**International Commission on Radiation Units
and Measurements, International Commission
on Radiological Units and Measurements**

Fresh Air , Fresh Air is a radio program broadcast on National Public Radio (NPR) stations throughout the United States, as well as in Europe on the World Radio Network. Terry Gross hosts the program, which is broadcast daily and includes interviews with prominent cultural and entertainment figures. Users can listen to live broadcasts online, as well as archived shows. WHYY-FM produces the program in Philadelphia in Pennsylvania.

The Way We Talk Now Geoffrey Nunberg, 2001 This engaging collection of National Public Radio broadcasts and magazine pieces by one of America's best-known linguists covers the waterfront of contemporary culture by taking stock of its words and phrases. From our metaphors for the Internet (Virtual Rialto) to the perils of electronic grammar checkers (The Software We Deserve), from traditional grammatical bugaboos (Sex and the Singular Verb) to the ways we talk about illicit love (Affairs of State), Geoffrey Nunberg shows just how much the language we use from day to day reveals about who we are and who we want to be.

Communities of the Air Susan Merrill Squier, 2003-06-19 DIVA affirms the importance of invention of radio and explores how radio creates sets of overlapping communities of the air, including those who study and theorize radio as a technological, social, cultural, and historical phenomenon./div

All I Did Was Ask Terry Gross, 2004-09-01 I'm Terry Gross and this is Fresh Air . . . Now available in paperback--a selection of revealing

interviews from the award-winning National Public Radio show Originating from WHYY-FM in Philadelphia and heard on more than 450 NPR stations, Fresh Air with Terry Gross has become a daily habit with millions of listeners nationwide--a must for anyone hoping to keep up with what's happening in the arts. Over the last twenty years, Terry's guests have included our most significant writers, actors, musicians, comics, and visual artists. For her first collection, Terry has chosen more than three dozen timeless interviews that prove to be as lively on the page as they were on the radio. Her questions--probing yet sensitive--encourage revelations from figures as diverse as John Updike, Isabella Rossellini, Conan O'Brien, Samuel L. Jackson, Johnny Cash, and Nicolas Cage. And in her introduction, the generally self-effacing host of Fresh Air does something she wouldn't dream of doing on the air--she reveals a thing or two about herself.

Radio-activity Ernest Rutherford, 1904 The first textbook on radioactivity, surveying contemporary knowledge of the entire field. The book includes a discussion of Rutherford's revolutionary transformation theory, developed during the period 1902-1903, which states that radioactivity is a by-product of the transmutation of one element into another.

Border Radio Gene Fowler,Bill Crawford,2010-06-28 "Border Radio tells the 50,000-watt clear-channel story of the most outrageous and audacious phenomenon to ever hit the airwaves."—Los Angeles Times Before the Internet brought the world together, there was border radio. These mega-watt "border blaster" stations, set up just across the Mexican border to evade U.S. regulations, beamed programming across the United States and as far away as South America, Japan, and Western Europe. This book traces the eventful history of border radio from its founding in the 1930s by "goat-gland doctor"

J. R. Brinkley to the glory days of Wolfman Jack in the 1960s. Along the way, it shows how border broadcasters pioneered direct sales advertising, helped prove the power of electronic media as a political tool, aided in spreading the popularity of country music, rhythm and blues, and rock, and laid the foundations for today's electronic church. The authors have revised the text to include even more first-hand information and a larger selection of photographs. "The magic of [a] wildly colorful chapter in broadcast history lives on in this entertainingly informative look at the forces and the people who contributed to the rise of the medium."—Chicago Tribune "Characters like Wolfman Jack, Reverend Ike, Norman Baker, "Dr." J. R. Brinkley, Pappy O'Daniel and others were master showmen and tremendously successful salesmen. Secret-formula medicines, magic prayer cloths, Crazy Water Crystals, and goat-gland rejuvenations are just part of this often hilarious telling of this outrageous period in broadcast history."—Variety "If you're wondering where Herbalife, Home Shopping Network, No-Money-Down Seminars, and Jim and Tammy Bakker found their inspiration and techniques, look no further than this superb book."—Dallas Morning News

Forged Bart D. Ehrman, 2011-03-22 Bart D. Ehrman, the New York Times bestselling author of *Jesus, Interrupted* and *God's Problem* reveals which books in the Bible's New Testament were not passed down by Jesus's disciples, but were instead forged by other hands—and why this centuries-hidden scandal is far more significant than many scholars are willing to admit. A controversial work of

historical reporting in the tradition of Elaine Pagels, Marcus Borg, and John Dominic Crossan, Ehrman's *Forged* delivers a stunning explication of one of the most substantial–yet least discussed–problems confronting the world of biblical scholarship.

Lavishly illustrated with photographs and featuring exclusive interviews with the people involved, *Far Out at Sea* is a must read for all fans of offshore radio.
