*The Language of Beauty in African Art* Constantine Petridis,2022-03-08 This ambitious publication centers indigenous perspectives on traditional artworks from Africa by focusing on the judgments and vocabularies of members of the communities who created and used them. It explores cross-cultural affinities spanning the African continent while respecting local contexts; it also documents an exhibition that is extraordinary in scope and scale. The project's overriding goal is to reconsider Western evaluations of these arts in both aesthetic and financial terms. The volume features nearly 300 works from collections around the world and from the important holdings of the Art Institute of Chicago. Although it emphasizes the sculptural legacy of sub-Saharan cultures from West and Central Africa, it also includes examples of artistic traditions associated with eastern and southern Africa as well as textiles and objects designed for domestic, ritual, and decorative functions.00Exhibition: Kimbell Art Museum, Fort Worth, TX, USA (03.04. - 31.07.2022) / Art Institute of Chicago, USA (20.11.2022 - 27.02.2023).

Shahzia Sikander Sadia Abbas,Jan Howard,2020-10-15 Pioneering Pakistani American artist Shahzia Sikander is one of the most influential artists working today. Sikander is widely celebrated for expanding and subverting miniature painting to explore gender roles and sexuality, cultural identity, racial and other underrepresented narratives, and colonial and postcolonial histories. This lively volume presents her powerful early work, created between 1987 and 2003, from South Asian, West Asian, and Western perspectives, illuminating new understandings for a wide audience. Charting her early development as an artist in Lahore and the United States, the book reclaims her critical role in bringing miniature painting into dialogue with contemporary art, especially in Pakistan, international art discourse of the 1990s, and contemporary global practices and debates.
