*Time Out Barcelona* The Editors of Time Out,2011-08-03 Barcelona barely has time to take down the bunting between its rollicking festivals — when there isn't an all night fiesta happening on the street, there's more likely a party on the beach (only 10 minutes away) and never any shortage of action in its clubs and bars. Gentler pursuits are also myriad: the city's museums have got it all covered from Picasso and Miro to perfume and an outstanding aquarium. Its galleries are among the most avant-garde in Europe, and its history writ large in the churches and perfectly preserved medieval alleyways of the Barri Gotic. Time Out's local journalists give travelers the inside scoop on where to stay, eat, shop and what to see. Suggested day-trips to coast, country, and city are also included.

**Life to Those Shadows** Noël Burch,1990-11-21 Noel Burch's new book is a critique of the assumptions underlying 'classical' approaches to film history: the assumption that what we call the language of film was a natural, organic development, that it lay latent from the outset in the basic technology of the camera, waiting for the prescient pioneers to bring it into being; and the assumption that this language was a universal, neutral medium, innocent of any social or historical meaning in itself. His major thesis is that, on the contrary, film language has a social and economic history, that it evolved in the way it did because of when and where it was constructed -- in the capitalist and imperialist west between 1892 and 1929. The book examines the chronology of the emergence of what it defines as cinema's Institutional Mode of Representation and the socio-historical circumstances in which this took place. It examines the principles of visualisation -- camera placement and movement, lighting, editing, mise-en-scene -- that film-makers and audiences came to internalize over the first three decades. Special emphasis is laid on the allimportant change that occurred in the imaginary placing of the spectator, from a position of exteriority to the film image, implicit in both film-form and viewing conditions during the primitive era (pre-1909), to the imaginary centering of the spectator-subject, completed only with the generalisation of lip-synch sound after 1929. It is the contention of this book that this imaginary centering of a sensorily isolated spectator is the keystone of the cinematic illusion of reality, still achieved today by the same means as it was sixty years ago.

*City Stages* Michael McKinnie,2013-06-17 In every major city, there exists a complex exchange between urban space and the institution of the theatre. *City Stages* is an interdisciplinary and materialist analysis of this relationship as it has existed in Toronto since 1967. Locating theatre companies ? their sites and practices ? in Toronto?s urban environment, Michael McKinnie focuses on the ways in which the theatre has adapted to changes in civic ideology, environment, and economy. Over the past four decades, theatre in Toronto has been increasingly implicated in the civic self-fashioning of the city and preoccupied with the consequences of the changing urban political economy. *City Stages* investigates a number of key questions that relate to this pattern. How has theatre been used to justify certain forms of urban development in Toronto? How have local real estate markets influenced the ways in which theatre companies acquire and use performance space? How does the analysis of theatre as an urban phenomenon complicate Canadian theatre historiography? McKinnie uses the St. Lawrence Centre for the Arts and the Toronto Centre for the Performing Arts as case studies and considers theatrical companies such as Theatre Passe Muraille, Toronto Workshop Productions, Buddies in Bad Times, and Necessary Angel in his analysis. *City Stages* combines primary archival research with the scholarly literature emerging from both the humanities and social sciences. The result is a comprehensive and empirical examination of the relationship between the theatrical arts and the urban spaces that house them.

*Ocean of Sound* David Toop,1995 *Ocean of Sound* begins in 1889 at the Paris Exposition when Debussy first heard Javanese music performed. A culture absorbed in perfume, light and ambient sound developed in response to the intangibility of 20th century communications. David Toop traces the evolution of this culture, through Erik Satie to the Velvet Underground; Miles Davis to Jimi Hendrix. David Toop, who lives in London, is a writer, musician and recording artist. His other books are *Rap Attack 3* and *Exotica*,

Public Space Matthew Carmona,Claudio de Magalhães,Leo Hammond,2008-06-03 In both the UK and the US there is a sense of dissatisfaction and pessimism about the state of urban environments, particularly with the quality of everyday public spaces. Explanations for this have emphasized the poor quality of design that characterizes many new public spaces; spaces that are dominated by parking, roads infrastructure, introspective buildings, a lack of enclosure and a poor sense of place, and which in different ways for different groups are too often exclusionary. Yet many well designed public spaces have also experienced decline and neglect, as the services and activities upon which the continuing quality of those spaces have been subject to the same constraints and pressures for change as public services in general. These issues touch upon the daily management of public space, that is, the coordination of the many different activities that constantly define and redefine the characteristics and quality of public space. This book draws on three empirical projects to examine the questions of public space management on an international stage. They are set within a context of theoretical debates about public space, its history, contemporary patterns of use and changing nature in western society, and about the new management approaches that are increasingly being adopted.

**The Golden Age of Roller Coasters** David W. Diane,David W. Francis,Diane DeMali Francis,2003 The Roller Coaster-the Cyclone at Coney Island, the Racer at Pittsburgh's Kenywood Park, the Blue Streak at Sandusky's Cedar Point-icon of the midway, capable of reducing even the strongest of grown men to screaming, white-knuckled hysterics. During the early decades of the 20th century, daring designers pushed the limits of these high-speed thrillers, reaching hundreds of feet in height and thousands of feet in length, with ever more miles of winding, twisting, lurching track dominating the landscapes of America's amusement parks. Most of the roller coasters from that golden age are gone today. Thankfully, they live on in memory, preserved in vintage postcards that provide a lasting record of the magnificent wooden structures that thrilled our parents, grandparents, and great-grandparents.

**Disney & His Worlds** Alan Bryman,2003-09-02 This work provides an overview of the Disney organization, in particular the theme parks and their significance for contemporary culture. The author examines topics such as Walt Disney's life and how his biography has been constructed, the

Disney Company in the years after his death and various writings about the Disney theme parks. He raises important issues about the parks such as: whether they are harbringers of postmodernism; the significance of consumption at the parks; and the representation of past and future. The discussion of theme parks links with the presentation of Disney's biography and his organization by showing how central economic and business considerations have been in their development and how the significance of these considerations is typically marginalized in order to place an emphasis on fantasy and magic.

**Southland** Nina Revoyr,2003-04-01 I'm an LA native with a lot of love for LA crime fiction, but instead of preaching to the noir choir about The Long Goodbye, I'd like to gush about Southland by Nina Revoyr. It's a brilliant, ambitious, moving literary crime novel about two families in South Los Angeles and their tangled history between the 1930s and the 1990s. The central mystery is the death of four black boys in a Japanese-American man's store during the Watts Rebellion of 1965. It's a powerful book, one that I think about often, as well as a huge influence on my work. Right up there with Chandler. --Stephanie Cha (of the LARB) in GQ on The Greatest Crime Novelists on Their Favorite Crime Novels Ever A story about injustice dressed up as a detective novel, Southland reminds us that activism is both an ongoing project and a deeply personal choice. --Vallaire Wallace in Electric Lit on The Novel That Shows Us How to Face our Past to Change Our Future Jackie Ishida's grandfather had a store in Watts where four boys were killed during the riots in 1965, a mystery she attempts to solve. --New York Times Book Review, Ross MacDonald on Where Noir Lives in the City of Angels It is the kind of saga that often epitomizes and shocks LA--friction and violence between races and cultures. --Los Angeles Times, named one of the 20 Essential LA Crime Books When I started working on Your House Will Pay, I hoped to write something that was half as smart and affecting as Southland. Revoyr's novel takes place in the Crenshaw district of Los Angeles, following two families--one black, one Japanese--over several decades. It's a character-driven saga with the engine of a crime novel, unravelling a horrific multiple murder that took place in the chaotic days of the Watts Rebellion in 1965. --The Guardian (UK), one of Steph Cha's Top 10 Books About Trouble in Los Angeles [A]n absolutely compelling story of family and racial tragedy. Revoyr's novel is honest in detailing southern California's brutal history, and honorable in showing how families survived with love and tenacity and dignity. --Susan Straight, author of Highwire Moon Southland brings us a fascinating story of race, love, murder and history, against the backdrop of an ever-changing Los Angeles. A young Japanese-American woman, Jackie Ishida, is in her last semester of law school when her grandfather, Frank Sakai, dies unexpectedly. While trying to fulfill a request from his will, Jackie discovers that four African-American boys were killed in the store Frank owned during the Watts Riots of 1965. Along with James Lanier, a cousin of one of the victims, Jackie tries to piece together the story of the boys' deaths. In the process, she unearths the long-held secrets of her family's history. Southland depicts a young woman in the process of learning that her own history has bestowed upon her a deep obligation to be engaged in the larger world. And in Frank Sakai and his African-American friends, it presents characters who find significant common ground in their struggles, but who also engage each other across grounds--historical and cultural--that are still very much in dispute. Moving in and out of the past--from the internment camps of World War II, to the barley fields of the Crenshaw District in the 1930s, to the streets of Watts in the 1960s, to the night spots and garment factories of the 1990s--Southland weaves a tale of Los Angeles in all of its faces and forms.

*Greetings from Bertrand Island Amusement Park* Martin Kane,Laura Kane,2000 In an age before jets, air-conditioning, and superhighways, Lake Hopatcong was a major northeast resort. It lay within easy reach of large cities to the east, and its size and setting at over nine hundred feet above sea level made it a perfect holiday destination. From the late nineteenth century through World War II, more than forty lake hotels and rooming houses welcomed thousands of vacationers each year. After the war, the lake continued to be a popular spot for renting a bungalow or buying a summer cottage. But for many, Lake Hopatcong will always be remembered as the home of Bertrand Island Park. Although Bertrand Island Park closed in 1983, there is no place in northwestern New Jersey that is more fondly remembered. For some seventy years, the park thrilled youngsters and adults alike. The park opened during the peak of Lake Hopatcong's resort years, and its popularity continued as the lake evolved from a hotel resort to a community of second homes and finally into a year-round locale. Generations of school groups, church outings, company picnics, and residents from throughout the region delighted in the wooden roller coaster, the magical carousel, and the scores of other rides and games.

*Geographies, Genders and Geopolitics of James Bond* Lisa Funnell,Klaus Dodds,2016-12-27 This book discusses the representational geographies of the Bond film franchise and how they inform our reading of 007 as a hero. Offering a new and interdisciplinary lens through which the franchise can be analyzed, Funnell and Dodds explore a range of topics that have been largely, if not entirely, overlooked in Bond film scholarship. These topics include: the shifting and gendering of geopolitical relations; the differing depiction and evaluation of vertical/modern and horizontal/pre-modern spaces; the use of classical elements in defining gender, sexuality, heroic competency, and geopolitical conflict; and the ongoing importance of haptics (i.e. touch), kinesics (i.e. movement), and proxemics (i.e. the use of space) in defining the embodied and emotive world of Bond. This book is comprehensive in nature and scope as it discusses all 24 films in the official Bond canon and theorizes about the future direction of the franchise.
