**Smokescreen** Kevin A. Sabet, 2021-04-20 From the leading authority on marijuana—a man who has served as White House advisor on drugs to three different administrations and who NBC News once called “the prodigy of drug politics—comes the remarkable and shocking exposé about how 21st century pot, today’s new and highly potent form of the drug, is on the rise, spreading rapidly across America by an industry intent on putting rising profits over public health. *Smokescreen: What the Marijuana Industry Doesn't Want You to Know* examines the inside story behind the headlines, containing accounts from Sabet’s time in the Obama administration to stunning revelations from whistleblowers speaking out for the first time. What it finds is how the marijuana industry is running rampant without proper oversight, leaving Americans’ health seriously at risk. Included are interviews with industry insiders who reveal the hidden dangers of a product they had once worshipped. Also contained in these pages are insights from a major underground-market dealer who admits that legalization is hastening the growth of the illicit drug trade. And more to the heart of the issue are the tragic stories of those who have suffered and died as a result of marijuana use, and in many cases, as a result of its mischaracterization. Readers will learn how power brokers worked behind the scenes to market marijuana as a miracle plant in order to help it gain widespread acceptance and to set the stage for the lucrative expansion of recreational pot. The author of this compelling first-person narrative leading the national fight against the legalization of cannabis through his nonprofit, Smart Approaches to Marijuana (aka SAM) is Kevin Sabet. As a policy advisor to everyone from county health commissioners to Pope Francis, and a frequent public speaker on television, radio and through other media outlets, his analysis is consistently relied upon by those who recognize what’s at stake as marijuana lobbyists downplay the risks of massive commercialization. A book several years in the making, filled with vivid characters and informed by hundreds of interviews and scores of confidential documents, Sabet's *Smokescreen* lays bare the unvarnished truth about marijuana in America.

**Marijuana** The New York Times Editorial Staff, 2018-12-15 Today's headlines shine light on the growing trend toward the legalization of marijuana, a psychoactive drug derived from the cannabis

plant whose use cuts across diverse classes of people. In this compilation of articles, readers encounter a journalistic history of cannabis use. These articles explore every facet of these diverse approaches, highlighting an array of medical, economic, and social perspectives on marijuana and those who use it.

*How to Smoke Pot (Properly)* David Bienenstock, 2016-04-12 “A humorous and informative trip through the drug’s various medicinal compounds, a timeline of its history, and recipes that take you beyond the standard pot brownie—with pro tips from cannabis-friendly celebrities sprinkled throughout.”—Vanity Fair Once literally demonized as “the Devil’s lettuce,” and linked to all manner of deviant behavior by the establishment’s shameless anti-marijuana propaganda campaigns, cannabis sativa has lately been enjoying a long-overdue Renaissance. So now that the squares at long last seem ready to rethink pot’s place in polite society, how, exactly, can members of this vibrant, innovative, life-affirming culture proudly and properly emerge from the underground—without forgetting our roots, or losing our cool? In *How to Smoke Pot (Properly)*, VICE weed columnist and former High Times editor David Bienenstock charts the course for this bold, new, post-prohibition world. With plenty of stops along the way for pro tips from friends in high places, including cannabis celebrities and thought leaders of the marijuana movement, readers will learn everything from the basics of blazing, to how Mary Jane makes humans more creative and collaborative, nurtures empathy, catalyzes epiphanies, enhances life’s pleasures, promotes meaningful social bonds, facilitates cross-cultural understanding, and offers a far safer alternative to both alcohol and many pharmaceutical drugs. You’ll follow the herb’s natural lifecycle from farm to pipe, explore cannabis customs, culture and travel, and discover how to best utilize and appreciate a plant that’s at once a lifesaving medicine, an incredibly nutritious food, an amazingly useful industrial crop, and a truly renewable energy source. You’ll even get funny and informative answers to burning questions ranging from: How can I land a legal pot job? to Should I eat a weed cookie before boarding the plane? In two-color, with charts and illustrations throughout, *How to Smoke Pot (Properly)* is truly a modern guide to this most revered herb.

**Pot, Inc.** Greg Campbell, 2012-04-03 Greg Campbell, coauthor of the bestselling *Flawless and Blood Diamonds*, presents a compelling, close-up investigation of a hot-button topic: America’s schizophrenic attitude to the legalization of pot. Campbell, a suburban father whose biggest vice is a cold beer, seems like the last person who would grow weed in his basement. But his attitude changed in 2009, when his home state of Colorado led the nation in mainstreaming medical marijuana. Watching with fascination as above-board and financially thriving dispensaries popped up everywhere, Campbell wondered, “Why not me?” *Pot, Inc.* chronicles Greg’s journey into DIY ganjapreneurialism, as he learns how to cultivate marijuana, examines America’s often unduly harsh laws, and unearths ignorance about pot’s centuries-old therapeutic value—ignorance the government is desperate to maintain. Along the way, he also gains a very personal insight into the drug’s medicinal value that shapes his opinion about legalization.

**Dying to Get High** Wendy Chapkis, Richard J. Webb, 2008-08-03 Investigates one community of seriously ill patients fighting the federal government for the right to use physician-recommended marijuana. This book tackles the broader, complex history of medical marijuana in America. It asks what distinguishes a legitimate patient from an illegitimate pothead, and good drugs from bad.

*Stoned* David Casarett M.D.,2015-07-14 A doctor discovers the surprising truth about marijuana. No substance on earth is as hotly debated as marijuana. Opponents claim it's dangerous, addictive, carcinogenic, and a gateway to serious drug abuse. Fans claim it as a wonder drug, treating cancer, anorexia, AIDS, chronic pain, glaucoma, arthritis, migraines, PTSD, and insomnia. Patients suffering from these conditions need—and deserve—hard facts based on medical evidence, not hysteria and superstition. In *Stoned*, palliative care physician Dr. David Casarett sets out to do anything—including experimenting on himself—to find evidence of marijuana's medical potential. He smears mysterious marijuana paste on his legs and samples pot wine. He poses as a patient at a seedy California clinic and takes lessons from an artisanal hash maker. In conversations with researchers, doctors, and patients around the world he learns how marijuana works—and doesn't—in the real world. Dr. Casarett unearths tales of near-miraculous success, such as a child with chronic seizures who finally found relief in cannabidiol oil. In Tel Aviv, he learns of a nursing home that's found success giving marijuana to dementia patients. On the other hand, one patient who believed marijuana cured her lung cancer has clearly been misled. As Casarett sifts the myth and misinformation from the scientific evidence, he explains, among other things: • Why marijuana might be the best treatment option for some types of pain • Why there's no significant risk of lung damage from smoking pot • Why most marijuana-infused beer or wine won't get you high Often humorous, occasionally heartbreaking, and full of counterintuitive conclusions, *Stoned* offers a compassionate and much-needed medical practitioner's perspective on the potential of this misunderstood plant.

*Pothead* Neal Pollack,2020-06-16 A poignantly funny account of renowned writer and humorist Neal Pollack's years as a marijuana addict. Beginning innocently enough in his 20s, Neal Pollack discovers that pot makes everything—food, music, sex—better. Getting married, having a kid, and enjoying professional success do nothing to dampen Pollack's enthusiasm for getting high. As cannabis grows stronger and more widely available, the expansion and acceptance of marijuana Big Business shadows Pollack's dependence. By 2014, Neal is a correspondent for a national marijuana newspaper, mostly because it means free pot. Diving into the wild, wicked world of weed with both lungs, Pollack proceeds to smoke, vape, and eat his way to oblivion, leading to public meltdowns and other embarrassing behavior. After his mother dies in 2017, he spirals out of control, finally hitting bottom during a reckless two-day gambling and drug-filled binge, culminating in a public crack-up at the World Series in Dodger Stadium. Three weeks later, he quits. After joining a twelve-step program, Neal outs himself as a marijuana addict in a 2018 New York Times op-ed piece, leading to his decision to document his experience as a cautionary tale for the millions of recreational users in the hazy age of legalized weed.

*Thai Stick* Peter Maguire,Mike Ritter,2013-11-12 The untold history of the underground marijuana trade in Thailand—from surfers and sailors to pirates. Located on the left bank of the Chao Phya River, Thailand's capital, Krungthep, known as Bangkok to Westerners and “the City of Angels” to Thais, has been home to smugglers and adventurers since the late eighteenth century. During the 1970s, it became a modern Casablanca to a new generation of treasure seekers, from surfers looking to finance their endless summers to wide-eyed hippie true believers, and lethal marauders left over from

the Vietnam War. Moving a shipment of Thai sticks from northeast Thailand farms to American consumers meant navigating one of the most complex smuggling channels in the history of the drug trade. Many forget that until the mid-1970s, the vast majority of marijuana consumed in the United States was imported, and there was little to no domestic production. Peter Maguire and Mike Ritter are the first historians to document this underground industry, the only record of its existence rooted in the fading memories of its elusive participants. Drawing on hundreds of interviews with smugglers and law enforcement agents, the authors recount the buy, delivery, voyage home, and product offload. They capture the eccentric personalities of the men and women who transformed the Thai marijuana trade from a GI cottage industry into a professionalized business moving the world's most lucrative commodities, unraveling a rare history from the smugglers' perspective. "Highly recommended for anyone who loves adventure, cannabis, surfing, or all of the above. It's every single bit as heady, energetic and captivating as the title implies."—Cannabis Now

**Becoming a Marihuana User** Howard S. Becker, 2015-07-06 OG Kush. Sour Diesel. Wax, shatter, and vapes. Marijuana has come a long way since its seedy days in the back parking lots of our culture. So has Howard S. Becker, the eminent sociologist, jazz musician, expert on "deviant" culture, and founding NORML board member. When he published *Becoming a Marihuana User* more than sixty years ago, hardly anyone paid attention—because few people smoked pot. Decades of Cheech and Chong films, Grateful Dead shows, and Cannabis Cups later, and it's clear—marijuana isn't just an established commodity, it's an entire culture. And that's just the thing—Becker totally called it: pot has everything to do with culture. It's not a blight on culture, but a culture itself—in fact, you'll see in this book the first use of the term "users," rather than "abusers" or "addicts." Come along on this short little study—now a famous timestamp in weed studies—and you will be astonished at how relevant it is to us today. Becker doesn't judge, but neither does he holler for legalization, tell you how to grow it in a hollowed-out dresser, or anything else like that for which there are plenty of other books you can buy. Instead, he looks at marijuana with a clear sociological lens—as a substance that some people enjoy, and that some others have decided none of us should. From there he asks: so how do people decide to get high, and what kind of experience do they have as a result of being part of the marijuana world? What he discovers will bother some, especially those who proselytize the irrefutably stunning effects of the latest strain: chemistry isn't everything—the important thing about pot is how we interact with it. We learn to be high. We learn to like it. And from there, we teach others, passing the pipe in a circle that begins to resemble a bona fide community, defined by shared norms, values, and definitions just like any other community. All throughout this book, you'll see the intimate moments when this transformation takes place. You'll see people doing it for the first time and those with considerable experience. You'll see the early signs of the truths that have come to define the marijuana experience: that you probably won't get high at first, that you have to hold the hit in, and that there are other people here who are going to smoke that, too.
