**Ocean of Sound** David Toop, 1995 Ocean of Sound begins in 1889 at the Paris Exposition when Debussy first heard Javanese music performed. A culture absorbed in perfume, light and ambient sound developed in response to the intangibility of 20th century communications. David Toop traces the evolution of this culture, through Erik Satie to the Velvet Underground; Miles Davis to Jimi Hendrix. David Toop, who lives in London, is a writer, musician and recording artist. His other books are Rap Attack 3 and Exotica,

**The Jukebox in the Garden** David Ingram, 2010 Since the rise of the contemporary ecology movement in the 1960s, American songwriters and composers, from folk singer Pete Seeger to jazz saxophonist Paul Winter, have lamented, and protested against, environmental degradation and injustice. The Jukebox in the Garden is the first book to survey a wide range of musical styles, including folk, country, blues, rock, jazz, electronica and hip hop, to examine the different ways in which popular music has explored American relationships between nature, technology and environmental politics. It also investigates the growing link between music and philosophical thought, particularly under the influence of both deep ecology and New Age thinking, according to which music, amongst all the arts, has a special affinity with ecological ideas. This book is both an exploration and critique of such speculations on the role that music can play in raising environmental awareness. It combines description and analysis of American popular music made during the era of modern environmentalism with a consideration of its wider social, historical and political contexts. It will be of interest to undergraduates and post-graduates in music, cultural studies and environmental studies, as well as general readers interested in popular music and the environment.

**Consuming Places** JOHN Urry, 2002-03-11 John Urry has been discussing and writing on these and similar questions for the past fifteen years. In Consuming Places, he gathers together his most significant contributions. Urry begins with an extensive review of the connections between society, time and space. The concept of 'society', the nature of 'locality', the significance of 'economic restructuring', and the concept of the 'rural', are examined in relationship to place. The book then considers how places have been transformed by the development of service occupations and industries. Concepts of the service class and

post-industrialism are theoretically and empirically discussed. Attention is then devoted to the ways in which places are consumed. Particular attention is devoted to the visual character of such consumption and its implications for place and people. The implications for nature and the environment are also explored in depth. The changing nature of consumption, and the tensions between commodification and collective enthusiasms, are explored in the context of the changing ways in which the countryside is consumed.

*Last Orders* Graham Swift, 2012-09-19 Four men gather in a London pub. They have taken it upon themselves to carry out the last orders of Jack Dodds, master butcher, and deliver his ashes to the sea. As they drive towards the fulfillment of their mission, their errand becomes an extraordinary journey into their collective and individual pasts. Braiding these men's voices, and that of Jack's widow, into a choir of sorrow and resentment, passion and regret, Swift creates a testament to a changing England and to enduring mortality. Swift has involved us in real, lived lives...Quietly, but with conviction, he seeks to affirm the values of decency, loyalty, love.--New York Review of Books A beautiful book...a novel that speaks profoundly of human need and tenderness. Even the most cynical will be warmed by it.--San Francisco Chronicle

**Vestibular Migraine and Related Syndromes** Bruno Colombo, Roberto Teggi, 2014-08-18 This book provides a multidisciplinary approach to vestibular migraine and related syndromes in which dizziness is the most predominant feature. Starting from the neurological point of view, the pathophysiology, classification, neurophysiology and therapy of migraine are discussed. Readers will learn how to recognize and properly treat vestibular migraine, which is often undiagnosed or misdiagnosed as Ménière's syndrome (a form of vertigo characterized by vertigo spells and hearing loss that presents comorbidity with migraine) or benign paroxysmal positional vertigo (in which patients experience brief episodes of vertigo, lasting from seconds to 1 minute, when they move their heads in a certain way). The described diagnostic and therapeutic strategies include the newest, state of the art approaches. Further aspects of migraine that are considered include hyperexcitability in the brain and the triad of migraine, dizziness and anxiety. In addition, the imaging of migraine, and of vestibular migraine in particular, is discussed and clinical records are reported. Vestibular Migraine and Related Syndromes is based on the practical and clinical experiences of an authoritative group of well-known neurologists, ENT specialists and neuro-otologists. It provides neurologists with a complete overview of relevant clinical features, otolaryngologists with clear descriptions of clinical aspects and the pathophysiology of migraine and radiologists with guidance on the role of imaging techniques.

Empire of Dirt Wendy Fonarow, 2013-09-01 Britain is widely considered the cradle of independent music culture. Bands like Radiohead and Belle and Sebastian, which epitomize indie music's sounds and attitudes, have spawned worldwide fanbases. This in-depth study of the British independent music scene explores how the behavior of fans, artists, and music industry professionals produce a community with a specific aesthetic based on moral values. Author Wendy Fonarow, a scholar with years of experience in the various sectors of the indie music scene, examines the indie music "gig" as a ritual in which all participants are actively involved. This ritual allows participants to play with cultural norms regarding appropriate behavior, especially in the domains of sex and creativity. Her investigation uncovers the motivations of audience members when they first enter the community and how their positions change over time so that the gig functions for most members as a rite of passage. Empire of Dirt sheds new light on music, gender roles, emotion, subjectivity, embodiment, and authenticity.

Anagram Solver Bloomsbury Publishing,2009-01-01 Anagram Solver is the essential guide to cracking all types of quiz and crossword featuring anagrams. Containing over 200,000 words and phrases, Anagram Solver includes plural noun forms, palindromes, idioms, first names and all parts of speech. Anagrams are grouped by the number of letters they contain with the letters set out in alphabetical order so that once the letters of an anagram are arranged alphabetically, finding the solution is as easy as locating the word in a dictionary.

**Geographies, Genders and Geopolitics of James Bond** Lisa Funnell,Klaus Dodds,2016-12-27 This book discusses the representational geographies of the Bond film franchise and how they inform our reading of 007 as a hero. Offering a new and interdisciplinary lens through which the franchise can be analyzed, Funnell and Dodds explore a range of topics that have been largely, if not entirely, overlooked in Bond film scholarship. These topics include: the shifting and gendering of geopolitical relations; the differing depiction and evaluation of vertical/modern and horizontal/pre-modern spaces; the use of classical elements in defining gender, sexuality, heroic competency, and geopolitical conflict; and the ongoing importance of haptics (i.e. touch), kinesics (i.e. movement), and proxemics (i.e. the use of space) in defining the embodied and emotive world of Bond. This book is comprehensive in nature and scope as it discusses all 24 films in the official Bond canon and theorizes about the future direction of the franchise.

**Beyond the Hallowed Sky** Ken MacLeod,2023-03-21 Mathematician Lakshmi Nayak receives a letter from her future self about faster-than-light travel. The equations work, and the letter itself seems to prove the possibility will someday be realized. But her paper on the topic is fiercely criticized, and she's warned away by a sinister Alliance agent. After defecting to the Union, she gets an unexpected offer: "I can build your ship." Shipbuilder John Grant learns of a secret project, which unknown to the world has been traveling to the stars for decades: Black Horizon. Biologist Emma Hazeldene works for Black Horizon on an alien world, Apis, whose life has clearly come from Earth, investigating rock formations that are thought to be an alien, crystal-like intelligence. But refugees exiled to a hard life in the wilds of Apis already know more than the scientists have ever suspected. Everything changes when the rocks wake up, with dire results. As secrets emerge and rival powers seize advantage, three worlds are shaken to their foundations—and all involved have to fight for their lives, and their futures. Science fiction legend Ken MacLeod begins a new space opera trilogy by imagining humankind on the precipice of discovery—the invention of faster-than-light travel unlocks a universe of new possibilities, and new dangers.

The Resistible Demise of Michael Jackson Mark Fisher,2009 The essays in *The Resistible Demise of Michael Jackson* consummately demonstrate that writing on popular culture can be both thoughtful and heartfelt. The contributors, who include accomplished music critics as well as renowned theorists, are some of the most astute and eloquent writers on pop today. The collection is made up of new essays written in the wake of Jackson's death, and includes Barney Hoskyns' classic NME piece written at the time of *Thriller*, and contributions from Ian Penman, David Stubbs, Paul Lester, and Chris Roberts.

Disney & His Worlds Alan Bryman,2003-09-02 This work provides an overview of the Disney organization, in particular the theme parks and their significance for contemporary culture. The author examines topics such as Walt Disney's life and how his biography has been constructed, the Disney Company in the years after his death and various writings about the Disney theme parks. He raises

important issues about the parks such as: whether they are harbringers of postmodernism; the significance of consumption at the parks; and the representation of past and future. The discussion of theme parks links with the presentation of Disney's biography and his organization by showing how central economic and business considerations have been in their development and how the significance of these considerations is typically marginalized in order to place an emphasis on fantasy and magic.

*Humour and Irony in Dutch Post-war Fiction Film* Peter Verstraten,2016 This study examines a range of Dutch post-war fiction films and also works as an implicit overview on the basis of types of humour, like low-class comedy, neurotic romances; deliberate camp, homosocial jokes, cosmic irony, grotesque satire. This title was made Open Access by libraries from around the world through Knowledge Unlatched.
