Tones and Tunes: Typological studies in word and sentence prosody Tomas Riad, Carlos Gussenhoven, 2007 Phonology and Phonetics have had a tumultuous, if not always unequivocal, relationship in the past. This relationship between natural partners is now being invigorated from both sides and novel research techniques and methodologies are fostering new interdisciplinary questions. Consequently, a major issue today is whether it is necessary to draw a line between phonology and phonetics at all. This series aims to stabilize and strengthen the rapport and, by facing the big challenges, to ensure that phonetically grounded phonology and phonologically informed phonetics will have a sound future. The series is intended as a forum for the interaction of phonology and phonetics within linguistics. It welcomes joint phonological-phonetic ventures as well as initiatives from either discipline, as long as they are made with a view of the other. Tones of Affection Hershe Sundae, 2021-05-12 Kai Mayers is what you would call a cool breeze. She has always been able to effortlessly move about in her creativity, style, humor, and intelligence. Engaged to her college sweetheart, Robert, the twenty-eight-year-old Los Angeles-native has landed herself a dream job as the new creative director at Cocoa Valentine, a fashion label in Chicago and brand to be reckoned with. Strong, black, and determined, life for Kai seems to be right on schedule, at least that's what her therapist says. The pains of losing her mother and the strain of her relationship with her father have inspired her to seek the help of a professional. Preparing for not only a new change in her career and moving to the Midwest, the newest upcoming title of wife is turning her vision of wedding bells into fire alarms. She wants more than just a pretty picture. What she wants and truly desires is peace, her most fashionable garment. To Kai, mental health and beauty goes hand in hand in her complex world. She is determined to build her brand and her mental well-being, but as with everything and anything, there's a battle brewing with some of her key players. Trauma, lies, and deceit in Kai's cup begin to overflow, and her past begins to call amid the shadows. How will she set the tone for her life? When familiar faces drift into dark places, will she allow new light to guide her path? Let's take a walk in her stilettos to follow her journey.

The Responsorial Psalm Tones for the Mozarabic Office Don Randel, 2015-12-08 This definitive study takes as its subject a group of melodies copied many times, even within single manuscripts. Professor Randel is therefore able to base his conclusions about the relationship of the manuscript sources to one another on twenty-six separate Spanish manuscripts. He shows that there were actually four distinct traditions associated with these manuscripts instead of two as formerly assumed. By comparing the four traditions, he draws new conclusions about the relative antiquity of the written tradition for these psalm tones, the presence or absence of a modal system in the Mozarabic chant, and the development of the two general types of notation. Originally published in 1969. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions.
