The Knowledge Gap Natalie Wexler, 2020-08-04

The untold story of the root cause of America's education crisis--and the seemingly endless cycle of multigenerational poverty. It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education. The problem wasn't one of the usual scapegoats: lazy teachers, shoddy facilities, lack of accountability. It was something no one was talking about: the elementary school curriculum's intense focus on decontextualized reading comprehension skills at the expense of actual knowledge. In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The*

Teacher Wars, Wexler brings together history, research, and compelling characters to pull back the curtain on this fundamental flaw in our education system--one that fellow reformers, journalists, and policymakers have long overlooked, and of which the general public, including many parents, remains unaware. But The Knowledge Gap isn't just a story of what schools have gotten so wrong--it also follows innovative educators who are in the process of shedding their deeply ingrained habits, and describes the rewards that have come along: students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed. If we truly want to fix our education system and unlock the potential of our neediest children, we have no choice but to pay attention.

Ideas of Note Chaz Hutton, 2017-04-11 A collection of exceptionally clever and funny diagrams that break down life's everyday foibles from the creator of the popular Instagram feed @instachaaz. Charles Hutton is the voice behind "Insta-Chaz." Hundreds of thousands follow his very witty takes on the highs and lows of daily life via graphs, charts, and simple illustrations on the ubiquitous yellow, rectangular Post-it note. All his observations are from the point of view of his online alter-ego, Chaz, whose most popular traits with readers are his social awkwardness, vague insecurity, dislike of office Mondays, and regret for boozy Sundays. But his riffs go beyond Dilbert-esque complaints about co-workers and unfortunate alcohol consumption and accurately hit nerves and funny bones regarding a broad range of life's quotidian struggles. It's all there, from the anxiety levels of forgetting names at parties (only slightly less stressful than that of air traffic controllers) to charting the cycles of hope, despair, and willful forgetfulness while using Tinder to the infrequent occurrence of the perfect avocado. Divided into quirky meditations on Work, Home, Entertainment, Food & Drink, and Technology, the book introduces a fresh, appealing new voice that will resonate with countless others who can't help but laugh when they recognize

themselves in infographic form.

How to Take Smart Notes Sönke Ahrens, 2022-03-11 This is the second, revised and expanded edition. The first edition was published under the slightly longer title How to Take Smart Notes. One Simple Technique to Boost Writing, Learning and Thinking - for Students, Academics and Nonfiction Book Writers. The key to good and efficient writing lies in the intelligent organisation of ideas and notes. This book helps students, academics and other knowledge workers to get more done, write intelligent texts and learn for the long run. It teaches you how to take smart notes and ensure they bring you and your projects forward. The Take Smart Notes principle is based on established psychological insight and draws from a tried and tested note-taking technique: the Zettelkasten. This is the first comprehensive guide and description of this system in English, and not only does it explain how it works, but also why. It suits students and academics in the social sciences and humanities, nonfiction writers and others who are in the business of reading, thinking and writing. Instead of wasting your time searching for your notes, quotes or references, you can focus on what really counts: thinking, understanding and developing new ideas in writing. Dr. Sönke Ahrens is a writer and researcher in the field of education and social science. He is the author of the award-winning book "Experiment and Exploration: Forms of World Disclosure" (Springer).
