Remaking College Rebecca Chopp, Susan Frost, Daniel H. Weiss, 2014 Residential liberal arts colleges maintain a unique place in the landscape of American higher education. These schools are characterized by broad-based curricula, small class size, and interaction between students and faculty. Aimed at developing students' intellectual literacy and critical-thinking skills rather than specific professional preparation, the value proposition made by these colleges has recently come under intense pressure. *Remaking College* brings together a large and distinguished group of higher education leaders to define the American liberal arts model, to describe the challenges these institutions face, and to propose sustainable solutions. Both economic and strategic environments have developed to threaten these schools. Since 1990, for example, 35 percent of these institutions have transformed into professional colleges offering more vocational fields to their curricula while others have closed their doors entirely. Is there a future for these uniquely American institutions like Vassar and Smith, Macalester and Pomona, Middlebury and Swarthmore? *Remaking College* elucidates the shifting economic and financial models for liberal arts colleges and considers the opportunities afforded by technology, globalism, and intercollegiate cooperative models. Finally, it considers the unique position these schools can play in their communities and in the larger world--

Dirtbag Amber A'Lee Frost, 2023-12-05 The victories and failures of millennial socialism, as told by the writer who lived it. Amber A'Lee Frost came to New York City from her home state of Indiana as a working class activist (and member of then-unknown Cold War hold-out, Democratic Socialists of America), just before the first major movement for economic justice of the millennium, Occupy Wall Street. Of course, Occupy went bust, then Bernie Sanders went boom, and she threw herself into the campaign with everything she had. Frost has been one of the foremost evangelists of labor and socialist politics ever since, as a writer, activist, former staff and lifetime member of DSA, and cohost of the wildly popular Chapo Trap House podcast. *Dirtbag* is the much-anticipated debut from one of the most engaging and insightful writers of her generation. This book is more than a political

memoir; it is a chapter in the story of the only movement that has a chance to reshape our world into something better. It captures an electric time of thrilling triumphs, stupid decisions, friendships and rivalries new and old, struggle, joy, setbacks, and heartbreak, all with magnetic prose, remarkable candor, and unflappable humor. Throughout it all, Frost burned the candle at both ends, relentlessly campaigning for socialism and the labor movement, from the American Midwest to the British rust belt, and rallying the troops with her brothers-in-arms as a self-described propagandist for the glorious cause of the workers movement (and somehow, always finding moments for plenty of reckless adventuring). The time was a brutal calamity of work and play, with all of the late nights, hard fights, and joyous camaraderie powered by the hope and the faith that maybe, somehow, this time, socialism could actually win.

ORLANDO Virginia Woolf, 2023-11-28 Orlando: A Biography, is a fictional work published in 1928. Virginia Woolf was an English author, essayist, publisher, and writer of short stories, regarded as one of the foremost modernist literary figures of the twentieth century. During the interwar period. The novel is semi-biographical based and dedicated to Woolf's lover Vita Sackville-West. Well regarded for it's impact on gender studies and the stylized approach in which it portrays women. The novel was conceived as a writer's holiday from more structured and demanding novels. Woolf allowed neither time nor gender to constrain her writing. The protagonist, Orlando, ages only thirty-six years and changes gender from man to woman. This pseudo-biography satirizes more traditional Victorian biographies that emphasize facts and truth in their subjects' lives. Although Orlando may have been intended to be a satire or a holiday, it touches on important issues of gender, self-knowledge, and truth with Virginia Woolf's signature poetic style. Adeline Virginia Woolf (25 January 1882 - 28 March 1941) was an English writer, and one of the foremost modernists of the twentieth century. During the interwar period, Woolf was a significant figure in London literary society and a central figure in the influential Bloomsbury Group of intellectuals.
