Online around the World Laura M. Steckman,Marilyn J. Andrews,2017-05-24 Covering more than 80 countries around the world, this book provides a compelling, contemporary snapshot of how people in other countries are using the Internet, social media, and mobile apps. How do people in other countries use the social media platform Facebook differently than Americans do? What topics are discussed on the largest online forum—one in Indonesia, with more than seven million registered users? Why does Mongolia rate in the top-ten countries worldwide for peak Internet speeds? Readers of Online around the World: A Geographic Encyclopedia of the Internet, Social Media, and Mobile Apps will discover the answers to these questions and learn about people's Internet and social media preferences on six continents—outside of the online community of users within the United States. The book begins with an overview of the Internet, social media platforms, and mobile apps that chronologically examines the development of technological innovations that have made the Internet what it is today. The country-specific entries that follow the overview provide demographic information and describe specific events influenced by online communications, allowing readers to better appreciate the incredible power of online interactions across otherwise-unconnected individuals and the realities and peculiarities of how people communicate in today's fast-paced, globalized, and high-technology environment. This encyclopedia presents social media and the Internet in new light, identifying how the use of language and the specific application of human culture impacts emerging technologies and communications, dramatically affecting everything from politics to social activism, education, and censorship.

The Graves County Boys Marianne Walker, 2013-10-08 In 1952, just one year after Coach Adolph Rupp's University of Kentucky Wildcats won their third national championship in four years, an unlikely high school basketball team from rural Graves County, Kentucky, stole the spotlight and the media's attention. Inspired by young coach Jack Story and by the Harlem Globetrotters, the Cuba Cubs grabbed headlines when they rose from relative obscurity to defeat the big-city favorite and win the state championship. A classic underdog tale, *The Graves County Boys* chronicles how five boys from a tiny high school in southwestern Kentucky captured the hearts of basketball fans nationwide. Marianne Walker weaves together details about the players, their coach, and their relationships in a page-turning account of triumph over adversity. This inspiring David and Goliath story takes the reader on a journey from the team's heartbreaking defeat in the 1951 state championship to their triumphant victory over Louisville Manual the next year. More than just a basketball narrative, the book explores a period in American life when indoor plumbing and electricity were still luxuries in some areas of the country and when hardship was a way of life. With no funded school programs or bus system, the Cubs's success was a testament to the sacrifices of family and neighbors who believed in their team. Featuring new photographs, a foreword by University of Kentucky coach Joe B. Hall, and a new epilogue detailing where the players are now, *The Graves County Boys* is an unforgettable story of how a community pulled together to make a dream come true.
