The French Penal Code of 1994 as Amended as of January 1, 1999 France, Edward A.

Tomlinson, 1999-01-01 A significant improvement over the Code it replaced (Volume 1 in the Series), this new Code provides a coherent structure & a high degree of internal consistency.

The French Penal Code Richard S. Frase, 1988

French Penal Code J. F. Moreau, 1960-06-01

French Criminal Law Catherine Elliott, 2001-05

This book provides a clear and accessible account and analysis of French criminal law in English, the first to have been written. French criminal law has been highly influential in the development of criminal law in civil law countries around the world, and a knowledge of French criminal law has become increasingly important in view of the internationalisation and Europeanisation of criminal law. The book provides a historical introduction to the development of French criminal law, and a chapter on French criminal procedure to provide the context for an understanding of substantive criminal law. Subsequent chapters cover the general principles of French criminal law, analysing *actus reus*, *mens rea*, parties to crime, inchoate offences and general defences. The major offences are then considered chapter by chapter, and an Appendix provides in both French and English the key provisions of the French Criminal Code.

The Western Codification of Criminal Law Aniceto Masferrer,2018-03-09 This volume addresses an important historiographical gap by assessing the respective contributions of tradition and foreign influences to the 19th century codification of criminal law. More specifically, it focuses on the extent of French influence – among others – in European and American civil law jurisdictions. In this regard, the book seeks to dispel a number of myths concerning the French model's actual influence on European and Latin American criminal codes. The impact of the Napoleonic criminal code on other jurisdictions was real, but the scope and extent of its influence were significantly less than has sometimes been claimed. The overemphasis on French influence on other civil law jurisdictions is partly due to a fundamental assumption that modern criminal codes constituted a break with the past. The question as to whether they truly broke with the past or were merely a degree of reform touches on a difficult issue, namely, the dichotomy between tradition and foreign influences in the codification of criminal law. Scholarship has unfairly ignored this important subject, an oversight that this book remedies.

The French Code of Criminal Procedure

French Law Eva Steiner,2018 This book provides an ideal introduction to the French legal system and its internal workings, replete with the latest case law and developments.

Beyond Papillon Stephen A. Toth,2006-01-01 A multilayered social and cultural analysis that focuses upon the will of civil society and the will of those who actually lived and worked in the *bagne*, or penal colony.

Bastille Nation Jean Bérard,Gilles Chantraine,2013 *Bastille Nation* tells the story of an attempt to reform the French prison system, resulting in the passing of a penitentiary law at the end of 2009. This law had been ten years in the making, and was presented as the culmination of the modernization and humanization of the French prison system. The law was challenged by political parties, unions, associations and human rights groups. Yet, despite this opposition, the prison administration went about recovering its position of expertise in the face of this vocal criticism. Unresolved points of conflict still exist and continue to shift. The persistence of activist groups, official authorities and opposition parties has allowed prisoners to continue to challenge the system. By contributing to the study of the various means by which prisoners make demands and subjectify themselves, this book also recounts the history of prisons on the outside as well as on the inside, casting light on both the juxtaposition of voices and their unequal power relationship. -- Publisher.

Juries and the Transformation of Criminal Justice in France in the Nineteenth and Twentieth Centuries James M. Donovan, 2010-02-01 James Donovan takes a comprehensive approach to the history of the jury in modern France by investigating the legal, political, sociocultural, and intellectual aspects of jury trial from the Revolution through the twentieth century. He demonstrates that these juries, through their decisions, helped shape reform of the nation's criminal justice system. From their introduction in 1791 as an expression of the sovereignty of the people through the early 1900s, argues Donovan, juries often acted against the wishes of the political and judicial authorities, despite repeated governmental attempts to manipulate their composition. High acquittal rates for both political and nonpolitical crimes were in part due to juror resistance to the harsh and rigid punishments imposed by the Napoleonic Penal Code, Donovan explains. In response, legislators gradually enacted laws to lower penalties for certain crimes and to give jurors legal means to offer nuanced verdicts and to ameliorate punishments. Faced with persistently high acquittal rates, however, governments eventually took powers away from juries by withdrawing many cases from their purview and ultimately destroying the panels' independence in 1941.

Incitement to Terrorism Anne F. Bayefsky, Laurie R. Blank, 2018-03-22 Incitement to terrorism connects the dots between evil words and evil deeds. Hate precedes terror. History has already taught us that incitement to genocide and to

crimes against humanity unchecked will inevitably bring devastation to humankind. Incitement is an affront to the dignity of its victims, and poses a dire threat to all people of good will. However, combating incitement to terrorism poses operational, constitutional and human rights challenges on many fronts, both domestically and internationally. What is incitement? Where should the line be drawn between protected speech and incitement that should be criminalized? Does war change the calculus of what are appropriate and lawful measures to contain and respond to such incitement? And, perhaps most challenging of all, how does social media and the nature of communication and engagement in today's virtual world change or complicate how we think about and can respond to incitement?

Discipline and Punish Michel Foucault, 2012-04-18
A brilliant work from the most influential philosopher since Sartre. In this indispensable work, a brilliant thinker suggests that such vaunted reforms as the abolition of torture and the emergence of the modern penitentiary have merely shifted the focus of punishment from the prisoner's body to his soul.

French Code of Criminal Procedure Kock, 1964

The Development of the Criminal Law of Evidence in the Netherlands, France and Germany between 1750 and 1870 Ronnie Bloemberg, 2020-05-25
This book describes and explains how the so-called system of legal proofs, which consisted of a strict set of evidentiary rules, was replaced with the free evaluation of the evidence in France, Germany and the Netherlands between 1750 and 1870.

Genocide and Crimes Against Humanity Caroline Fournet, 2013-01-31 This book explores the ambiguities of the French law of genocide by exposing the inexplicable dichotomy between a progressive theory and an overly conservative practice. Based on the observation that the crime of genocide has remained absent from French courtrooms to the benefit of crimes against humanity, this research dissects the reasons for this absence, reviewing and analysing the potential legal obstacles to the judicial use of the law of genocide before contemplating the definitional impact of this judicial reluctance and the consequent confusion between the two crimes. Whilst it uses the French law of genocide and related case law on crimes against humanity as its focal points, the book further adopts a more general standpoint, suggesting that the French misunderstandings of the crime of genocide might ultimately be symptomatic of a more widespread misconception of the crime of genocide as a crime perpetrated against 'a group'.
