**Sweet Sensations** Vivien Owens,2013-01-04 In Sweet Sensations, Vivien shares her culinary adventures in the hope that readers will find baking these tasty treats a relaxing and nurturing experience—she guarantees that the results will be delicious! In this book Vivien shares her collection of sweet recipes accumulated over several decades. Her rock cakes recipe comes from a cooking book issued to cooking students at the Williamstown High School where she attended over fifty-five years ago, and is yet to find one to beat it! Even older recipes have been passed down to from her mother, her grandmother and mother-in-law. One in particular, ‘Mum's Almond Biscuits’, must be 120 years old and has stood the test of time – it is still a well-loved family favourite. Other recipes were collected from newspapers, magazines, television cooking shows, advertisements, pamphlets, friends, and from her sisters—who themselves are great cooks. Some recipes were hastily scribbled on scraps of paper at the hairdresser's or in the doctor's waiting room. All have a special place in both her heart and memory. She has books full of bits of paper containing both hand-written and printed recipes, and knows exactly where to find just about any recipe she may be looking for! Vivien and MP Publishing would like to invite you to submit your photographs of any of the recipes you make from this book for a chance to feature in the eBook. Visit the Sweet Sensations by Vivien Owens facebook fan page for more information, to enter your photographs and free recipes from the book!

The Cocktail Cabinet Zoe Burgess,2022-09-01 \*\*\* In THE COCKTAIL CABINET flavour expert Zoe Burgess demystifies cocktails, explaining and exploring the structures, flavour profiles and techniques used. In the first part of the book Zoe helps you understand why cocktails work, looking at the five basic tastes and other elements, including the flavour profiles of key spirits. She pulls apart classic recipes to explore their structure and explains why certain ingredients work together. Understanding these elements allows you to understand and build on your personal taste preferences, opening up a vast palette of options - including those of your own creation. The second part of the book puts that knowledge into practice, with more than 80 recipes for drinks organised by cocktail type - champagne-based, stirred, bitter, sour and long. In each chapter Zoe builds on the basic recipe, layering on additional ingredients and variations to ensure you go on the journey of exploration with her, and get under the skin of how the cocktails are built. Throughout the book informative illustrations show everything from the flavour profiles of spirits to the deconstructed building blocks of each cocktail. Cocktails are about enjoyment, of course, but what this ingenious book demonstrates is that the more you understand what you're drinking, the more you will enjoy not only that drink but the whole world of delicious options that understanding opens up.
