sexuality, uncovering the little-known science of what makes us tick and, more importantly, how and why. Sex educator Dr Emily Nagoski debunks the common sexual myths that are making women (and some men!) feel inadequate between the sheets. Underlying almost all of the questions we still have about sex is the common worry: 'Am I normal?' This book answers with a resounding Yes! We are all different, but we are all normal – and once we learn this, we can create for ourselves better sex and more profound pleasure than we ever thought possible. PRAISE FOR EMILY NAGOSKI 'As a literary work, Nagoski's book deserves plaudits for the rare achievement of merging pop science and the sexual self-help genre in prose that's not insufferably twee ... "You are normal!" doesn't sound much like a battlecry, but in a world keen to sexually homogenise women from the gap of their thighs to the shape of their mons pubis, the sentiment lands like a bomb.' The Guardian 'Come As You Are screams female empowerment loud and proud.' The Independent

Quantum Love Laura Berman,2016 Once the initial intense excitement of a new relationship fades, we tend to think there are only two options: chase the impossible dream of recapturing that early magic or settle for a less than fulfilling love life. In Quantum Love, sex and relationship expert Laura Berman, Ph.D., the New York Times best-selling author of eight books including For Women Only, Real Sex for Real Women, and The Passion Prescription, offers a thrilling alternative--a higher level of love beckoning us to move forward, not backward. Using the essential truth we've learned from the study of quantum physics--the fact that at our molecular core, each of us is simply a vessel of energy--she explains how we can use what's happening in our inner world to create a level of passion, connection, and bliss in our relationships that we never imagined possible.--Provided by publisher.
