*Experimental Self-Portraits in Early French Photography* Jillian Lerner, 2020-11-16 This book explores a range of experimental self-portraits made in France between 1840 and 1870, including remarkable images by Hippolyte Bayard, Nadar, Duchenne de Boulogne, and Countess de Castiglione. Adapting photography for different social purposes, each of these pioneers showcased their own body as a living artifact and iconic attraction. Jillian Lerner considers performative portraits that exhibit uncanny transformations of identity and embodiment. She highlights the tactical importance of photographic demonstrations, promotions, conversations, and the mongrel forms of montage, painted photographs, and captioned specimens. The author shows how photographic practices are mobilized in diverse cultural contexts and enmeshed with the histories of art, science, publicity, urban spectacle, and private life in nineteenth-century France. Tracing calculated and creative approaches to a new medium, this research also contributes to an archaeology of the present. It furnishes a prehistory of the "selfie" and offers historical perspectives on the forces that reshape human perception and social experience. This interdisciplinary study will appeal to readers interested in the history of photography, art, visual culture, and media studies.

**French Photography, from Its Origins to the Present** Claude Nori, 1979

*20th century French photography*, 1988

Photo-texts Andy Stafford, 2010-01-01 What do photographs want? Do they need any accompaniment in today's image-saturated society? Can writing inflect photography (or vice versa) in such a way that neither medium takes precedence? Or are they in constant, inexorable battle with each other? Taking nine case studies from the 1990s French-speaking world (from France, North Africa and the Caribbean), this book attempts to define the interaction between non-fictional written text (caption, essay, fragment, poem) and photographic image. Having considered three categories of 'intermediality' between text and photography - the collaborative, the self-collaborative and the retrospective - the book concludes that the dimensions of their interaction are not simple and two-fold (visuality versus/alongside textuality), but threefold and therefore 'complex'. Thus, the photo-text, as defined here, is concerned as much with orality - the demotic, the popular, the vernacular - as it is with visual and written culture. That text-image collaborations give space to the spoken, spectral traces of human discourse, suggests that the key element of the photo-text is its radical provisionality.

**Contemporary Photography in France** Olga Smith, 2022-10-19 This compelling publication traces the broad arc of photography's development in France from the 1970s to the present day. A decade-by-decade account reveals unexpected points of convergence between practices that are not usually considered in a comparative perspective. These include photographic practices in contemporary art, documentary, photojournalism, and fashion. Author Olga Smith sets these practices in dialogue with French philosophy – the writings of Roland Barthes, Jean Baudrillard, and Jacques Rancière – to produce an innovative study of the intersections between the photographic image, text, practice, and theory. This analysis is guided by an understanding of photography as deeply engaged with historical, cultural, and intellectual events that defined French national experience in the contemporary period. Landscape provides a particular focus to study issues of key significance, including national identification, colonial past, legacies of modernization and environmental breakdown.

Proust in the Power of Photography Brassai, 2001-12 Drawing on his own experience as a photographer and author, Brassai discovers a neglected aspect of Proust's interests, offering us a fascinating study of the role of photography both in Proust's oeuvre and in early-twentieth-century culture.--BOOK JACKET.

*Basic Critical Theory for Photographers* Ashley la Grange, 2013-08-06 Basic Critical Theory for Photographers generates discussion, thought and practical assignments around key debates in photography. Ashley la Grange avoids the trap of an elitist and purely academic approach to critical theory, taking a dual theoretical and practical approach when considering the issues. Key critical theory texts (such as Sontag's 'On Photography' and Barthes' 'Camera Lucida') are clarified and shortened. La Grange avoids editorilising, letting the arguments develop as the writers had intended; it is the assignments which call into question each writer's approach and promote debate. This is the ideal book if you want to understand key debates in photography and have a ready-made structure within which to discuss and explore these fascinating issues. It is accessible to students, from high school to university level, but will also be of interest to the general reader and to those photographers whose training and work is concerned with the practical aspects of photography. Also includes invaluable glossary of terms and a substantial index that incorporates the classic texts, helping you to navigate your way through these un-indexed works. The book also contains useful information on photo-mechanical processes, explaining how a photograph can appear very differently, and as a result be interpreted in a range of ways, in a variety of books.

*The Modern Essay in French* Charles Forsdick, Andy Stafford, 2005 As a textual form, the *essai* predominates in modern and contemporary literature in French. Emerging from an earlier tradition and distinguished from its English-language counterpart, the French-language essay ranges from Stéphane Mallarmé to Colette, Victor Segalen to Aimé Césaire, Jean Grenier to Pierre Michon. The *essai* remains, however, one of the most hazily identified of textual forms, its definition often depending on the progressive elimination of all other generic possibilities. Excluded from the archigenres (theatre, poetry, *récit*), it can even be seen as a hold-all category whose role is to absorb the anarchic extremes of writing. It is perhaps this very lack of pretension to orthodoxy that has drawn so many writers to the *essai*. The conventional understanding of the term - as a tentative, unsystematic exploration - stresses the genre's provisional nature, its refusal of any claims to comprehensiveness. The *essai* exploits the devices of anecdote, illustration and humour; it is addressed to a wide and often general audience; it is also intricately linked to the performance of ideological and writerly strategies, often reordering the classical art of rhetoric and persuasion. As the contributions to this volume show, there is a need to outline an ethics and politics, as well as poetics, of essayism.

**Encyclopedia of Nineteenth-Century Photography** John Hannavy, 2013-12-16 The Encyclopedia of Nineteenth-Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth

century. It sets out to be the standard, definitive reference work on the subject for years to come. Its coverage is global – an important ‘first’ in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication. The Encyclopedia presents new and ground-breaking research alongside accounts of the major established figures in the nineteenth century arena. Coverage includes all the key people, processes, equipment, movements, styles, debates and groupings which helped photography develop from being ‘a solution in search of a problem’ when first invented, to the essential communication tool, creative medium, and recorder of everyday life which it had become by the dawn of the twentieth century. The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth-Century Photography an essential reference source for academics, students, researchers and libraries worldwide.

**Face** William A. Ewing, Nathalie Herschdorfer, 2008 In this groundbreaking publication, Ewing announces the death of the conventional portrait. In an age when we are bombarded with flawless images of youthful beauty, when rejuvenation is available through a jar of cream or a scalpel, artists and photographers seek to portray the face in new ways.

**I See London, I See France** Sarah Mlynowski, 2017-07-11 This endlessly fun and hugely entertaining romp through Europe had me laughing out loud and reaching for my passport.” –Jennifer E. In this hilarious and unforgettable adventure, New York Times bestselling author Sarah Mlynowski tells the story of a girl learning to navigate secret romances, thorny relationships, and the London Tube. As Sydney zigzags through Amsterdam, Switzerland, Italy, and France, she must learn when to hold on, when to keep moving, and when to jump into the Riviera...wearing only her polka dot underpants.

*Japan, France, and East-West Aesthetics* Jan Hokenson, 2004 Japan, France is the first comprehensive history of the idea of Japan in France, as tracked through close readings of canonical French writers and thinkers from the 1860s to the present. The focus is literary and intellectual, the context cultural. The discovery of Japanese woodblock prints in Paris, following the opening of Japan to the West in 1854, was a startling aesthetic encounter that played a crucial role in the Impressionists' and Post-Impressionists' invention of Modernism. French writers also experimented with Japanese aesthetics in their own work, in ways that similarly thread into the foundations of literary Modernism. Japonisme (the practice of adapting Japanese aesthetics to creative work in the West) became a sustained French tradition, in texts by such writers as Zola and Proust through Barthes and Bonnefoy. Each generation discovered new Japanese arts and genres, commented on the work of their predecessors in this vein, and broke still more ground in East-West aesthetics to innovate in the forms of Western literature and thought. To read literary history in this way unsettles Eurocentric assumptions about many of the French writers who are commonly considered the

**Theatre and Photography** Joel Anderson, 2015-01-14 Examining the relationship between theatre and photography, this book shows how the two intertwine and provide vantage points for understanding each other. Joel Anderson explores the theory and practice of photographing theatre and performance, as well as theatre and photography's mutual preoccupation with posing, staging, framing, and stillness.

**Photography Composition and Design** Tavis Leaf Glover, A skyscraper can’t be built without a proper foundation, just like a crunchy taco can’t be built without a shell. The same goes with your art, whether it’s street photography, fine art, cinematography, painting, or even sculpting. The techniques found in this book, though presented with street photos, will easily translate across every visual art and allow you to create remarkable, mouth-watering masterpieces. Countless artists out there want to push their art further, but they’ve run face first into a nasty plateau. Art is tough enough as it is, but without proper knowledge of composition and design it’s easy to end up in a dark alley waiting to be maliciously fondled by mediocre art. Don’t join the masses, join the elite! Learn serious composition and design techniques in a fun way that will launch you to the master level. You might even get a chuckle from the film photos capturing whacky tourists as they wonder aimlessly on the beautiful beach of Waikiki, Hawaii. Take part in the fun and seriously improve your art in a way that would make Da Vinci and Van Gogh smile with pride!

*Photography, Temporality, and Modernity* Kris Belden-Adams, 2019-01-14 This book examines the photography’s unique capacity to represent time with a degree of elasticity and abstraction. Part object-study, part cultural/philosophical history, it examines the medium’s ability to capture and sometimes defy time, while also traveling as objects across time-and-space nexuses. The book features studies of understudied, widespread, practices: studio portraiture, motion studies, panoramas, racing photo finishes, composite college class pictures, planetary photography, digital montages, and extended-exposure images. A closer look at these images and their unique cultural/historical contexts reveals photography to be a unique medium for expressing changing perceptions

of time, and the anxiety its passage provokes.

Photography as Activism Michelle Bogre,2012-11-12 You want to look through the lens of your camera and change the world. You want to capture powerful moments in one click that will impact the minds of other people. Photographic images are one of the most popular tools used to advocate for social and environmental awareness. This can be as close to home as drug use, prostitution, or pollution or as far away as famine, war, and the plight of refugees and migrant workers. One well-known example of an activist photographer would be landscape photographer Ansel Adams, who trudged to Washington with stunning images of the American west to advocate protecting these areas. His images and testimony were instrumental in creating the National Park System and garnering specific protection for Yellowstone National Park. More recently Robert Glenn Ketchum's images of Alaska's Arctic National Wildlife Refuge raised awareness of why this area should be protected. Nigel Barker's seal photographs advocates against seal clubbing. What is your cause and how can you use your camera to make the world a better place? This book provides a comprehensive theory of, and history of, photography as activism. It also includes interviews with contemporary photographers. It is a call to action for young photographers to become activists, a primer of sorts, with advice for how to work with NGOs and non-profits, how to work safely in conflict zones and with suggestions for distribution on websites, blogs, and interactive agencies.
